Jenkins likely leader in wider SDP franchise

THE

By Julian Haviland, Political Editor

The Social Democratic Party yesterday emerged from a day and a half of purposeful debate with a more democratic and flexible draft constitution, which will go to all 78,000 members at the end of next month for ratification.

month for ratification.

The ballot form will seek the members' verdict on the document as a whole, and on the two specific points which most roused and divided the convention in Kensington, west London. These were the method of electing the leader and the question of whether men and women should be equally represented on the equally represented on the main policy-forming body, the Council for Social Democracy.

The vote on giving women half the council seats produced a tie on Saturday, despite Mrs Shirley Williams's pleas from the platform. She had urged the party to make the enhance ment of opportunities for, women a substantial part of its

appeal.

There were more women in the Commons in 1951 than there were today, she said, and it was no good saying that things were getting better.

The women's lobby secured two lesser victories. They are to have special representation for women on the national committee, the controlling organiz-

mittee, the controlling organiz-ation of the party outside Parliament, and also the right to inclusion on short-lists for selection of parliamentary candidates.

Bur equal representation on the council was the main goal and this concept may rejected as too modern by the mass membership.

Mrs Williams said yesterday that such an outcome would mean that the party was less radical than she had hoped.

The leadership commundrum was reduced from eight bright ideas to three firm proposals. Members must decide whether MPs alone, without endorsement by the wider party; by every member of the party with no special vote for MPs; or a compromise under which every one would have a vote in the first leadership election, but subsequent elections would be left to MPs.

The one-member one-vote system was the preference of 166 of the 305 accredited representatives. But when asked to refine their choice, in a second ballot, they opted by 83 votes to 81, with two abstentions, for the system to be reviewed after three years. Unless the Kensington convention proves wholly unrepre-

sentative, the party seems cer-

franchise in the end.

At one time it was held that
Mrs Williams would win under the wider franchise, with Mr Roy Jetkins the MPs' probable choice. Mr Jenkins, provided he can enter Parliament, now seems the likeliest choice seems the likeliest choice under any system. He said yesterday that he was content to let the membership decide.

The convention alternated between docility and self-assertion and by the end it had swallowed, 'without major alteration, a document six times as long as the constitution of the United States.

The structure is unchanged, comprising a Council for Social Democracy, of 400 or more elected members, meeting three times a year; a national committee of about 40, mainly indirectly elected; and, as well as the leader, a president as the leader, a president elected by every party member in a ballot, to chair both council and committee.

Attempts from the floor to give real power to the conaultative assembly, the annual gathering which every member is entitled to attend, were firmly rejected.

The platform was defeated eight times, apart from the roadblock on the vote of women.

Members insisted that con-

stituencies were given greater freedom: that areas should be receive 20 per cent of their members' subscriptions and that the subscription rate be set by the council rather than the national committee.

The leadership was defeated on a proposal requiring it to set up a national youth organization. And representatives forced a vote making it relatively easy for the party's constitution to be overhauled in three years if it proves

One vote carried as much anguish as the women's rights issue. The constitution's pre-amble, rejecting prejudices based upon sex, race or re-ligion, was recently extended to embrace "gender, race, colour, sexual orientation or religion'

A proposal to go back to the original wording was denounced as being designed to Ms Polly Toynbee pleaded the harassment of homosexuals and the importance of breaking new ground, but lost her cause.

The party seems tolerant enough to the observer. But it likes words, particularly in constitutions, to have precise and comprehensible meanings.

Police arrest 194 in Poznan protest

Warsaw. Feb 14.—Police the agency said.—Reuter and citing to demonstrations, the them high school and university the structure demonstration of the structure demonstration of the structure demonstration. them high school and university students, during demonstra-tions yesterday in Poznan, Western Poland, the Polish news agency PAP reported today. The day marked two months of military rule in the country.

In Lublin, south-west Poland, s home-made bomb hidden among potatoes in a satisfact bag was found at a petrol station yesterday, the agency said. It contained 13lb of explosives of the type used in mines. The device, connected of batteries and a clock, was defused by a worker at the petrol station.

An explosion could have set off underground petrol tanks and caused "a massacre," PAP said. It added that the petrol station was near the premises of a party organization, a hospital and a school. In the Poznan incident, PAP said, groups of people had gathered in the centre of the city, "provoked by leaflets in-

Without giving further de-tails, the agency said police calls for the crowd to disperse weer ignored. Police then moved in and arrested 194 people ", mostly high school and university students or per-

sons who are neither employed nor studying anywhere."

It added that of those arrested 162 people were "punished by misdemeanour As a result of the disorders

in Poznan, the regional defence committee decided to tighten a number of martial law restrictions which previously had been eased. As of tomorrow, private cars are banned in Poznan and the sale of petrol is prohibited except to people granted special per-mits such as doctors, veterinary surgeons and suppliers of farm produce. Cinemas, theatres and other public entertainment had been closed,

Rebels hold out on island in Hama

From Robert Fisk Damascus, Feb 14

The Syrian Government's attempt to portray the uprising at Hama as a localized battle between the authorities and the extremist Muslim Brotherhood began to founder tonight with reports that regular Syrian troops in the city had mutinied and crossed over to the side of the rebels.

In Damascus, where the violence is inevitably being projected as part of an American plot, government officials took the unprecedented step of ng foreign co dents that they risked being shot by the security police if they fried to travel to Hama. One dispatch—originating in Turkey—talked of an entire Syrian division transferring its allegiance to the Brotherhood; the story is unconfirmed and almost certainly untrue but it the serious state into which Syria's internal security has now fallen.

Fighting continued in Hama for the twelfth successive day today as units of special forces troops tried to force their way into the medieval streets of the old city. The rebels—who clearly comprise more than just a few extremists from the Muslim Brotherhood-are using rocket launchers as well as automatic rifles and hand-grenades in the battles along the south-western banks of the Orontes river. The district, once popular with tourists for its wooden waterwheels and Islamic museum, is now under tank and mortar attack by

government troops. The fact that the rebels are holding out in buildings on an island in the old city — connected to the riverbank by a narrow bridge — makes the task of assaulting their positions all the more difficult. One resident from Hama, who arrived in Damascus at the weekend, said that he had to leave the city when his house was destroyed by shell-fire, Casualties are put between 2,000 and 3,000 dead and wounded,

the Government announced this afternoon that the main road between Damascus and the northern city of Aleppo — which runs through Hama — Defiant Warsaw, page 5 had been reopened although Continued on back page, col 5

Government inquiry urged into transfer of 'Times' titles By Staff Reporters

The Opposition is to ask the Government to examine whether the transfer of the titles of The Times and The Sunday Times from Times

Newspapers Ltd to Mr Rupert Murdoch's News International breaches the conditions im-posed when Mr Murdock took over the newspapers last year.

The transfer was agreed by the executive board of Times Newspapers Ltd (TNL) in December. The newspapers' independent national directors on the main Times Newspapers
Inolding Board were not consulted, an 'omission described
yesterday as "breathtaking
subterfuge" by Mr John
Smith, the Shadow Trade
Minister, who is to ask Mr
John Biffen, Secretary of State
for Trade, to intervene.
Sir William Rees-Mogg, for-

Sir William Rees-Mogg, for-mer editor of The Times, has also written to Mr Biffen describing the transfer as illegal and "clearly a breach of the agreement made at the time of the sale and, more importantly, of the conditions attached for your approval.".

Sir William added that the transfer would obviously facilitate closure of the newspapers if Mr Murdoch's demands for staff cuts are not agreed by the end of the week. The demands are for 600 redundancies from TM is 2500 for the income that the staff cuts are for 600 redundancies. cies from TNL's 2,600 full-time employees.

Mr Murdoth, who is in the United States told The Sunday Times that the transfer was made on legal advice to protect the titles. "It does not in any

way affect either the control of these newspapers, or the guarantees of editorial independence which were given by News International at the time the meaning of section 154 of Companies Act, 1948) of NIL, of the purchase of Times News-

papers", he said.
The move was agreed unanimously by the board of Times Newspapers. The special role of the independent direc-tors in no way affected." Another TNL board mem-ber, Mr Roy Eckberg, former company secretary of TNL and

now financial director of the company and of News International, said: "The board of TNL have behaved perfectly correctly in the context of the legal advice we received."

conditions imposed by Mr Biffen before he agreed to the sale, without reference to the In a statement on the pro-The Sunday Times and its three supplements, Mr Biffen said on January 27, 1981:

"NIL (News International)

shall not without the consent of a majority of the independ-ent national directors for the time being of Times News-papers Holdings Ltd (TNHL) do anything or procure or per-mit anything to be done, which (i) NIL, by reason of any

transfer, ceasing to be a news-paper proprietor in relation to

The Times or The Sunday Times, or (ii) either NHL or Times Newspepers Ltd (TNL), ceasing to be a subsidiary (within

(iii) TNL selling or otherwise disposing of any interest in The Times or The Sunday

be latter condition carried criminal law sanctions of a fine or up to two years' imprisonment, or both, under the Fair Trading Act. 1973. Similar penalties could be imposed if the papers were not published

The argument centres on unclause in the articles of asso-dertakings given by Mr Mur-doch when he took over the special resolution. This said: "Neither the directors nor the company shall have power to do anything or procure or permit anything to be done which Monopolies Commission. These shall result in the selling or were later incorporated in otherwise disposing of any in-TNL's articles of association. terest in either The Times newspaper or The Sunday Times newspaper or the business of publishing either newspaper except on terms approved by and with the prior consent of Times Newspapers Holdings Limited in accordance with that company's Articles of Association."

Several pational directors and other members of the main TNHL holding company board, of which Mr Murdoch is chairman, yesterday con-firmed that they were not told of the transfer. Lord Dacre of Continued on back page, col 1

A king trapped in a sandy maze

From Trevor Fishlock Chambal Valley, north-west India

Malkhan is a bandit king It says so on the headed paper he uses to send threats and taunts to the policemen hunt

taunts to the policemen hunting him. It says so, too, on the rubber stamp he bangs on the ransom notes he dispatches to wealthy men whose sons he has kidnapped.

He and his gang have killed and kidnapped many people. There are more than a hundred serious crimes listed against them. The police have put them at the top of the league of ruthless dacoits who plague and terrorize this

cise 2 is wer of

rey 'est acil his ave its ick sed

ng on vi-ts its ite a % be 40

league of ruthless dacoits who plague and terrorize this region of northern India.

There is a swagger about Malkhan, in keeping with his status and the high price on his head. His headed note-paper is not mere insolence or black humour. He rules by menace but sees himself as a principled and justified chief. He deals out rough justice and

principled and justified chief. He deals out rough justice and doles out money. Robin Hood fashion, and villagers touch his feet in respect.

He is 38 tall, thin, and watchful, and wears khaki police uniform with a superintendent's pips on the epaulettes and his name in Hindi on his tunic breast.

Malkhan slips through net

through net

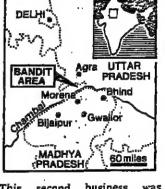

But for all his panache Makhan is on the run. He dare not sleep two nights in the same place. He is out there somewhere, about 70 miles south-east of the Taj Mahal, in the sandy labyrinthine ravines, the thick jungle and the scented yellow mustard fields; and the police net is slowly tightening.

His support is being eroded, his food sources watched. He knows that — sooner or later

knows that — sooner or later —someone may betray him for

money or reverge.

But Malkhan is cunning and the net still has holes. Not long ago he slipped across the Chambal River at dusk and made for a village near the town of Bhind. There were two scores to settle: an 18-year feud with a farmer, and the matter of a man who had the matter of a man who had tried to poison one of his

This second quickly done. The man was dragged from his home. "Poisoner", Malkhan said, and shot him.

Revenge on the farmer was more profitable. Malkhan abducted his son, aged 24, and kept him three months in the ravines before the father raised the equivalent of £3,000 to get his son back.
Kidcapping along with rou-tine extortion is the dacoits'

greatest money maker. Some of Malkhan's loot pays for temple upkeep. He is religious and tries to worship at an image of bloody-mouthed Kali, Godess of Death, every

Monday.

He also heeds portents. The sight of a snake can lead to many limits of a raid. More practically he forbids the womanizing and drinking that have led to the betrayal and death of other bandits. He also sleeps apart from the gang, his bodyguard on watch. But even cunning and careful dacoits make mistakes. Pan Singh, another top-league killer and kidnapper, wanted for more than 50 crimes, made a fatal error last October. His men found refuge in a walled village near Bound, believing caste fellowship with the vil-lagers secured their safety. The last entry in Pan Singh's captured diary shows he spent 30 rupees (£1.80) on whisky and 150 rupees on a goat to

Last race ended in hail of bullets

But the police were told and 300 men ringed the village. The shooting went on for hours and in the end Pan Singh made

a run for it.

Running has been his life.
In his prime he had been an Indian sports hero, an international athlete, holder for 10 years of the national 3,000 metres record. Then he became embroiled in a land feud in his village, and committed murder; it was the usual way of settling quarrels in this violent region. He fled to the ravines and set up us a bandit.

His last desperate race ended in a bail of bullets.
Popular songs in the Cham-

bal Valley say that death in battle is better than death in bed, that "a man whose enemy sleeps has no right to live". They are part of the glamour that clinas to outlaws in a region the size of Wales unique for its tradition of brigandage. This is the first of two articles by Trevor Fishlock on the bandits of northern India. Next: the police tusis.

Mugabe makes bitter attack on Nkomo

Mr Robert Mugabe made a Mr Robert Mugabe made a scathing personal attack this weekend on Mr Joshua Nkomo, his partner in Zimbabwe's coabtion Government. He said a decision would be taken this week on the future of their alliance after the discovery of huge arms caches on farms owned by Mr Nkomo's Patriotic Front.

The Prime Minister's speech The Prime Minister's speech was the most forceful public criticism he has ever made of his old rival. It includes a list of what he described as Mr. Nkomo's failures and short-comings as a leader which observers saw as a suggestion

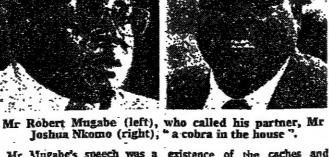

to resign.
Likening Mr Nkomo and his Likening Mr Momo and and party to "a cobra in the house", Mr Mugabe said:
"The only way to deal with a snake is to strike and destroy its head. How else can I describe a man we sumposed was cribe a man we supposed was our friend and whom we in-vited to be part of the Government when it could have been just our party?

Mr Mugabe's speech was a existence of the caches and consequence of a series of that action by his own Zaou searches of Patriotic Front (PF) party could be expected farms over the past week to follow this week. He said farms over the past week to follow this week. He said which have turned up caches he was deeply upset that while of machineguns, ground to air his party had been striving to missiles, mortars and automatic rilles. Addressing a rally in Marandellas, Mr Mugabe said

that Patriotic Front officials would be asked to explain the

Troughous Said 14.1

consolidate Zimbabwe's inde-pendence the Patriotic Front had been stockpiling enough weapons to arm 20,000 men and "start another war". Mr Mugabe said that

independence the Patriotic Front had bought about 25 farms and 30 businesses across the country. "We have now established that these were not genuine enterprises but places to hide weapons to start another war at an appropriate time", he added. It is understood that as puni-

tr is understood that as pulli-tive action Zanu (PF) is con-sidering confiscating the five farms on which arms were dis-covered. An amendment to covered. An amendment to emergency powers providing for the seizure of "enemy property" empowers the authority to act against an individual or organization deemed to have been involved in subversive activity.

Other action against Mr Nkomo and the Patribtic Front may also be under consideration but-bearing in mind the clashes between former Nkomo and Mugabe guerrillas this time last year when tensions were again running bighshould stop short of scrapping

Delaying action on lead in petrol 'would be criminal'

A major firm of management consultants, Coopers and Ly-brand, criticize the Government a report today for not making a commitment to leadfree petrol. Britain would be "criminal", it says, not to take every reasonable precaution against lead pollution even while there is still scientific debate about the dangers. The report was commis-sioned by the Campaign for Lead-free Air (CLEAR) and ollows a defence in the House of Commons by Mrs Thatcher of Government policy to reduce the lead content to 0.15 grams per litre by 1985.

Mrs Thatcher was answering nuestions from Mr Michael Foot after The Times published.

a letter from the Government's Chief Medical Officer, Sir Henry Yellowless, which warned last year that action should be taken over the dangers of lead in petrol which was putting at risk the health of thousands of children.

Coopers and Lybrand were asked by CLEAP to review recent scientific literature and to comment on the benefits and implications of a move to lead-free petrol. They conlead-free petrol. They con-clude: "We thus have a situation where the notential costs. of totally removing lead from netrol are substantial. Although difficult to assess without further research, it is possible within a few years to remove all lead from petrol, while

still enabling the motor vehicle to operate effectively. "However, on the other side of the tquation the potential costs of not removing the lead from petrol are uncertain but potentially enormous. The growing evidence that the intellicence of a substantial number of children may be adversely affected must be of major concern."

By George Brock Although recommending more research into particular

aspects of the problem, the consultants echo the Chief Medical Officer in saying that Government decisions should not wait for conclusive scienti-fic proof. Lead pollution is, they say, "a complex and dif-ficult subject and it may prove even more difficult than in the case of the health effects of smoking to quickly produce a cast iron demonstration that proves beyond all reasonable doubt the connection between lead absorption and health and behavioural effects. The report analyses five options which were taken into

account when the Government made its decision last year and which were published by the Department of Transport two years ago. "Option 2" was a reduction of petrol lead content to a maximum of 0.15 grams per litre—the choice eventually announced by the Government.
"Option 5" was for the

Government to insist that new cars should run on lead-free petrol. But, Coopers and Lybrand say, the DoT report totally overlooked the further noscibility of combining possibility of combining Options 2 and 5, a practical alternative which would achieve three objectives: the fastest reduction of lead emissions in car exhausts: the eventual, introduction of leadfree petrol and the elimination of uncertainty for the petrol and car industries.

Amoco, a leading oil company, has said it is considering producing lead-free petrol for the British market and could have supplied it 10 years ago had Government regulations required it, according to a report in The Sunday Times yesterday

Cases of assault and robbery

have gone up by 11 per cent in Strathclyde, and other increases include: carrying

offensive weepons, 41 per cent; thefts and breakins, 19 per cent; embezzlement, fraud and

forgery, 27 per cent; drugs offences, 34 per cent; assaults on police, 38 per cent.

The figures are the more worrying because the police bad previously contained the

traffic wardens, overtime working, or ancillary services.

The cuts come as police in

cent in 1979-80.

were not worse.

Cuts in police spending have as the force had to take on been agreed by the Strathclyde many duties formerly perpolice and fire committee deformed by civilians. strathclyde's authorized strength is 6,955, but it was reduced to 6,802 by December 31, by not replacing officers who left. spite a warning by police of rising crime. And the West Midlands force also expects to face cuts as county council committee chairmen today re-sume a meeting adjourned after six hours on Friday to decide what to axe.

Mr Edwin Shore, chairman of the West Midlands Police Authority, said the police budget would be cut even though there was a 13 per cent rise in

crime in the area last year.

according to the Labourcontrolled Association of Met-ropolitan Authorities. Mr Patrick Hamili, Strath-clyde's Chief Constable, has

£96,964,000 in 1981-82, and a proposed cut of a further 2699,000 comes up for ratification by the full council on March 3.

in December, Mr Hemill reported that crime up to Sep-tember last year was 11.4 per cent higher than in the same period in 1980. His annual report, due out on March 25, is expected to show a similar rise for the whole year.

Mr Hamill says that an

bingo code sought by Opposition

By Kenneth Gosling

Mr John Fraser, the opposi-tion consumer affairs spokes-man, yesterday called on Government departments to join with the Office of Fair Trading in drawing up a code of conduct for newspaper bingo competitions after thousands of Daily Mail readers on Saturday visited and telephoned the newspaper's offices in the belief that they had won a large

prize.
"It would avoid the bitter disappointment that they suffered after thinking they had won a lot of money when they checked their coupons". he said. Mr Fraser said it was

his view that bingo games were ruinous to newspapers that featured them. The Daily Mail's game is called "Casino" and is played with coupons distributed to home.

On Saturday the paper published two numbers, 11 and 26, 78, followed by increases of 1.7 per cent in 1978-79 and 1.6 per for Game Six, which had been running for 11 days. The flood-gates opened and many readers who discovered that they had Mr Shore, of the West Mid-lands, would not say where police cuts there are expected to fall, but likely targets are qualifying them for a prize or at least a shere in a prize, headed for the paper's London

The game offers a jackpot of £70,000 or a reduced, and shared, payout of £35,000 if no claim based on the first of the published numbers is received. The newspaper issued a statea recurrence of last year's riots and to check mugging by put-ting more officers on patrol. The West Midlands force, par-ticularly in Handsworth, has been a pioneer of community ment asking claimants to send policing, which is seen as a reason why last year's troubles winning entries to them by recorded delivery, to arrive not later than tomorrow.

The Association of Metro-politan Authorities has sent figures to the Home Secretary Mr Fraser said: "I think the papers that indulge in bingo all wish they could get out." He said this was not the showing that the share of re-sources would increase by 24 per cent in 1982-83 for Lonfirst mix-up there had been in newspaper cames. "There are already codes of conduct in don's police, compared with order areas, such as prize draws, and I think the Depart-ment of Trade should look at it." 3.4 per cent for other forces. Mr Whitelaw has told the Association: "The possibility of a reduction is being looked ar

Newspaper bingo has been helping to increase the circula-tion of the popular dailies. The the force had less money. collapse, February 5, of its intention to suspend them. That notice was not received until four days later, and the

Act lays down that suspension cannot take place until at least six working days after receipt, which makes Wednesday of this week the earliest day. But the authority does not have to take immediate action,

particularly if there are representations against suspension. It is understood that such representations have already been made. When a final decision to suspend is made, the Act lays down a further 21-day period before the licences can be

There are two options open to Sir Freddie in his efforts to start flying with his "people's airline". He can either wipe the slate clean and apply to start up as a completely new operator, or he can seek to have the existing licences transferred to a reconstructed

Company,
Although the procedure Although the procedure at the aviation authority would be slightly different in each case, he would be expected to prove in both instances that he is a fit and proper person financi-ally and operationally to run an airline, and that his management record was satisfactory.

Opportunities would have to opportunities would have to be given to objectors to state their case, and it is apparent that both BCal and British Airways would demand hear-

Airways would demand hearings.

In either case the procedure would be lengthy, and the chances of a new or revived airline flying the Atlantic by Sir Freddie's stated target date of April seem slim.

Meanwhile, Sir Freddie flew to Paris yesterday on a private aircraft owned by the Lourho company. The reason for his

company. The reason for his trip was not immediately known, but Mr Paul Spicer, a Lonrho director, said he thought it was likely Sir Freddie was having talks with the Eximbank syndicate, which is owed about £121m for loans

British Airtours, a subsidiary of British Airways, announced of British Airways, announced yesterday that it had won a contract worth film to carry inclusive holiday passengers for Owners' Services Ltd/Viking to destinations in Europe this summer. That contract, which involves about 160,000 passengers, was previously held by Laker Airways.

McAliskey charms the voters

By Donald Macintyre Labour Correspondent Hopes of ending the six-week-old national rail dispute were resting last night on a re-port by Lord McCarthy's in-quiry team, which is not now likely to be published until to-morrow morning.

The three-man team were

said last night not to have completed the report, the timing of which means that the next one-day strike by 20,000 drivers will go ahead from midnight tonight.

The executive of the Associated Society of Locomotive Engineers and Firemen, which declined to take part in the inquiry, may have to adjourn a session of its executive called for this afternoon until tomorrow.
As the rail network was

shut down yesterday for the fifth successive Sunday, speculation continued that Lord McCarthy might recommend payment of the 3 per cent so far witheld from train drivers, and that the issue of flexible working be referred through the industry's own machinery for resolution with-

in a matter of days. Senior BR sources insisted last night that it would require last night that it would require a firm recommendation in favour of flexible rostering from the inquiry team and acceptance of that principle from Aslef before they would agree to payment of the 3 per cent. It remained open to the board to reject the report if these transfers of the second to reject the report if these transfers of the second to reject the report if these transfers of the second to reject the report if these transfers of the second to reject the report if these transfers of the second to reject the report if these transfers of the second to reject the report if these transfers of the second to reject the report if these transfers of the second to reject the report if the second to reject the reject the report if the second to reject the report if the second to reject the two issues were not

Such a move would then leave the Railway Staff National Tribunal, which like the inquiry is chaired by Lord McCarthy, with the task of deciding the extent of variations to the eight-hour day.

Mr Mostyn Evans, general secretary of the Transport and General Workers' Union, and British Airways management will hold talks today on the dispute involving 2,000 BA ground staff at Heathrow (the Press Association reports). The meeting was called after shop stewards rejected a BA peace formula on Saturday.

BA yesterday operated 85 per cent of its European services out of Heathrow, using volun-

NEWS IN SUMMARY

Alert over paraquat in river

Water supplies to 150 families were cut off yesterday after paraquat weedkiller contaminated a river and a contaminated a river and a stream. Police set up special patrols to guard the stream, at Morley, West Yorkshire, and warned thousands of people to keep away.

The paraquat escaped from the paraquat escaped from the paragraph of the paragraph of

storage drums after an explosion at a transport depot. The chemical mixed with water from firemen's hoses and poured into the stream. It also seeped into the River Calder, which runs through Morley Wakefield and Morley, Wakefield and Castleford. The Yorkshire Water Auth-ority said tests had shown

there was no danger to domestic water supplies, but as a precaution the families would remain disconnected for the time being.

A West Yorkshire police

spokesman said: "It is vital that people stay away from this river. The chemical is highly toxic and can easily kill. It will be at least three days before the danger passes."

New route for A27 section

The new route for the eight-mile section of the A27 trunk road between Havant, Hampshire, and Chichester, West Sussex has been announced after a public inquiry that lasted several rey 'est acil his ave its ick sed on he ke ici-in

ng ey on vi-sts ust ust te a % be 40

The road will pass north of the excavated Roman palace at Fishbourne, near Chich-ester, and join the Chichester by-pass at its western end.

Announcing the new route, Mr Kenneth Clarke, Parlia-mentary Under-Secretary of State for Transport, said it would serve as a by-pass for several communities along the existing section of the A27 between Havant and Chichester.

Ilkeston man backed The National Executive Committee of the Labour Pary has endorsed Counillor David Bookbinder as prospective parliamentary candidate for likeston, Derbyshire. Mr Bookbinder, the leader of Derbyshire County preference to the sitting member. Mr Raymond member, MP.

Dawn patrol: Group leaders striding out on Dartmoor on a course to prepare them for the Ten Tors expedition.

Learning to brave the elements

Teams of young people training for this year's testing Dartmoor Ten Tors expedition are likely to be better prepared than last April, when one group was lost for more than two days in a sudden blizzard (Craig

Seton writes).

Over the weekend the Dartmoor
Rescue Group held a special course for the managers of the fifty or so teams which will soon begin training for the May expedition organized every year for young people from schools, colleges, the Services and youth clubs. They walk different

distances, depending on their age and experience. Last year's snowstorm caused

chaos among the groups training for the expedition on Dartmoor and a big rescue operation had to be launched when air cadets were missing. They were found, suffering from exposure, and there was later criticism that some of the teams were ill prepared for the conditions that Dartmoor can suddenly pro-

This weekend's "walking confer-

ence" was designed to ensure that such a dangerous situation does not arise again. Mr William Ames, the rescue group's secretary, said the team managers were taken out over the moor so that they could appreciate the difficulties that would be faced by young people who would probably be carrying heavy packs and facing bad weather for the first time. The managers were also told about the absolute necessity for their teams to wear the right clothing and carry the right equip-

Local radio 'fails on politics'

not guilty."

By Kenneth Gosling Local radio is given low marks for its coverage of political affairs in a report prepared for the Independent Broadcasting Authority under its fellowship scheme.

Dr Anthony Wright, a lecturer at Birmingham University, says: "In the maelstrom of local radio, as one education producer remarked, it is difficult to believe that people are actually learning anything very much about politics.

"Something must rub off from news items, interviews, and phone-ins, insofar as listeners encounter these, but it is doubtful if much real political education is taking

Dr Wright says local radio, while claiming to encompass, represent, and integrate an entire local population, is to lock itself into bland and breezy consensual style that carries with it a distaste for, and neglect of, local conflicts and disagreements, exemplified by its neglect of local politics. But that, he says, is a profoundly mistaken view of what a community is.

The modern local govern-ment system and the issues surrounding it are complex enough to require consider-able expertise in unravelling them; yet only a handful of stations have a reporter or producer specializing in covering the local political

The absence of such exper-tise, Dr Wright adds, has seriously affected both the quantity and quality of politi-cal broadcasting in local radio. "It is one important reason why local radio has failed to have the impact on local democracy that was promised in its foundation documents".

It was surprising and disappointing that local BBC stations had not been adventurous in political broadcast-

Havers may act if rape outcry is not heeded

The public outcry about rape victims being subjected to humiliating cross-examination in court on their previous sexual experiences makes all of us who have to deal with the law concentrate and become aware of the problems. The basic problem may lead to changes in police procedures and in the police procedures and in the attitude of judges which would make new legislation unnecessary, Sir Michael Havers, QC, the Attorney General, said yesterday.

But he agreed that the Sexual Offences (Amendment) Act, 1976, which was designed to protect the sexual of the s Asked if the Government would legislate to insist on automatic jail sentences for all convicted rapists, the Attorney General said: "We shall have to consider this very carefully. I think, really, the issue has been resolved by what the Lord Chief Justice has said.

"He has given a directive to all judges that except in wholly exceptional cases a rapist must go to prison at

designed to protect women from unnecessary cross-examination, was not always strictly observed in court, as an article in *The Times* on February 10 had pointed out.

"It may be that the reaction will be sufficient, that common sense will become clear and that this Act will be applied in the way that Posline way rapist must go to prison at once. But if we have an automatic sentence I believe it will lead in a number of that Parliament intended it to be", he said. "But if it is not, cases of minor rape . . . to juries finding a defendant then of course we shall have to consider legislating." Sir Michael, interviewed by where a man persisted with a woman who had perhaps "gone off him" after a long relationship. If a jury knew there was a mandatory jail sentence they would find him not guilty. Sir Michael did not want to risk that happen-

Mr Brian Walden on the Independent Television pro-gramme Weekend World, was asked whether, where medi-cal evidence showed that violence had been used, the burden of proof should be shifted on to the male defendant to show that the

woman had consented.

Sir Michael replied that that would involve radical, fundamental change, but did not rule it out.

"A programme like this and a public outcry like this is very valuable because it and sympathetically treated wall until and janet automatic sample of more than 1,000 women between the ages of 16 and 50. They were asked if they felt well enough protected by the law against rapists. Only 14 per cent the police and by the judges.

He wanted to see complaincent automatic sample of more than 1,000 women between the ages of 16 and 50. They were asked if they felt well enough protected by the law against rapists. Only 14 per cent replied "yes", and 79 per cent replied "no", while 7 and sympathetically treated per cent were unsure.

Walker, Minister of Agricul-ture, said yesterday that the common agricultural policy (CAP) should not be blamed for all food price increases.

By George Clark

is that we must encourage women to come forward so that the rapists are convicted."

The country.

more and more people and would never achieve a widening appeal across classes, regions and occupations. They had replied by trying to pretend that the SDP was all things to all men and women. It was not true.

There were many for whom there was no room in the SDP. It had no place for class warriors or for those who wanted to fight outdated for little Englanders; for those selfishly concerned with their own problems and not with those of their neighbours and the nation as

ist bunker and the Conserva-tive Party showed little or no concern for the problems of the developing and poor

The SDP had a specific industrial relations message on many points with which the employment Bill did not deal. Britain at work was a split society with energies of unions and management too often dissipated in a struggle with each other and no single action of government would action of government would still be active the collective. do more to transform Britain's prospects than the establishment of a common purpose between management and workers. That required a new framework of industrial relations.

For industries to meet the international challenge they must be liberated from the industrial relations structure, which mirrored the conflict

of the old two-party system. The SDP approach would have four points to bring the unions back to their members; to encourage profit-sharing on a larger scale and to tackle abuses of trade

union power.

Their aim remained firm and clear: to form a majority government with their partners in the alliance after the next election. He concluded: "Let us be determined to make 1982 as remarkable as 1981 has been and let us never forget our responsi-bility for the hopes we have aroused, the hopes of so many throughout the country who have been searching, sometimes subconsciously, for years past for a new opening, a new opportunity and a new deal. How we and the alliance conduct ourselves will determine whether reality. It is a great responsibility."

Constitution to run a decade

The constitution being prepared at the constitutional through the history of the party for a decade, Dr David Owen (MP for Plymouth, Devonport) said in opening the convention on Saturday. Leading members of the party took turns in presiding.
He said that the constitution which emerged would not be one withich could not be changed, but no be changed, but no representative there should be under any illusion that the framework produced would have the maximum impact to be at Hillhead, where they all wished Mr Roy Jenkins every

success. The alliance, he said, would reach an agreement on seats allocation, but no one should be under illusion about how difficult the task was. No local party organization did not want its own SDP candidate, and equally not a single Liberal Party did not want to field a Liberal candidate. It was an immense challenge but they would

The press would highlight the odd difficulties and they cool, dispassionate and cormust not be critical of them rect decision. Mr Foot and the left and right wings of

for doing their job. At that Mrs Thatcher had been point, demonstrators from elected by MPs; Mr Steel by Islington interrupted from party members. Leaving aside the gallery shouting, among other things: "Give us an unemployment centre in Islington." The two men and a woman refurled their large banner and were escorted quietly away by officials. Dr Owen resumed, saying that the SDP would reduce the numbers of unemployed, responding to the challenges which faced the nation.

Three options on picking leader

The conference spent a The two main parties put to the party's 78,000 feared the SDP more than they feared each other. Their narrow dogmas had alienated election by MP's, by the with three options, including election by MP's, by the whole membership or election by all members now and by MP's at some later stage. Mr Grant Crawford (Hack-

ney), opening the debate, moved an amendment saying that the person provisionally elected leader of the parliamentary party should only take office if endorsed by a majority of party members

As a potential Prime Minister, the SDP leader must have the confidence of the parliamentary committee, he said. The amendment recog-nized that it was unacceptable for MPs to have a leader foisted on them but also that The Labour Party went all members had a right to be increasingly into its chauvin- satisfied with the party Mr David Heap (West

Glamorgan) moved an amendment to provide for ratifi-cation of the leader, after election by MPs, by the council. He said they were not choosing a winner and losers, but a victor ludorum,

strength of the collective

leadership.

Mr Humphry Berkeley
(Hounslow), former Conservative MP for Lancaster, moved an amendment to allow election by MPs withallow election by MPs with-out the need for ratification. He said that he could claim no political virginity since he was probably the only person in the hall who had been an elected delegate at both Conservative and Labour conferences. They could not ask MPs to vote for a leader

and then tell them they were membership inevitably involved the possibility of rejection which his political instincts told him would make the party look ridicu-

Mr Jonathan Marks (Ken-sington and Chelsea) moved an amendment to provide for election by the whole mem-bership until the next general election and then by MPs. He said the present parliamen-tary party could not claim to be a representative body for electing the leader. The party had a large and well-informed and sensible membership who should be asked to make the initial, viral choice.
Mr Kenneth MacDonald (Glasgow, South) moved an

amendment to provide for election by the membership until there were 100 SDP MPs, when election would revert to them.

Mr Mike Thomas (MP for

Newcatle-upon-Tyne, East), moved an amendment to provide for election by the membership with a compul-sory review of the system fter three years. He said under the present

unfair election system, the SDP might still have very few MPs after the election. The 78,000 members should be given the right to choose. Mr Eric Owen (Clwyd) moved an amendment to provide for election by the membership without a formal review of the system later. He said there must be no backtracking on the funda-mental principle of one

member, one vote. Mr Chris Foy (Brighton and Hove) said that an endorsement process could leave them facing two ways. It was a bodging arrange-

ment. Mr Norman Jones (Leeds) said that the parliamentary group was too small to elect

te leader. Mr Christopher Pitchers with their own style and loyalties but had more in-(Leicestershire) said that he did not share the view that MPs would always make a common in terms of values.

policies, who was the best leader? As a new party the SDP should trust the membership with important

Mr Robert Maclennan (MP for Caithness and Suther-land) said the steering com-mittee had decided it was inappropriate to express its own majority view again on the issue but rather that they should not deal with the substance of the amendments but simply suggest to the convention an appropriate means of putting the issues to the membership at large.

Each representative had a

printed ballot paper with the options arranged on it. Representatives voted as follows: for election of the pleader by MPs: 63; for election by the membership all now, changing to election by MPs at later stages: 73; for election by the whole membership: 163. Prolonged appliance greeted announcement it plause greeted announcement of the latter figure.

Of those voting for the first option 17 went on to vote for ratification of the election by the council; 37 for no ratification; six for ratification by the members and three for ratification by council with alternatives to follow if ratification were refused.

Of those who voted for the second main option 62 voted for changes after the next election and 11 for changes after SDP parliamentary strength reaches 100. Of those who voted for the final option, 83 voted for a compulsory review after three years and 81 for no formal review, with two not voting. Dr David Owen then an-

nounced that as a result the membership would be asked to decide between three options of election by MPs; discrimination element. Democracy.

A recounted vote, demanded by representatives, showed 150 for and 150 against a proposal that council members from any area should include at least one member of each sex. Areas will elect two or three members. An earlier vote had chosen 145 in favour of the shown 145 in favour of the proposition and 146 against.
Mr Roy Jenkins indicated from the chair that the whole membership will now decide

A large majority accepted a A large majority accepted a steering committee proposal numbers of men and of by Mrs Shirley Williams, MP women respectively should for Crosby, setting out the be on the short-list. Why composition of the Council of should women be the only Social Democracy, to comprise a president, members support? They had underselected by each area party, all party MPs and members coopted by the council.

Mrs. Williams said the discrimination in their coopted by the council.

Mrs Williams said the council would have the right

to coopt up to 5 per cent of its number to represent groups in society not otherwise represented and to recruit individuals whose contribution to the party was regarded by the council as indispensible. Each area should elect a

man and a woman and those consisting of more than three constituencies would have a third representative of either sex. That was not a philos-ophy of positive discrimi-nation but a policy of equal opportunity, she said. Political institutions were

profoundly unrepresentative. Women made up 52 per cent the population, but only 3.1 per cent of the Commons. There was not one black or brown MP in a theoreticallyrepresentative Commons, she

Mr Trevor Beswick (East Cheshire) moved the amendment to reject the positive should remain totally nondiscriminatory.

reprint the wisnes of the steering committee, the convention voted by 143 votes to 124 to enable the constitution said the constitution of the to be amended if a majority of the council and a ballot of all members favoured it.

The convention was split on whether there should be positive discrimination to either women or men. Mr Mike Thomas (MP for either women or men.

Dr David Owen at the conference microphone

Mr William Rodgers (MP

for Teeside, Stockton) said that SDP membership now

stood at more than 78,000 all

fully paid, and new members continued to join at the rate of several hundred a week,

showing that the momentum

of the party was being maintained.

Liberals was a success story

too. The two parties re-mained distinct and separate

aintained.
The alliance with the

proposed by the steering committee would establish the important principle that no process of short-listing would tend to restrict the choice in an unreasonable way to all men, all women or all local candidates. A reserve Committee to add two names to a short list was only intended for use in extremis.

Mr Ashley Steinhausen (Brent) opposed the proposals and moved an amendment to delete the

discrimination in their that to put two women on a short-list of six to nine was said that women would still have to get there by merit. The proposal would ensure that they had a chance. Mr Fred Bleach (Mid

Surrey) said that if there was a lack of women it was not because of lack of confidence in coming forward.

The steering committee amendment was carried after the Brent amendment was narrowly rejected on a show of hands. That amendment votes to 126, after appeals for a counted vote. The convention voted by

147 to 116 to delete from its constitution a statement that the party would have concern for the individual regardless of "sexual orientation". It retained a commitment to create an open, classless and more equal society which rejected prejudices based on Mr Kenneth Brown (North amendment to delete the phrase, saying it seemed to

phrase, saying it seemed to have been written by a mixture of a Whitehall bureaucrat, and a woman's page of The Guardian.

Ms Gillian Walker (South Shropshire) opposing the deletion said Mr Brown's amendment was designed to "burge the party of queers".

She was repeatedly heckied as she said the wish to delete "sexual orientation" meant the mover of the amendment base in members rauses would discriminate against institutions.

The committee understood

The committee understood homosexuals. She was sickened and repulsed by the thinking behind the amend-

ment
Ms Polly Toynbee, for the
steering committee, said the
reference to "sexual orientation" should be retained. It was put into the constitution as a sign of the party's commitment to the fair treatment of minorities of all kinds. One in 10 of the population was homosexual though an inescapable fact of nature. They were harassed-and persecuted, many lost their jobs and lesbian women. often lost the custody of their children.

Members voted that area parties should retain 20 per parties should retain 20 per including, was rejected on the cent of members' subscriptions after hearing that the local parties were starved of funds and might not have the money to fight elections successfully.

An amendment to the draft there could be real scope for including the country of the country of the country of the country of the center of

viduals wishing to establish aries or fieldoms of their own. The were club possibility of that happening, and of it being based on a single individual from one of the old political parties, would be substantially reduced if the party was monsorganised in areas.

In an alliance with the

Liberal Party, where seats were being shared, it was very important that no members should feel that

they were disfranchised. Inevitably SDP members in a

constituency to be fought by the Liberals would be disap-pointed. The disappointment

would be much greater if the

organization was on a con-

stituency basis alone and members could play no part

organized in areas.

Regional tier of party organization voted out

Representatives voted overwhelmingly on Saturday to remove the regional tier of party organization and to establish the area of between one and seven constituencies as the main organizational body and the electorate for the Council of Social Democratic control or Labour parties.

The four SDP leaders and area. It was inevitable in any political party, especially a new one, that there could be fore the next general election on behalf of the SDP.

level. Both parties will need

to make concessions but the country expects us to achieve a constructive and effective

alliance at the earliest poss-ible moment and this we shall

The decision that the party

should be organized in area

parties, accepted by the steering committee, had been

taken for five reasons.
Where membership

enable women and men to be elected in equal numbers to selection of candidates, he should be returned to their the Council for Social said that the constitution as area party was agreed by 172 area party was agreed by 172 votes to 107.

An amendment was also

agreed that decisions relating agreed that decisions relating to subscriptions should be taken by the Council for Social Democracy, having considered the advice from the national committee, where the power had rested. Mr. Peter Birkby (Bradford), who moved the amendment that the level of subscription should be set by the council, said that area members had thought that the national committee decision to allow the areas to take 53 this year from subscriptions applied to all members, including renewals, but in fact applied only to new members.
Mr Tony Slade (Ealing),

moving the amendment for the 20 per cent deduction, said it was vital. The party believed in decentralization, but could not have it if the parties were starved funds.

Members paid £11, a high hardly a great act of positive subscription for a political discrimination. And Mrs party, and it was unreason-Hilda Nixon (North Norfolk) able to expect them to disable to expect them to dig info their pockets and raise funds for all their activities. Ealing had 35 candidates for local elections, costing £3,500 which the area did not have. If more money was not returned to local parties to fight local elections, they would not win and would not

have a power base for the general election. Mr John Rist (Aberdeen) said area parties must be guaranteed a minimum amount for local business. It was easy at the centre to forget the desperate financial

needs of local groups.

Mr Peter Veevers (Wiltshire) said the money should go to the central party because of the danger of local parties dissipating the money, leaving the party vulnerable.

Mr Ian Wrigglesworth (MP for Teeside, Thornaby, and vice-chairman of the party's finance and general purposes committee) said the party faced an engrupous task on finance. Unlike the Conservarive Party or the Labour Party it could not have a pipeline from either big business or trade unions.

The first year's budget at SDP beadquarters was £750,000, compared with more than £2m at Labour head office and more than istration. The party was by no means in the big league, and it wanted to maintain its

the problems for local areas in building the party. That was why it had introduced the £3 rebate on new member subscriptions as a recruit-ment incentive. The 20 per cent amendment would be a severe blow to the national administration and budget. Almost certainly staff would have to be made redundant.

An amendment to ensure that an applicant's membership address was his or her main residence, and to allow the chief executive to delete any other address from the membership register, with a provision for appeal to a tribunal, was rejected on the

constitution that the national infiltration into a vulnerable committee should direct that area and influence local ar least 20 per cent of authority candidate selection.

Warsaw keeps protest alive with candles

From Roger Boyes, Warsaw, Feb 14

Lights flickered briefly and candles of protest shone from Warsaw windows last night by there were no violent street demonstrations in the Polish capital to mark two months of martial law.

Reports

Reports from Gdansk today said that police and soldiers had cordoned off the memorial to shipyard workers killed in 1970 in case it again became a rallying point

again became a rallying point for demonstrations, but it is still unclear whether there were any clashes last night.

Solidarity leaflets in the captial had called for passive demonstrations, industrial go-slows, the wearing of black armbands, a sympolic black-out herween 9 pm and 9.15 pm. In fact, this advice was only partially followed: was only partially followed: in Nowy Swiat, a central thoroughfare, about one in five lights were switched off in apartment blocks.

The luke-warm response to the underground appeals may well have been influenced by a massive show of strength on Thursday and Friday nights when columns of

put it, "preemptive intimidation". Women and children was the scene of unrest in the first few days after the through the streets but it is uncertain whether they managed to go ahead with according to one uncontaint in the face of a firmed report, firing blanks over the heads of the crowd particularly strong military over the heads of the crowd.

"There was a soldier in front of every shopfront", said on traveller who arrived in the capital yesterday. All telephones links with Gdansk

Two unconfirmed reports of passive protests in Wroc-law and Lodz have reached the capital, but again the police and Army, though much in evidence, appear to have been under strict instruction not to over-react. *
Communist sources say

that there has been considerable criticism in Gdansk about the way that the police handled a demonstration in the port two weeks ago, a demonstration which turned into a riot partly because of the excessive thoughness of the riot police.

There is still some mystery about the township of Swidnik, near Lublin, where, according to initial reports from the official PAP news agency, there was subtantial unrest. Curfew had been imposed from 7 pm, the toughest in the country—

Summary trials in both its debts to the West.

military and civil courts have been continuing. The latest verdict, however, is not for organizing strikes but for espionage, thus fitting into the general propaganda thrust of linking the Central Intellingence Agency with the Polish crisis.

Mr Bogdan Walewski, a former employee of the Polish Foreign Ministry, was sentenced to 25 years' imprisonment and 10 years' deprivation of civil liberty — making an early amnesty impossible — for revealing the names of Polish agents to

The prosecution had demanded the death sentence. Mr Walewski had previously worked in the United States personnel department, the Polish Embassy in Moscow and the Polish Foreign Minis-try's protocol section. □ Moscow: Mr Nikolai Tikhonov, the Soviet Prime Minister, was today quoted as saying that the Soviet Union had a vital interest in

a massive show of strength on Thursday and Friday nights when columns of the use of private cars was armoured vehicles drove to and fro in the capital during the rush hour.

Western defence

US tells allies to pay fair share

Munich, Feb 14.—Mr Caspar Weinberger, the United States Secretary, called on Western Europe yesterday to contribute more to the defence of the Western alliance, and to curb trade with the Soviet block.

His remarks were followed today by a call from General Bernard Robers, Nato's Supreme Commander in preme Commander v in Europe, to the allies to increase their defence spending from 3 per cent to 4 per cent a year in real terms. Both men were addressing

a meeting of 150 Westen military and political officials, including Dr Josef Luns, the Nato Secretary-

Mr Weinberger warned them that latent isolationism could be revived in the United States - which would be "a great tragedy" — if West Europeans did not assume what he called a fair share of rising defence costs.

Ordinary Americans might ask whether protection for their allies was necessary or their allies was necessary or sensible if there were a lack of response from Europe, said Mr Weinberger who is on his way home from a Middle East tour, this could lead to great difficulties in Congress

He said the annual 3 per cent target increase in defence spending would not be very useful if it went solely on pay rises for soldiers and not on raising the alliance's firepower.

Mr Weinberger: Threat of isolationism.

General Rogers said he wanted a 4 per cent increase to counter what he called the "worrying weakness" of the West against Soviet military might. Nato's conventional forces must be strengthened,

be said. on trade, Mr Weinberger reinforced American opposition to a proposed pipeline bringing Soviet gas to Western Europe, and called for what he called a return to discipline in trade with the Soviet block, which

There were no objections to trade as such, but Soviet block military strength should not be further improved by Western technological expertise.

Families of cooking oil victims stage sit-in

From Our Correspondent Madrid, Feb 14

Some 800 relatives of people who were killed or disabled by adulterated cook disabled by admirerated cook-ing oil today continued their sit-in which began last Friday in 20 churches in Madrid and towns near by. They are demanding improved medical care, speedier payment of special compensation and fuller information about the nature of the illness.

With the death toll from the "toxic syndrome", now standing at 262, and with probably permanent lesions noted in many of the 17,000 who were made sick, the protesters are demanding a meeting with Señor Manuel Nuñez Perez, the Minister of Health and Consumer Aff-

They intend to present a petition to him seeking authorization of abortion for pregnant women suffering from the illness. Abortion is outlawed in Spain.

Nine months after the first case of the toxic syndrome was recorded at Torrejon, near Madrid, no antidote for the poison has been found

At a news conference called here yesterday in reaction to the sit-in representatives of the Ministry of Health and Consumer Affairs said that so far 800 pesetas (£4.4m) have been paid out in special compensations.

Air-sea search for 15 crew called off

The Atlantic air and sea search for 15 missing seamen has been called off, Falmouth coastguards said, because there was no hope of finding any further survivors from the Greek vessel Victory (the Press Association reports). ships. The Nimrods were able to pinpoint the scene of the impending disaster and stayed overhead night and day to guide other rescue ships and aircraft to the area. There was particular pride

There was particular pride yesterday at the United States Air Force base at Woodbridge in Suffolk that at last one of their HH53c helicopters known as "Super Jolly Green Giants" of the 67th Aerospace Rescue and Recovery Squadron had been able to make an important contribution to a civilian rescue around British shores. The big helicopters are the only aircraft of their kind in the West capable of in-flight refuelling and with a normal operational radius of 600 miles. They have seldom been miles. They have seldom been

able to contribute to rescue actions around Britian because of the time it takes to prepare them for a "scramble" — more than an hour compared with about 10 minutes for an RAF or Royal Navy rescue helicopter.

But on this occasion it was a Green Giant from Wood-

cise 2 is Wes

in Britain and extending well bridge that first reached the into the Western Approaches Victory, 800 miles west of of the Atlantic, one of the Land's End. The key to the action was the early presence overhead of RAF Nimrod long-range where around"

Warning on democracy by Ecevit

From Robert Schuil

The Western community refuse to tolerate 's "second-rate democracy", Mr Bulent Ecevit, the former Turkish Prime Minister, said in an interview from Istanbul with Dutch television, broadcast at the weekend.

Mr Ecevit was recently released after two mouths in prison for defying the military regime's ban on public former politicians.

Asked if he was afraid he would have to go to prison again after the interview Mr Ecevit, speaking in English, said: "I don't know, but if one wants to live in a free society, of one wants to seek ways of reducing tencent or reestablishment of ment or reestablishment of democracy in one's country then one should take some risks. After all, freedom and review conference and the some risks for"

He was outspoken on the attitude Nato and EEC countries should take on military rule in his country.

"I should like to express my opinion in terms of he priniple. If Turkey is a member of the community of the democratic nations of the West as we are, then the same criteria, the same standards of democracy should be applied to Turkey as to any other Western democratic society;

In my view, the true friends of Turkey are those who apply the same demo-cratic criteria and who object to the violation of freedom and human rights in Turkey as they would in their own countries.
"I believe that those who

are content with second rate democracy for Turkey so long as Turkey serves the security interests of the West may not be as real friends of Turkey as the others'

Mr Ecevit showed little faith in the type of democ-racy promised by the country's military rulers, within the framework of a new constitution to be introduced

Ceausescu pleads for détente

From Dessa Trevisan Bucharest Feb 14

President Ceausescu of Romania has told Mr Ale-xander Haig that sanctions against Poland are counter-productive. During four and a half hours of talks there yesterday he urged the continuation of the East-West dialogue in general and the Heisinki process in particular in order to ease tension.

Mr Haig, who visited Bucharest on the last leg of his European tour, told a press conference here that there were differences there

The Romanians have been worth taking review conference and the tough United States stand there. Mr Haig said that to while Poland was in a state of siege would be a mockery of the Helsinki Accords.

But, he added, it was President Reagan's view that it was "extremely important to talk to East European nations which are willing to talk and seek ways of reducing it in a constructive dialogue".

He singled out Romania for pursuing a relatively independent policy and "ever-mindful of its geography" in asserting its independent stance. This was taken an indication that Washington accepted Romania on its merit and as a demonstration of American support for Romania's speci-

fic international policy. At a time when Romania is facing considerable financial problems and a huge debt which it is hoping to have rescheduled, the Haig visit is regarded as especially im-portant. Mr Haig said that while the question of debts could not be discussed at this level, the talks had created a

On March 21st, the fare increases made necessary as a result of the Court of Appeal and Law Lords' ruling on the "Fares Fair" Policy will be implemented on all London Transport.

Fares will go up. London has been told that the law requires its London Transport system to be run as far as practicable on business principles and on its own resources. Most other major cities throughout the

world have decided that subsidised public transport is the only way to run a modern

city efficiently. In Paris, for example, the French Government has invested heavily and there, the traveller pays for less than half of the cost.

London Transport's subsidy,

after the Court of Appeal and the Law Lords' ruling, will – after March 21st – be around 12% of its costs. The cost of Fares Fair to the London ratepayer was almost doubled by the penalties imposed by the Government withholding block grant. Is this fair?

Should London Transport be run "as far as practicable" as a business? Should the results - higher fares - be passed on to passengers, many of whom are people who can only afford public transport?

Or should London Transport be considered as a social service, the same way that we happily look upon hospitals, schools and other public activities, with much of the cost borne by ratepayers and taxpayers?

in London, public transport has become a political "football". It isn't in Europe, so why should it be here? Public transport should be a social issue, vitally important to our entire society, whatever the income, whatever the job, whatever the function or standing.

No legal quibbles. Just facts of life in London, in 1982. If yours is one of the 92 MP's for Greater London, tell him what you think about the facts we put before you. Ask him what he's going to do about it. And tell him to be quick. Remember, fares go up on March 21st!

So let's look at the entire argument. No party politics.

ALL CHANGE?

*After March 21st, you'll notice immediate changes all over London. Bus and tube fares will increase by nearly

Closure notices may appear at a number of less economic and probably more remote tube stations. Certain areas may lose bus services altogether. And you'll find there are fewer trains, and buses

operating at a lesser frequency all round. Does this seem fair to you?

If cheaper fares got more people on to public transport - which they did - then expect some bad news on the roads after March 21st. When it becomes

THE ROADS AHEAD

more economic to use their car, then people will do so, adding to traffic jams, parking problems and accidents.

And with fewer people on the buses and tubes, they'll become "uneconomic" again, which will

send fares up yet again. A vicious circle with Londoners

in the middle.

LONDON TRANSPORT APOLOGISE

FOR THE LAW LORDS DECISION

NORMAL

EXTORTION

WILL RESUME

SHORTLY

Does this make sense to you?

CALL FOR AN **ENQUIRY-NOW!** The Fares Fair Policy had a

purpose, Lower fares gave better access to Londoners. It increased the

efficiency of London's public transport system by increasing use of available services, allowing simpler fares, greater integration of the tube and bus services with BR; and allowed more automatic ticket issuing and prepurchase of tickets. To achieve the Fares Fair objectives, all the fares

must be seen to be fair. And the burden on ratepayers must be fair. But the Government will

penalise the GLC financially if it tries to help London Transport by, for example, keeping fares

If you feel that the lower fares were fair; if you feel London should have the right to decide how it funds London Transport without being penalised by Government then ask your MP to get the law changed.

Get the issues debated fully. Have the debate carried to Parliament before March 21st. You can do it by demanding that your MP acts now. Contact him direct or use the coupon. But do it now. And help keep London Transport's fares, fair.

Missing persons inquiry blames security forces From Alan McGregor, Geneva, Feb 14

Slow by sure progress in determining the fate of "disappeared persons" in a score of countries is indicated in the 1981 report of the investigating group set up two years ago by the United Nations Human Rights Commission.

Most of the missing were abducted by security forces in state-inspired terror cam-paigns against political op-

During the year the group headed by Lord Colville, British delegate to the commission, received information on 2,100 people in 22 Countries Sin povernments countries. Six governments did not reply to communications: Guinea, Indonesia, Iran, Lesotho, Uganda and Zaire. Otherwise the group has established direct contact, in some cases steadily yielding information.

Two members visited Mexico last month, the first time a country under such scrunthas opened its doors. Chile, by contrast, is refusing to cooperate, charging that the group's procedures are discriminatory. Both El Salvador and Guatemala are replying to inquiries.

Argentina is in a category by itself because of the sheer delegate in the Human Rights numbers who disappeared Commission and also the after the 1976 military coup group's first chairman.

- no fewer than 5,000 to 6,000 - although Argentine human rights bodies put the total five or six times higher. But last year only eight cases were notified to the Government and each has since beer officially explained.

The group is managing to trace some of the children who were either abducted with their parents in Argen-tina or born in prison. It has the names of 84. Last year five others were traced and put in touch with relatives. The group often has great difficulty extracting minimal

information, but with wider recognition of its humanitarian and non-political purpose, it is finding that the trickle may become a stream in response to better in in response to better informed questions. formed questions.

Mr Theo van Boven, director of the United Nations Human Rights Division, whose services have been dispensed with by Senor Javier Perez de Cuellar, the

creation and has put all his weight behind it. His departure is unlikely to mean a change of emphasis as his deputy, a Ghanian, was formerly his country's delegate in the Human Rights

new Secretary-General, was instrumental in the group's

Books: Bryan Appleyard investigates the sales slump and today's comeback

Reading between the lines

The publishing industry is just emerging from two terrible years. Any hopes that the book trade was proof against recession vanished in autumn 1980 when the market began to crumble. It now looks as if consumer spending on books has fallen by as much as 10 per cent since then. The profitability of the Charter group of booksellers, the most comprehensive stockholding shops, led by Blackwell's of Oxford and Heffers of Cambridge, has dropped to below 2 per cent. For a fragmented and diffuse industry accustomed to reasonably steady growth it was a bloody experience. As library buying was cut back and chal-lenges emerged from photocopying and book piracy, the industry retrenched by cutting capacity. New titles have dropped from the record 48,000 in 1980 to. an expected 38,000 this year, and company profitablity is recover-

It is against this improved but It is against this improved but still battered background that the Book Marketing Council today launches its Best of British Authors, a promotion lasting two weeks which is intended to expand the serious literature market. It is a brave, but faintly amateur and massively under-funded, attempt which has finally got off the ground, having first encountered scepticism; derision, and complacency. Apart from publishers' unhappy belief that literature, especially in hardback, was an interest confined to academics and a tiny scattering of wild-eyed entusiasts, there was also the BMC's rather patchy record and an unwillingness by cally and legally the climate has tition from national store groups the companies to cooperate with changed since the last test case could drive the small independent each other at all.

But cooperate they finally did, and now W. H. Smith is to lead the way in displaying the books and photographs of 20 authors from Rosemary Sutcliff to Anthony Burgess and from John Betjeman to John Fowles in their High Street windows. Whether this amounts to anything more than a bright but ephemeral marketing idea remains to be seen but it is clear that its inspiration - a determination to work on the marketing end of the publishing equation — is singularly topical in view of an impending and significant inten-sification of competition in the book retail trade. At the centre of these changes

is the hallowed Net Book Agreement which is the trade's name for retail price maintenance. After a court case almost 20 years ago in which the wisdom that "books are different" was enshrined in case history, retail prices have been standardized. This has protected small book-sellers from the kind of price competition which has destroyed, for example, small grocers faced with the growth of supermarkets. It has also allowed them to finance large and varied stocks of slow-selling titles, a dispensation which for many people represents a prerequisite of civilized life.

But, although publicly they may say otherwise, it is difficult to find anybody in publishing who believes that the NBA will survive another five years. Politi-

and the industry is waiting for dents into fewer and more somebody to take the issue through the courts again. Virgin Books, an offshoot of Virgin Records which has so far published books to do with rock and show business, toyed with the idea in 1980, dreaming of following up its parent com-pany's success in 1970 when records were freed from controlled prices. But it is too small a company to take on the whole business. Recent advertisements in the trade press from Tesco for a head book-buyer have inspired nervous rumours that the challenge would come from that direction. In fact the post appears to be the result of a decision to follow Marks and Spencer into "own-label" books, though industry sources point out that this

does not quite square with the wording of the new title. If Tesco were to make such a move successfully, the danger for the trade would be the loss of bread and butter business, because of discounts they could never hope to match. By itself a move to follow M & S into practical, household books would practical, household books would be relatively unimportant, but a decision to push popular fiction could result in sales of, for example, Harold Robbins being stolen by the supermarket from the bookshop. Popular fiction shades imperceptibly up-market from Mills and Boon romances via Robbins and up through historical romances, which defi-nitely are a useful profit earnernitely are a useful profit earner-for bookshops. Such compe-

specialised shops. For, under the current controlled price system although it would be unfair to say that Robbins subsidised Vladinur Nabokov, it is evident. true that Robbins subsidies the availability of Nabokov. But, for a nationally represented and highly efficient

retailer like W. H. Smith, hooks under the current system are Good Thing. Its diversifications have met with uneven success so now it is returning to the book fold with a 60 per cent increase in its promotional budget to £580,000 and to a study of the position of books in its stores in other words halting the drift of floorspace to calculators and toys. In addition of course NBA means good profit margus which Smith appears determined to seize, particularly since the mark-up on other items has been eroded by recession and testing market conditions.

All of this produces a divided picture. The publishers have stabilized themselves, albeit at lower level of business, and export markets are recovering thanks to a weaker pound and the apparent demoralization of the major English language competers, the American industry. But the retailers still face massive uncertainties, and finally it is their ability to reserve a reasonable spread of well-stocked book shops which will majorate beautiful. shops which will maintain litera ture as the only serious art apart from cinema to be almost entard independent of public subsidy.

total theatrical delight.

Michael Ratcliffe

The story is continued in Peter Bacso's The Day Before Yesterday, which begins in 1947, with the euphoria of a group of young people who are caught up in the new communist organization and the formation of the so-called people's colleges. The zeal of the Forties disintegrates into the terror of the Fifties, and the trial of Laszlo Rajk has repercussions on the youngsters, turning the comrades into repressors and victims. Bacso's own screenplay is at times too glib in its dramatic resolutions, but the film evokes with frightening reality both the horror of the times and the enthusiasm that was often rather inhuman than superhuman. Zoltan Fabri's Requiem, which is the Hungarian entry in this week's Berlin Festival, reconstructs the career of a man who achieved political prominence in the years between 1945 and 1949, only to die in a political prison in 1950. The events are some-what artificially constructed through an encounter between a mysterious young man, who turns out to have been a fellow-prisoner, and the widow of the dead man. Following his Angi Vera Pal Gabor also returns to the Fifties. In Wasted Lives, he shows how personal relationships — a love affair between a politically "difficult" widower and the textile worker who moves in to look

Willcocks

Belshazzar's Feast will be much performed in this year of Sir William Walton's directly, to Walton's choirbin concert on Saturday, also reminded us of two other major choral works by Walton, the Coronation Te Deum, and the Huddersfield Gloria. Since the Philharmonia Orchestra was in attendance, Sir David Willcocks gave his choir a rest while he conducted Walton's splendid Hindemith Variations. mith Variation

Walton's Te Deum, for the Queen's coronation, would culty in turning his tenor qualify as an extremely cadenza, at "Miserere", into occasional piece, for the brilliant skyrocket

purposes of listening, if it were not for the sparkling harp contribution to "The Virgin's womb" and the magical texture of orchestral flood under active choir at "To thee Cherubim". The Belshazzar's Feast will be musical invention elsewhere

Concerts

William Kendall had diffi-

intended. But the trio with chorus, at "Qui tollis", went well, with Catherine Wyn. Rogers an alto of almest Spanish tonal hardness and Willard White firmly pointing the bass line. Belshazzar's Feast suffered

from minimal extra brass bands, cramped among the chorus, and sopranos unconfident above the stave. It was a rousing account, even so. Willard White brought cruel disdain to his later solos (in the first he had intorest the first he had intoration problems), and Sir David turned wild and savage, not a common role for him, in driving his forces to hymn baleful Babylon and ecstatic Judes. For a contemporary of his it was a welcome sign that we are not yet resigned to facing senior citizenship.

William Mann

London Chorale 🗀

Queen Elizabeth Hall Purcell Room

In nearly 29 years of exist- I wonder if there is any ence, the London Chorale has instrument more difficult to given first performances of make work alone than the on Saturday night. David Coleman conducted four twentieth-century works whose aridity of imagination and invention seemed to anaesthetise the very physi-cal processes of their performers.

It is difficult to imagine how, with the best will in the world, any group of singers can be stimulated to respond to settings of words which themselves have met with such shallow and blandly articulated responses. John McCabe's Aspect of White-ness, in setting Melville's brightly-coloured investigation of the subject from Moby Dick as a long, plod-dingly homophonic incantatory narrative, bleeds the tough paradoxes, the rolling arguments of its prose to a whiter shade of pale. Apprehension is frozen, even comprehen-sion dulled. Seven Spanish poems of

Lorca received more affectionate if little more penetrating or illuminating setting from Castelnuovo-Tedesco. Diluting the sharp potency of Lorca's brightly captured images to an unintoxicating draught of Spanish vino, the music, with its guitar part energetically played by Gilbert Biberian, at least pro-vided the chance for singing of livelier physicality than the choir on this occasion seemed either moved or able to provide.

Their often sluggish entries and ill-defined line did little either to promote the cause of lain Hamilton's dreary, awkwardly con-structed Mass in A, the smudged fingerprints of trasmudged fingerprints of tra-dition unassimilated into any distinctive voice of its own. It made the early, tentative Stockhausen Verlaine set-tings of Chöre für Doris, with which the concert had begun, seem in retrospect joyful, artful miniatures, favouring the taste of words and voice.

Karoly Botvay

the point of anonymity, but not a solo cellist, and certainly the great cellists of our age have been people who project musical characters larger than life: Rostro-

povich, Casals, Tortelier, du Pré, Palm.
Karoly Botvay, who embarked on Friday on a series of three weekly recitals covering the Bach suites, cannot be blamed that he is not a performer of that kind for it is a matter of kind, for it is a matter of personality. Nor was his playing here without distinction; he has a fine command of the larger musical span, a tone of engaging seriousness, and a manner of deference to the music, a willingness to listen to what the notation may be saying.

Those, however, are the qualities of the excellent

chamber musician Mr Botray is, a member of the Bartos Quartet for many years in his native Hungary, and now in England a valued partner in newer ensembles. They are not the qualities of an outstanding soloist and coupled no doubt with the choice of the two minor-key suites for this opening recital, they gave the evening an unnecessarily door awa. Mr Botvay was all sarabands one wanted also some minus elegance, some prolud eccentricity, above all some

gigue exuberance. Not surprisingly, he fared better in a work where variety of character was written in: Attila Bozay's Formazioni. This set of 10 miniatures included everything from snap pizzicatos to exasperating juggling with a small motif to a little fell song over a detuned C-string drone. And, though I dare say they are a great deal more fun to play than to listen to, they were still vastly more enjoyable than the other Hungarian work on the programme, Kodaly's

ECO/Casadesus

Festival Hall

The English Chamber Orchestra's natural habitat on South Bank is the Queen Elizabeth Hall. Did they move, for Friday night's concert, to the big hall to give Jessye Norman's spacious soprano room to expand, or expect perhaps that her fame and popularity would draw a full house?

The bold move did not succeed; it was sad to see so many empty seats, and to hear that every item in a delightful programme would have sounded more apt in the QEH. Certainly, Arnold Schoenberg took pains to reduce the instrumentation of the wood-dove's lament, from his monumental Gurre-lieder, so that it might be performable in a hall of modest size.

Hilary Finch RFH, the handful of players

looked out of place, the woodwind played rather too loud for the good of the music although Miss Norman surmounted their pungent blasts without needing to raise her voice.

Indeed she sang the lament with a hieratic, subdued solemnity that was greatly moving, weighing words and tone in scrupnlous measure at the narration of Tore's funeral, fining her noble-tone down to a thread. tone down to a thread eventually opening up for the last appearance of the music's refrain, which tells us that dead Tove and the singing dove are one and the

To the first half of the concert, devoted to Haydn (250 this year), she contributed the big Scena di Berenice, an impassioned concert piece that should by now be familiar, at least on record, to every Haydn devotee. She sang it with generous elo-quence, and a fine cantabile, strongly accompanied. Miss Norman may have been disappointed by the size of the audience but not I hope, by the warmth of our applause, orchestra and conductor included.

The conductor was Jean-

Claude Casadesus from the Lille Philharmonic in France. He took a somewhat stiff, view of Haydn's Hen Symphony, elegant and ridy, seldom intent on its sensibility. He ended boisterously with Bizer's C major Symphony, a dazzing. precocious little masterpiece which sounded heavier, vivacious than it should.

Now is the time for all intellectuals to come to the aid of their party

 The last four months have seen the birth of two new political think tanks and two political think tanks and two new political journals. The Tawney Society serves the SDP, the Socialist Society, the Bennite left. The magazines New Socialist and the Journal of Economic Affairs, represent the views of the Labour left and the free market right. A third journal is to be launched in the summer as an SDP/Liberal forum. Len Bradley profiles the competing intellectual pressure groups as they bid to influence their parties in the long run-up to the next general election,

The Left Messages to a listening leader

Michael Foot and Tony Benn share a joint responsibility for the sense of intellectual excitement that is currently felt not just in the Labour Party but in the British left Party but in the British left as a whole. The new Lahour leader is much more open to ideas than either Sir Harold Wilson or James Callaghan, while the Bennite revolution has encouraged many lefthas encouraged many left-

tion last month of the Socialist Society which brings together for the first time since the 1930s Labour politicians and Marxist intelectuals. The society's inaugural conference was attended by Tony Benn, Eric Heffer, Ken Livingstone and Peter Tatchell. The working group behind the society's formation includes leading left-wing intellectuals like Robin Blackburn, Ralph Miliband and Raymond Williams.

SUD-GTOUDS

The SDP is awash with policy study groups and think tanks and seems to have succeeded

The society's aim is to help in to create a political climate "in which socialist ideas have the country into its policy-become part of the common making process.

At the centre of its country is a small country in the country into its policy-become part of the common making process. Labour Party, more than half of its first 500 members and 13 of its 30 strong steering academic economist and

springing from the same other experts which formally intellectual re-awakening report to the party's policy, which produced the Socialist committee chaired by Roy Society but more closely tied Jenkins. abour Party, h the remarkably successful launch of the magazine New Socialist. It was set up last of policy and there are also a September by Labour's large number of local SDP

Kingdom circulation of the New Statesman. James Curran, the editor, has complete editorial independence and is using contributors from the SDP and the far left as well as Labour Party members. He himself is a member of the steering committee of the Socialist Society and hopes to include articles by many of its leading members. The latest issue contains an interview of Michael Foot by E. P. Thompson, the historian and disarmament campaigner, and major fea-tures on Socialist Europe.

The success of these two periodicals and of the new society suggest a quickening of intellectual activity on the left which is confirmed by the present state of the Party's research ent. Traditionally department. Traditionally given a more active role in policy making than its Con-servative equivalent, the department is at present engaged on producing a major policy document which will appear under the title Labour's Programme, 1982.

The party's 12 researchers work to the Home Policy Committee, chaired by Tony Benn, and they are broadly Bennite in sympathy, voicing the common compleint of the left that recent Labour Governments have ignored manifestos and policy commitments. Morale is now much higher.

miments. Morale is now much higher.

In the words of Geoff Bish, the party's head of research, "From late 1975 onwards our department was locked in a bitter struggle with the Labour Government. The speech which Jim Callaghan made to the 1976 conference was sure monetarism and we was pure monetarism and we bated it. Now under the new leadership our relations with the party hierarchy are much better. We see much more of Michael Foot than we did of Wilson and Callaghan who were both suspicious of us. They were much more open to influence from the right

and the City."
The only Labour think tank to escape the general sense of excitement and euphoria at the moment is the Fabian Society, the traditional home of intellec-tual social democracy. The Fabians have inevitably sufpamphleteers and supporters, wing intellectuals previously hostile to Labour to come within the party orbit and try and influence its policies.

The clearest sign of this latter trend was the formation last month of the

The Centre

A sudden spawning of sub-groups

and seems to have succeeded

department headed by Christopher Smallwood, a former 13 of its 30 strong steering academic economist and committee (14 if you count Treasury mandarin, who is Tariq Ali, one of the main instigators of the society and currently trying to join) are in the party.

Another recent venture made up of academics and

selves spawned sub-groups covering more detailed areas September by Labour's large number of local SDF national executive committee policy groups. Borrowing with a budget of £1,000 and a circulation target of 5,000 to be reached in three years.

In fact, the first three issues have each sold around 35,000, more than the United produce consultative "Green Windows and the United Papers" after Easter for Papers after Easter for discussion by local groups. discussion by local groups. Fuller revised papers will then go to the newly elected Council of Social Democracy in October.

Involving itself in more long-term policy research and philosophical specu-lations will be the newest star in the social democratic intellectual firmament, the Tawney Society. It has been set up by Lord Young of Dartington as a think tank for the new party which will provide publications and research of the kind provided for the Labour Party by the Fabian Society.

The new society has pulled in some distinguished think-ers including Peter Hall, professor of geography at Reading University, Tyrrell Burgess, reader in the philos-ophy of social institutions at North East London Polytechnic; Tom Burke, former executive director of Friends of the Earth; Malcolm Dean, social policy editor of *The Guardian*, and Martin Minogue, senior lecturer in the University of Manchester.

Relations with the party establishment are a little cool, not least because one of the reasons for setting up the Tawney Society was a feeling that policy-making in the SDP has been too far concentrated at the top.

Lord Young hopes that the society will have study groups working on individual areas and will publish pamphlets and, possibly, books of a more philosophical nature. He is already editor of the Open Forum series of SDP pamphlets, while his fellow social Democrat peer Lord social Democrat peer Lord Kennet is editing a series of SDP policy books to be published by Lord Weiden-feld.

The Liberals, who had hoped that the Tawney-Society would become a joint venture, have a more modest policy making machine. Peter Knowlson, head of policy, works almost as a one-man toral Reform. Both men are speech writers and leading policy advisers to David

Liberals and Social Demo-crats have equal represen-tation on two commissions set up by the two parties to examine major areas of policy: constitutional reform, and employment and indus-

Members of the two parties are also co-operating on another venture in the field of intellectual influence and policy-making. A new jour-nal, probably to be called *The* Ally, is to be launched in the early summer. The editor will be Christopher Layton, a former Economist journalist and senior official with the EEC Commission. The edi-torial board includes David Marquand, Dick Taverne, John Horam, Richard Holme and William Wallace.

How far all this frantic intellectual activity impinges on the leadership of the SDP/Liberal alliance and produces radical new policies remains to be seen. At the moment there is a feeling that, in the words of one prominent figure in the that, in the words of one prominent figure in the alliance: "The membership is burrowing away and we've got to let them go through everything, even if it means we simply end up re-inventing the wheel."

The Right Towards an election manifesto

Prominent in any catalogue of the intellectual influences on the present Conservative Government must be the Centre for Policy Studies, founded by Sir Keith Joseph in September 1974 to provide a corrective to the collectivist and dirigiste ideas which he and dirigiste ideas which he saw as having dominated British political and economic thinking — including that of the Tories — during the twentieth century. Its critics regard it as having had a major influence in converting the Conservatives to monetarism and point to to monetarism and point to the fact that Mrs Thatcher has been intimately involved the centre since its

beginnings.
Alfred Sherman, director of studies at the centre, plays down its influence: "There's a great mythology about us among what one might call the demi-literati in the Tory Party and a feeling that ideas are much more important than they in fact are. We haven't won the soul of the party yet, but I would say

the opposition."

It is difficult to measure the centre's influence on the Prime Minister and leading members of the Cabiner. Sherman himself has direct access to Mrs Thatcher, for whom he regularly writes

band although he does co- intellectual right have also ordinate the activities of 25 had a clear influence on separate policy panels. The current thinking in the Liberals also have their own Government. Prominent mini-version of the Tawney among them is the Institute Society, a discussion group of Economic Affairs (IEA), called Arena whose leading founded in 1957 to promote lights include William free market doctrines. Like Wallace, deputy director of the centre, the institute is the Royal Institute of International Affairs, and Richard Westminster and senior Holme, director of the National Committee for Electroal Reform Roth men are Conservatives, along with members of other parties, attend its regular Hobart lunches.

Aims (formerly Aims of Industry) and the Institute of Directors are two other important intellectual pressure groups which have spread the free market gospel among educators and industrialists.

A group of leading industrialists which meets regularly under the auspices of the Centre for Policy Studies, Aims and the Institute of Pinessons is reckned

"We have affected the economic culture rather than economic policies," he said. "We have contributed to the

scepticism that there is now about neo-Keynsianism, to the feeling that it's not the railways that need electrifying, but Sir Peter Parker.
Keynsian remedies won't work to solve this recession because it has been caused by the attempted application of those remedies."

Other groups representing what might be called the new

tute of Directors is reckoned to have had a major influence on Government thinking. The

called, were first brought together because of fears that industry would put pressure on the Govern-ment to give in during the steel strike.

> In contrast to the intellectual pressure groups of the new right, those bodies which have traditionally which have traditionally stood for a leftish, one-nation style of Toryism have suf-fered a decline in influence. Neither the Bow Group nor the Tory Reform Group, for example, have the same strength and vitality today that they had in the early

The 20-strong Conservative Research Department, which has had a reputation for "wetness" under its last two directors, Chris Patten and Alan Howarth, is also in the doldrums. Mrs Thatcher has never had a close relation-ship with the department, which in common with other parts of Central Office has recently been subjected to fairly drastic pruning. However, the appointment last month of Peter Cropper, a fervent admirer of the Government's economic policies, as its new head is seen as heralding an upgrading and higher profile for the research department as it

works towards preparing a manifesto for the next elec-

The BBC Computer Programme. It tells you everything except what's best to buy.

But then, that's obvious.

The BBC's new 10-part series. The Computer Programme' started on Sunday, February 14th, at the sensible hour of 10.10 am. (And the series will be repeated on Monday evenings, beginning March 22nd.) It's an excellent introduction to computing, and best of all, it isn't machinespecific. So you can follow it on the computer of your choice. The computer to choose? For friendliness,

capability and sheer good value, it has to be the Sinclair ZX81.

The world's best-selling personal computer. Still only £69.95

Over 260,000 ZX81s have already been sold. it's so easy to learn on, that over 50% of Britain's state secondary schools now have ZX81 systems. In Britain, the ZX81 out-sells all other personal computers - put together! And the ZX81 is British - exported to 30

countries, including Japan and the USA! More than just easy to master
The ZX81 is a powerful, full-facility

computer, quite capable of the work you associate with larger, more expensive machines. It handles graphics, charts, animated displays. And it's the heart of a complete computer system, including massive add-on memory, the unique ZX Printer, and a catalogue of cassettebased software. All are available ex-stock now. Full details with your 2X81. Once you've learnt a little computing, the

fun (and more serious stuff) really begins. There's a whole ZX81 industry... books. magazines, clubs, dedicated software for games, junior education and business/ household management. Some of the country's leading computer companies, like ICL, now

make Sinclair software. Call in at your local W.H. Smith and see just how much

To accompany the programme the new NEC '30-hour BASIC' Your Sinclair computer comes complete with a free

212-page guide to computing. And now, to tie in with the BBC series, there's a special computing correspondence course, '30-hour BASIC', run by the NEC adult education service. A special ZX81 version of this course is

Price includes mains adaptor, TV and cassette recorder leads, course in computing and VAT

available from W.H.Smith.

The ZX81 has no hidden extras. You simply take it out of its box, plug it into the aerial socket of your TV, switch on at the mains and

The price includes a mains adaptor (worth £8.95) and connections which fit most portable cassette recorders - useful for storing programs, on ordinary cassette tape.

Fraught train of thought

Words and their meanings

journalists. "In matters of Love the fraught old courtships of such partners as Andre and Mia and even Roddy and Margaret have Andre and Mia and even ferred use of fraught from assorted masters of Eng Lit.

Macaulay: "His painted bark of cane Fraught for some former literal and transferred use of fraught from the fraught for some former literal and transferred use of fraught from the former literal and transfe Connolly and Pamela Stephenson." and the other: "The position of Labour's Right on the National Executive is also more fraught than the victory headlines suggested."

I caught myself saying it the other day. Somebody telephoned for a general discussion of life while I was making up the Books Page. How were things, he asked. Pretty fraught, I heard Pretty fraught, I heard myself saying, with a gusty sigh of resignation.

This is a recent shift in meaning: too recent to be recorded by any of the new dictionaries until the Long-man New Generation Dictiondry, published last July. In changed as it has. One of the the five and a half centuries of the word's history in fraught was big with the English until the last few promise or menace of some-

seafaring Dutch. Here are some examples of

the former literal and transof cane traught for some proud bazaar's arcades..."
Bacon wrote of the writings of Plinius being fraught with much fabulous matter. Spenser: "That all the world shold with his rimes be shold with his rimes be fraught!" Shelley: "A loftier Argo cleaves the main, Fraught with a later prize."

Swift wrote, majestically, of a large memory, plentifully fraught with Theological Polysyllables. Words do change their meanings to meet new needs; otherwise we should still be using crafty to mean strong, and silly to mean defence-less. I put forward a sugges-nion of why fraught has changed as it has. One of the

This morning, brothers and sisters, I am fraught with intimations of impermanence about fraught. It is a fashionable word. Here are a couple of examples from fashionable intimations of impermanence about fraught. It is a fashionable of examples from fashionable in grant to us from the sixteenth-century prayer speaks of this life of our speaks of this life our speaks of this life of our speaks of this life our speaks of being fraughted with adversities. The idea of diffi culty and adversity attached

fraught.
And so we have come to And so we have come to use fraught absolutely in informal speech to mean that someone is worried and in a tizzy, or that conditions are vexatious. "You're looking very fraught, Philip":

The new use is still too informal to be used in written English, in The Times at any rate, except in the

at any rate, except in the chatty and thistledown parts of the paper that lack gravitas. It may be a passing vogue. The new use may become stale and mouldy and die. On the other hand, feeling fraught may fill a place under our very ears.

Never mind the dollar, our interest rates can come down now

by Gordon Pepper

The Government's economic policies seem to have few friends left. One reason is that we appear to have had the transfer of the published friends left. One reason is strategy. In the event, it was that we appear to have had decided that the strategy. There have been large the treatment but not the cure. The treatment is illustrated by the depressed level of production and the awful trated by the depressed level ury ministers wanted to risen, short time working has of production and the awful emphasize the PSBR to fallen, overtime has unemployment figures. The absence of a cure is sugainst expenditure minis unemployment has slowed. gested by inflation remaining stubbornly high; currently it is 12 per cent, and few can foresee a figure much lower than 8 per cent.

A second reason is that the Government targets for monetary and fiscal policy are seen to have been missed by a wide margin. There is in some quarters a kind of grim satisfaction in the money supply being out of control, the economy being in deep recession and inflation stay-

This looks like a pretty formidable indictment in my view, however, it is a mislead-ing and short-sighted interpretation of the situation. While the Government has made many errors, not all of which were visible only with the benefit of hindsight, its broad strategy is still easily defended. This can best be seen by examining the pro-posed alternatives, most of which involve an attempt to engineer a reflation and to dispose of inflation by intro-ducing an incomes policy. It cannot be claimed that this combination is a leap in the dark. If history is any guide, the outcome is scarce-ly less predictable than death

The 1970s saw two clear episodes of engineered reflation plus incomes policies. Mr Heath's succeeded, for a while, in reducing unemployment but was accompanied the money supply and soaring wage and price inflation.

The second, begun by Mr
Healey in 1977, is more approach, it is arguable that relevant to present circum-stances because the government sought to pay for fiscal expansion by additional borrowing (which is also what Messrs Gilmour, Jenkins and Shore seem to have in mind). In 1978/9, unemployment did fall, modestly, but interest rates rose and wage and price inflation again began to boil

This brings us to whether the Government's monetary and fiscal policies are indeed off course. In my judgment, although it is wise not to be categorical, it is very probable that they are not.

More precisely, monetary growth has not for long strayed far from the path laid down in the Government's Medium Term Financial Strategy, while the fiscal policy objectives have been achieved somewhat earlier than planned.

ine authorities sented the policy they stressed sterling M3, the broad definition of money accounts and notes and coin. The Bank of England had first published a target in seeking to affect expectations and reduce inflation and interest rates. This justified a simple target expressed for just one definition of the money supply. An important reason choosing M3 was a perceived link between it and the public sector borrowing require-ment. The bank preferred M3 because this enabled it to argue with the Treasury that the PSBR was too high, i.e, that fiscal policy was too lax. When the present Govern-

ment's strategy was being designed, people outside official quarters were consulted, ment could not control public revenue, because it could not control the depth of the again.

would lose credibility if this gains in productivity. were done. Further, Treas. Unfilled vacancies have

So much for the presentation, which has been a pretty complete failure, but what was the underlying intent? The Green Paper on monetary control in 1980 stressed that the authorites of which is events in the would monitor all the defi-

The right approach is part science and part art. One. can usually come to a reasonable judgment but sometimes the monetary barometer is jammed...

nitions of the money supply. It is well known that when the authorities target any one definition, all previous re-lationships between it and everything else are liable to break down. As a corollary, the stance of monetary policy should be judged by looking at everything but the targetted variable.

The right approach is part science and part art. One can usually come to a reasonable monetary barometer is jam-med, as it was, for example, during the civil servants'

approach, it is arguable that monetary policy is currently not too loose but is, if anything, in danger of becoming too tight. The growth of the narrow monetary aggregates has decelerated in the last 12 months. M1 (which excludes deposit accounts) grew by 8 per cent in the year to mid-December, by 6 per cent per annum in by 6 per cent per annum in the last six months and by only 1 per cent per annum in the last three. This should be compared with the target for sterling M3 in 1981/82 of 6-10

Sterling M3 is highly misleading at the moment. Sterling M3 is highly misleading at the moment. However, the more reliable and broadest aggregate, PSL, 2 (which includes building society deposits) has had an underlying rate of growth of about 11 per cent per aggregate. about 11 per cent per annum.

Although there may be certain technical problems for the future, it is reasonable to conclude that mone-taken may be able to conclude that it was nice to very much; today i admire them much less but love them much more. Perhaps the more may be able to conclude that it was nice to very much; today i admire them much less but love them much less but love them much more. Perhaps if them much less but love them much less but love them much more. Perhaps if them much less but love them much more. Perhaps if them much less but love them much more. Perhaps if them much more is them much more is them much more is them much less but love them much less but love them much more is them much more is them much less but love them much more is them much less but love them much less but lo

son in January, 1980, as one Hungary, although I do not of "the PSBR not changing much as a proportion of gross domestic product in recession years, but falling fairly sharely in not bivalent, but some things fairly sharply in non-recession years". At that time, the PSBR was 5 per cent of gdp and is now 4.1 per cent. Instead of staying unchanged, as Mr Lawson suggested, it has fallen by 0.9 per cent of gdp, or about £2,250m. So the Government is not only broadly on track with its monetary policy but is ahead of the game with its fiscal policy.
If that is true, what are the

implications? First, the period of most intense pain should be ending; the cure is starting to work. Evidence of Inflation is starting to fall

realize this. there were loud demands in the Commons for an official inquiry — which never sat — and harsh words were uttered. The MP for South

If the cure goes according

which is events in the United States, where President Reagan has cut taxes but not public expenditure.
This has produced a clash between tight monetary and easy fiscal policy, with United States credits markets out of equilibrium. themselves that their defeats were in reality, glorious victories. The "spirit of Dunkirk" never ceases to be invoked when times are hard and the senseless heroism of the Charge of the Light Brigade is impressed on every schoolboy. In this particular year there will be a

Although United States inflation seems now to be falling, there will probably be either a further rise in dollar interest rates or United States economic activity will be more sluggish than is generally expected. Pres-sures from the United States promise to be disruptive and contractionary. Have we no choice but for our economy to pause again while the United States is sorting itself

My conclusion is that we do have a choice, and those who argue that the behaviour of sterling should be the prime determinant of United Kingdom interest rates are wrong. Our interest rates should be reduced when, as now, the domestic monetary indicators suggest that such action is appropriate, whether or not United States interest rates are rising.
There is a case for over-riding the domestic monetary
indicators only if sterling
weakens substantially against European currencies, not if it is just falling against the

Churchill called it the worst disaster in British military history. It was worse than that

Winston Churchill called it "the worst disaster and largest capitulation in British military history". Forty years ago today, some 130,000 British and Commonwealth troops surrendered to a force of 55,000 Japanese after an eight week campaign — which, apart from numer-ous acts of individual gallantry — was an unmitigated debacle. Those same troops then marched tamely off to the prison camps blithely singing "There'll always be as Fag land". Singapore had an Eng-land". Singapore had fallen, and with it, a way of life — although the participants at the time did not In the immediate aftermath

General Percival (left) and other officers march with Japanese victors to surrender on February 15, 1942 picture that symbolized British defeat in Singapore.

Singapore: the bitterness lingers on, 40 years after

by a supposedly "inferior" Asian race. This lesson was not lost on the native inhabitants of the East. The mythical British Crown, of which they were loyal subjects, had not kept its side of the bargain — it had failed to protect them. protect them. Since the war there has been no besitation in apportioning blame. The military blamed the greed of the civilian community and their obstructiveness, while the business community reciprocated by vilifying the blimpishness and in efficiency of the soldiery. In all this there are elements of truth — civilians dancing at Raffles Hotel while enemy bombers droned over the

defenceless city and undisciplined mobs of drunken soldiers storming the docks to try to get on to one of the last ships to leave. But who can blame those soldiers? They had no part in the wealth they had been sent to defend and they were often For the first time in wealth they had been sent to history, a major Western defend and they were often power had been defeated treated as social pariahs by fairly and squarely in battle the white expatriates who

placed their clubs "out of bounds" to the sweaty

'Myths and misconceptions cluster around the story of Singapore like vultures around a corpse and these myths die hard. Perhaps the most durable one is that the island was a fortress but the guns all pointed the wrong way. The point is that the guns, although designed to fire out to sea, could mostly be trained around to fire inland, and did so. The problems of the problems lem was that they had the wrong ammunition- armour-piercing the sink battleships rather than high-explosive to deal with troops.

One problem that is always asked is, could Singapore have held out? Percival's defeat, is often compared unfavourably with the American General Wainwright's epic defence of Bataan and Corregidor in the Phillipines. which was roughly contem-porary. Some people have claimed that if some sort of

"supremo" had been appointed the island could have held out until relieved.

"supremo" had been appointed the island could have the western Christian nations. They tended to treat the country of the co

The fact is though, that the main reason for the surren-der was that the water supply for the colony was situated on the mainland in Johore and that was firmly in the hands of the Japanese. Faced by the problem of a two million civilian population and no aircraft to protect them from the almost conthem from the almost continuous bombing. Percival had no choice. The fault lay with successive prewar governments who failed to face up to the threat of war in the East and the interservice rivalry that made a farce of sensible defence planning.

failed to return and left their bones in the jungle work camps. Those that did come back are left today with an understandable sense of bitterness and frustration. They feel that their sacrifice has been forgotten, used as we are to tales of German camps. They claim that while PoW's in Germany were enjoying concerts and studying for university courses, they were being systematically beaten, starved and humiliated.

Of those captured, many

They still hate their captors, although their protest is largely confined to a refusal to buy Japanese cars and stereos. In fairness, however, it has to be pointed out that the Japanese operated under a different code to the rules

They tended to treat their own troops just as badly as their prisoners: Had General Percival and the rest of the officer prisoners ritually slit their stomachs open after the surrender, their canors would have held them in the

highest esteem.

British historians have for many years tended to pour scorn on the poor performance of the French in 1940. They, too believed that they had a "fortress" as they sat confidently behind the Magnot Line, inviting the Germans to invade elsewhere. mans to invade elsewhere We built our Maginot Line in Singapore to defend uni-selves against a Japanese fleet and refused to believe in the possibility of a landborne invasion.

Refusal to face the facts of the necessity for defence planning in peacetime is one of the major defects of all democracies. How can peace loving countries prepare for war? Statesmen believed in 1918 that the age of universal peace had dawned and when they awoke it was too late; it this rather than any shortcomings of those on the spot which has to be blamed for the fall of Singapore.

Anthony Kemp

The Bitter End, the Fall of Singapore 1941-42, to be published by Antony Bird Publications on February 27.

would not. It would not get away, and brood for the occur to me to run away if it rest of my life. Fortunately, were threatened by a nuclear in spite of race riots, inner-

city battles, football hooliga-nism and all the rest, I do not take such a threst at all seriously.

The important question for me is this: is there a conflict between my allegiance to Britain and my love for Hungary? There is not; but it conflict might arise. The supreme loyalty of an

ancient Greek was to his city state; medieval man's loyalty was to his faith; modern man invented nationalism but can often feel that the primary loyalty belongs to an idea communism, for example. I, being a child of my times, accept the idea of allegiance to a country — or rather, to two countries. I am a devout European. I want the whole of Europe to

unite into one democratic state. For a long time I believed that I wanted this for solid and logical reasons: when Eleni protested yet Britain, as a little off-shore again, Antonis turned to her island, could not survive and said gently: My dear alone; being insular was Eleni, if a man's wife is absurd; our economic future bored by a man's stories is bound up with that of the there is one thing the man rest of Europe, etc etc.

I still think all this is true can't possibly change his but now I know that my stories".

original conviction — like all Quite. But it is because of original conviction — like all Quite. But it is because of convictions — was based on all these stories that I am not purely personal consider a more significant writer ations. If Europe becomes than I am. Happily, being

can possibly arise between my allegiances and I will be able to love both my countries with a clear conscience, just as one may love say, Nottingham and Birmingham, Northumberland and Looking back at my life it

ems that it has been a long string of anecdotes. Nat-urally, when I received blows they were blows, and not jokes; but somebow I have forgotten the blows and remember only the pleasant events and the anecdotes. The anecdotes are very important.
Apt and well-told stories

are the spice of life and the treasures of a life-time. I was in Greece with a beautiful and clever girl friend, Eva, dining with my friends, Antonis and Eleni Samarakis, he a writer, she a lawyer.
Antonis started telling a
story and Eleni exclaimed:
"Oh Antonis, I've heard that one 200 times!" Then I started a story, and

Eva sighed: "God, that one again . . . ". And so it went on. Finally, can do: change his wife. He

being a proper humorist Every humorist worth his salt is neurotic, depressed and afflicted with a gastric ulcer. What sort of a humor ist is a man who accepts the world as it is (not without a sigh, but accepts it), adjusts to it and likes it here?

Unlike Malcolm Mug-geridge, I do not look forward to death with eager anticipation. He hopes to get to heaven but he may, of course, get the shock of his death by getting nowhere at all. I do not expect to survive in any form or fashion and have по desire to do so. What a horrible place this world ever born were still around. What a burden it would be on the Ministries of Pensions all over the world.

Being born involves the certainty of death. Only those countless millions, the unborn ones, are really safe. They will not die, but neither can they have any fun I think it is one of the beauties of life that it is not eternal. It would be a frightful bore to go on and on and on, even in reasonable health.

Besides, I am used to being dead. Death is simple non-existence and we are all used to non-existing. I did not exist in 500 BC or in 50,000 BC or in 1793. Why should not existing in 2117 or 3117 be any different? Death is simply the end of the story. If one is lucky, a good end to a pleasant story.

Appropriately Billy Butlin, man who gave Brit-ain holiday camps has the jolliest and most visited

Butlin who died in 1980 is buried in St John's

comotery, Jersey. The tomb, to hold 10, has a headstone with carvings depicting an amusement

All About It, which achieved audiences of 3m to 4m. Delaney, whose Radio 4 Bookshelf raised 6,000 inquiries for a first novel competition in one week, says he also got 120 letters from a single six-minute spot on Pebble Mill devoted to poetry. "People are starving for lack of coverage of

literature", he claims. Anthony Burgess, one of Delaney's guests, has none the less succeeded in selling well over 500,000 copies of Earthly Powers internationally. How is it that English fiction sells so well without TV backing? "The dimension people have missed", Burgess told PHS, "is that the English really have had a good two or three years in which they have produced a considerable body of fiction of outstanding worth. It may be a symptom of a sick society. The first Elizabethan age had a roaring inflation, worse than we have ever known, caused by gold from the New World, and they got Shakes-

park, a holiday camp with chalcts and swimming pool, and the jolly fisherman from the prewar poster, "Skegness is so bracing". This bouncy fellow was a motif on all Butlin's stationery.

Lady Butlin, who has written a preface to Butlin's autobiography to be published in June, tells PHS the grave is visited by thousands of holidaymakers every year.

"The Victorians suffered mal-

nutrition, pestilence, and extreme

cruelty, and they had Tennison, Browning and Dickens."

A type of fame

The owner of Hopkin's Crank, a Sussex farmhouse at Ditchling Common, is to commemorate with a plaque the fact that Eric Gill, the sculptor and type-designer, lived there.

. Brian Manley, managing director of Philips Business System and present incumbent at the house, has commissioned the plaque from John Skelton, Gill's

nephew and last apprentice.
In Portland stone, the plaque will be engraved with letters with square-ended scrifs. Though Gill, who died in 1940, is best remembered for the still widely used Gill Sans typeface, which lacks scrifs, Skelton is sure his lettering is "such as Eric might have done with a slightly up-to-

The plaque will be unveiled on Sunday by Gill's publisher, Doug-las Cleverdon.

Van Lennep again? Disagreement on the choice of a

new secretary general for the Organization For Economic Cooperation and Development could leave member countries no option but to ask Emile Van Lennep to continue in his post, senior OECD diplomats said this weekend.

Van Lennep, aged 67, a former Dutch treasurer-general who has headed the Paris-based. OECD since 1969, is scheduled to retire on March 31. On March 51.

However, with barely six weeks left, permanent representatives of the 24 OECD countries have

still to make a unanimous choice. After several months of secret consultations, three candidates are still in the race: former Italian finance minister Filippo Maria Pandolfi, 54, who has the backing of several European states; Staffan Burenstam Linder, 51, a former Swedish minister of commerce, who is supported by five Northern European coun-tries; and Helga Steeg, 54, a close aide to West German Economy minister Otto Lambsdorff, who is being championed by the USA and West Germany.

It would be appropriate if the EEC agriculture ministers meet-

tor-general of the Food Manufac-

turers' Federation, says that the EEC's rice regulations put 8p on the price of a pound of round-grain pudding rice in British shops, and 11p on a pound of

These are the amounts of levy imposed to protect Italian rice farmers. Williams says the Italians cannot grow enough roundgrain rice to satisfy British demand and do not produce proper long-grain rice at all. Theirs, he says, is "stodgy, sticky stuff" which might do for risotto but makes heavy going of British

Signs of hope

Gaston Thorn, president of the European Commission, is a Virgo and that is a happy sign for Europe. This is the finding in a secret nine-page report drawn up two and a half months ago by Elizabeth Teissier du Cros, a French astrologist, and now released by the commission. The period between 1981 and

1984, coinciding with Thorn's term of office, "will be a period of profound and even brutal change. It falls to you to deal with it. Fortunately for all of us, you seem to be both an open and lucid man", the astrologist tells Thorn.

The president has to expect social violence starting on September 21, difficulties from the new moon from October 16, and an unhappy first half of November brought about by the conjunction of Saturn with Pluto. Happy events could occur on March 1 and July 23, while petroleum talks could have a good outcome

Animal cunning

Jacques-Marcel Viney, the recently retired chef of the Ritz honoured with a luncheon there last week, had in his time coeked camel, hedgehog, rat and fox. Viney had a hard war, much ef it as a prisoner in Buchenwald and

as a prisoner in Buchenwald and other camps where prisoners are what they could catch.

Rat "though dirty as an animal, is perfectly all right if you cut off the head and clean in up thoroughly." Hedgehogs are of two kinds, dog-muzzled and pig-muzzled. "The pig-muzzled are much the better."

The first fox he caught proved devilish hard, but the second he left in snow for two weeks and it

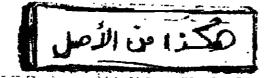

left in snow for two weeks and it was beautifully tender. M Viney has cooked camel steaks, too, but even he could not make them sound very alluring.

PHS does not know if British hedgehogs are the pig-muzild variety Chef Viney prefers, but Major Adrian Coles has just launched the British Hedgehog Preservation Society.

The major says he met an overwhelming response when he persuaded Shropshire Council to fit heagehog ramps to cattle grids. "People wrote to me from all over Britain and be-

REASONABLE PEOPLE

No political party is at its best when debating its own consti-tution. In that respect the Social Democrats have shown themselves to be representa-tives of the old rather than the new politics at their constitutional convention in Kensington this weekend. The proceedings were not always so smooth nor the conclusions so clear as the party would have wished. One of the characteristics of a Social Democrat seems to be a penchant for a point of order.

The difficulty can be attributed partly to the nature of the proceedings. All parties tend to become bogged down in wordy debate when deciding how to govern themselves, and one should not be surprised that the SDP failed to be an exception to this law. But part of the trouble was also that the Social Democrats did not appreciate that a clear line needs to be drawn between the function of a constitution and a statement of policy.

So the draft constitution presented to the convention tried to do too much. A particular case in point was the attempt to secure a fair role for women in the party. Had the convention been asked to approve the proposition that it would be desirable to have more women in the House of Commons and in positions of power and infulence in the SDP there can be no doubt that there would have been overwhelming, probably unanimous, approval: the impression was confirmed at Kensington that Social Democrats are reasonable, enlightened and mostly midddle-class people. The difficulty arose over the att-

accepted sentiment as to what should happen into precise rules as to what must happen.

While there was a clear majority for giving women a minumum number of places on short lists for parliamentary candidates, the sticking point for the convention was the proposal that women should have half the places on the Council for Social Democracy, which is to have the principal responsibility for party policy. The final tie, with 150 votes on each side, represented a deadlock between attachment to the principle of sexual equality and a fear of the party tying itself down with excessive regulation.

The issue will now be resolved in a ballot of all SDP Members. As with most questions concerning the internal processes of a political party, what matters most is that whatever rule is adopted should be generally accept-able, or at least adopted by generally acceptable methods, The ballot is therefore a wise provision. In casting their votes, though, the members might reflect that rigid stipulations of this sort usually work well when there is a very wide measure of agreement on them. Otherwise there will soon develop a frustration within those areas which feel that they are precluded from being represented on the national

council as they would prefer. The other principal issue that will be determined by a ballot is how the parliamentary leader should be elected... The members will be given three choices: election by the parliamentary party; by all members of the party now, empt to express a generally but by the parlimentary party convenient.

after the next general election; and by all members of the party with a compulsory review after three years. There was a majority at the convention for the third of these choices.

If this is the preference of

SDP members it will be a perfectly reasonable decision. A strong case can be made for extending party democracy as widely as possible in the belief that this is the best safeguard against the excess-ive influence of small cliques of activists — that evil from so many Social Democratic politicians suffered during their years in the Labour Party. But this would not be the best method of electing the leader because fellow MPs have the best opportunity of judging who would be most adequately fitted to bear the strains and trials of office. Nor would election by the whole membership be the method preferred by the steering committee.

It was significant that the convention was not prepared to be swayed by the steering committee on this question. This was one of a number of occasions over the weekend when it was apparent that the SDP will not be so amenable to central direction as many people have supposed. It has been fashionable up to now to contrast the sometimes unruly democracy of the Liberals with the greater order maintained by the Social Democrats. But it may well be that this weekend will be remembered not for the detailed decisions on the constitution but for the first strong evidence that local Social Democrats have more of a mind of their own than their leaders will always find

LETTERS TO THE EDITOR

Easing the burden of taxation

From Sir William Clark, MP for . Croydon South (Conservative) and Mr Michael Grylls, MP for Surrey North West (Conservative) Sir, Much of the discussion about

opportunities for tax cuts open to the Chancellor in the Budget has oversimplified the issues.

The choice is not between help

for business through cuts in the National Insurance surcharge and help for individuals through income tax cuts. The Chancellor needs a package which maximizes economic efficiency and stimulus to industry of the limited funds available, whilst improving incentives for individual taxpayers to work, save and invest. Equally important is the need to provide clear evidence to workers who clear evidence to workers who have faced creeping tax increases in the past year, that they will receive a fair share of the rewards of better monetary control, lower pay settlements, improving productivity and company profitability.

These criteria point strongly towards easing the income tax

towards easing the income tax burden on individuals as the Chancellor's immediate priority. But commerce and industry would benefit significantly from such a decision.

Economic growth and new

employment are increasingly found in the self-employed and small-firm sector. Income tax cuts would be of direct assistance there. Many owners of businesses, especially retailers, find lack of consumer demand and orders a more immediate problem than property, wage or material costs. Consumer spending power is the most effective means of allocat-ing resources to business. Some spending will go on imports, especially from other EEC States, but progressive British firms fully accept this as a corollary of the huge home market in Europe

the huge home market in Europe they now enjoy.
Income tax cuts now would serve two vital purposes. First, they would put resources back with the consumer, whose economic decisions are most likely to determine business success and foster growth economy. There spending will provide extra orders needed by in firms which have survived recession so far.

Second, a cut in income tax would show every voter that the policies of the Government are succeeding. Ministers have often said that putting the economy right was a 10-year task and this point has not escaped the business community. We believe the re-election of a Conservative government is vital to the survival of the free enterprise system, the prosperity of business, and the standard of living

of everyone.

Although we regard Labour's famous "payroll tax" as wrong principle and look forward to eventual abolition, a cut in NIS would grant a large unearned benefit to the inefficient, extravagant public sector.

We are very aware of the electoral support in 1979 for the Chancellor's declared target of reducing the standard rate to 25p in the pound by the end of this parliament. That objective would be impossible to achieve without a reduction on March 9. Yours faithfully, WILLIAM CLARK, Chairman,

Finance Committee, MICHAEL GRYLLS, Chairman, Industry Committee, House of Commons. February 10.

Lead in petrol From Mr L. Raphael

Sir, The reports on lead in petrol published in *The Times* this week (February 8) together with your leading article (February 9) have drawn conclusions which are not substantiated by the facts. Members of Parliament have quoted erroneous statements which grossly distort the picture.

No country at present uses exclusively lead-free petrol. The USA has made available unleaded petrol, but it is also the largest manufacturer of tetraethyl lead used only for raising the octane number of petrol, and most of its production for the domestic market. The USSR claims that unleaded petrol is sold in its major cities, but imports large quantities of tetraethyl lead to supplement its own manufacture. It is completely naive to imagine that lead can be eliminated from petrol overnight. West Garmany upgrades its low-lead petrol (0.15 g/litre) by importing high-octane components, which 107 able if all BEC countries followed the same route. Refinery processes in the United States differ from those in Europe and highoctane components supply about half the domestic market to boost unleaded petrol. A barrel of crude oil has its limitations; more high-octane petrol means other products go short.

No one will dispute that lead is toxic and can seriously damage health. The surveys showing the relationship between IQ and lead in the blood do not confirm that the subjects have absorbed lead from car exhaust fumes. Lead smelters, old paint and lead pipes for water supply are all sources of contamination. Natives in New Guinea, far removed from the effects of motor cars, were found to have blood with higher lead levels than Europeans.

intelligence of the population has deteriorated. Lower standards of numeracy and literacy among teenagers (Cockcroft report) are due to financial restraints in education budgets, not to lead in We all benefit from the affluence created by cheap energy, but in times of crisis the oil

Tetraethyl lead has been used

in petrol for over 50 years and there is no evidence that the

industry becomes the scapegoat. Yours faithfully. LEON RAPHAEL, 60 Marsh Lane, Stanmore, February 10.

Mapping for the future

From the President of the Royal Town Planning Institute Sir, In his lucid letter (February 2) Mr John Wright has missed one important point: at least half of the work by professionals which requires the use of plans falls within the public sector. Thus, if the user charges for plans are raised to cover Ordnance Survey costs, more than £10m will continue to be paid by

the taxpayer or ratepayer. Increased user charges will lead to more illegal copying and some of the larger users will attempt their own surveys. The result is likely to be a vicious circle of rising charges and falling usage which would save very little public money and destroy the Ordnance Survey Yours faithfully, ANDREW THORBURN, President

The Royal Town Planning Institute. 26 Portland Place, W1. February 3.

Chemical weapons

From Sir Philip Goodhart, MP for Bromley, Beckenham (Conservative):

Sir. In your leading article, "Chemical arsenais" (February 10) you say that "there are no reliable estimates of the Soviet capability" as far as chemical warfare is concerned.

Our latest information in this field is classified, but it is well known that the Russian have stockpiled more than 115,000 tons of chemical weapons. This stock-pile includes tens of thousands of tons of poison gas shells which are ready for immediate use. We know that they are pressing ahead with their researches on improved forms of nerve gas and blister gas, and have more than 70,000 specially trained chemical troops deployed with their forces on the Central Front. As there is no effective Nato chemical capa-bility, these 70,000 Soviet specialists are obviously deployed to

disseminate and then neutralize Russian gases. As far as chemical warfare is

As far as chemical warfare is concerned, this country disarmed unilaterally soon after the end of World War II, and, as you say, the United States abandoned the manufacture of chemical weapons in 1969. Any surviving American stockpiles are deteriorating rapidly and, 25 you point out, "will shortly become more dangerous to their possessors than to their potential aggressors". I have never been able to understand why so many people in Europe seem to think that unilateral nuclear disarmament by the West will produce a sympathetic response on the part of the Soviet authorities, when there is clear proof in the past decade that unilateral chemica disarmament by Nato has merely provoked an increase in Soviet stockpiles and chemical capability. Yours faithfully, PHILIP GOODHART,

Stalemate in Cyprus

From Mr John Mylonas Sir, Mr O. F. Muftizade (February 5) makes the point that Greece must follow Turkey's example and make efforts to find an honourable agreement in Cyprus. To my knowledge the serious efforts on behalf of Turkey for such a solution consist of the following:

1. The invasion of Cyprus in 1974 with the intention as expressed by the then Prime Minister of restoring the Constitution".

Failing after more than seven years to reduce the size of the occupied area to anywhere near numerical proportion, which is 18 per cent.
7. Demanding as the price of withdrawal an equal share in any

House of Commons.

future federal government. If this is a show of Turkey's good will it would seem that it is only good will towards the minority. It is a pity that such good will is not extended to the Mondish minority. In Turkey Kurdish minority in Turkey.
They form the same proportion
of the total, have absolutely no
rights as a community, and

Judgment implications on fares subsidy

genuine confusion over the real meaning of the law lords judgment, in part a consequence of obfuscation by Government. According to eminent counsel.

whose opinion we sought, the judgment can only mean that all subsidy to LT — not just for, fares — has to be avoided, if it is practicable to do so. As a consequence, fares must be raised, and services curtailed, until subsidy has been reduced to a minimuz. The Secretary of State for Transport is attempting to convey

a different impression. He says that it is reasonable to permit subsidy to avoid further high fares increases. He says that the doubling of fares on March 21 is needed as the price to pay for the GLC's transport policies since May 1981. On the first point, we can only agree. However, if he means it, he should legislate for. it: as his statement as it stands contradicts the law lords. On the contradicts the law lords. On the sound point he is just plain wrong. The doubling of fares is required solely to meet the new legal requirements prescribed by the lords. The cheap fares

From the Leader of the Greater
London Council

Sir, In recent weeks the question of finance for London Transport has received much attention. Unfortunately there remains a genuine confusion over the real meaning of the law lords

October 4 will be paid for by a once-for-all payment from the rates. The better services that we ran (what Mr Howell in his "newspeak" calls high cost, policies) cost only a tiny fraction of the sum to be raised by the

ares increase.

Ever-increasing fares and everreducing sevices are a recipe for disaster; not just for passengers,

but also for employers, workers, car drivers and London's residents who face congestion, delays, high costs and pollution. Mr Howell once said that our cheap fares policy was "fatally flawed" because of the burden on the rates. His concern has to be set against the fact that his own

Government increased this bur-

den by 60 per cent by penalising our spending.

The GLC wants no additional government funds, only an end to penalties on London's ratepayers. All we want is the right to return to the position that prevailed from 1969 until the judgment, when all parties in Government and at the GLC believed that fares subsidies were legal, sub-ject to the wishes of the London electorate.

Yours sincerely, KEN LIVINGSTONE, Members' Lobby, The County Hall, SE1.

Girls' borstal problems

From Miss A. E. Mace Sir, The pressure group, 'Keep Out," has now joined in high-lighting (report, February 10) the particular problems relating to Bullwood Hall borstal, Essex, which I can only agree has one of the most difficult and disturbed populations in the whole of the penal system. penal system.

A high level of tension, stress

and psychiatric disturbance contributes to a degree of violence which markedly affects the future outlook for young women serving sentences there; and makes working conditions extremely tough for all staff, in whatever role they are employed.

In fourteen years of experience in the Probation and After-Care Service in various parts of the country I have entered no more depressing, sad, or occasionally frightening, institution than Bullwood Hall. When the Governor of HM Prison, Wormwood Scrubs, drew attention to the degrading conditions in many penal institutions I was con-cerned that the issue about conditions in custody should not become too narrowly focused on problems of dereliction and squalor when we also need to give attention to the destructive hopeless environment and hopeless environment prevailing in more modern young offender institutions where overcrowding, under-staffing and lack through a purposeful daily rou-tine means that these institutions can achieve in a short time the

perpetuation of a supply of penal dustbin-liners for the future. Youth custody sentences should surely only be imposed when a young offender is a danger to society or demon-strably unwilling, or unable, to respond to non-custodial alterna-

These criteria would apply to some who reach the Bullwood Hall "end of the line". They would not apply to the majority whose future outlook is less hopeful as a result of the time they are incarcerated here in a remote part of Essex cut off from families, relatives, and the comfamilies, relatives and the com-munity in which they have ultimately to try and re-establish themselves and lead socially acceptable lives.

I support planned closure of Bullwood Hall borstal in it present role as the only secure custodial regime for 15-21 year old females in this country, its replacement by community-based or hospital provision for many of the girls who are presently received there, and the establishment of custodial provision on a regional basis for those girls who do need secure containment whilst they are helped towards rehabilitation. Yours faithfully, ANNE E. MACE,

Chief Probation Officer. Essex Probation and After-Care

Central Office. Market Road, Chelmsford,

Victims of rape

From Dr Robin Moffat

Sir, May I comment upon the helpful letter from Mrs Raine Roberts concerning the fate of victims of sexual offences (Feb-ruary 9)? During twenty-five years police practice in London I have never sensed an "accusatory atmosphere" in the police station where rape victims are seen. In most cases the victim is asked to choose a male or female doctor and whether she wishes to be examined in the surgeon's room at the police station or in the doctor's own surgery. Modern stations have specially equipped rooms for this purpose.

I entirely agree that experience essential but it takes time to acquire: and to prevent male medical practitioners their right to gain the necessary expertise would be a very short-sighted policy. Many victims come for-ward and receive a lengthy, ward and receive a lengthy, sympathetic hearing plus a full medical examination from doctors of both sexes and long may this continue. Special units are not the answer to this problem and, truth to tell, some victims prefer to seek counselling and after-care from male general practitioners.

l am, Sir, yours sincerely, ROBIN MOFFAT, Metropolitan Police Surgeon, 10 Harley Street, W1. February 9.

Canal responsibility From Mr John Gagg

Sir, Thank you for mentioning the sorry story of the Stratford-upon-Avon Canal (February 9), revealing that the National Trust is seeking to be rid of its ownership. Many Trust members will feel that it is acting with some irresponsibility. The oncederelict canal was restored in a remarkable voluntary operation in 1964, and taken over by the Trust. Since then it has become a source of pleasure to untold numbers of people, afloat, afoot,

and angling, part of a delightful
"Avon Ring" of waterways.

The Trust must have been well
aware of the likely maintenance aware of the likely maintenance costs, and it has never been short of expert voluntary labour. Moreover, fees from boats must have exceeded all forecasts. It is beyond belief, therefore, that it now wishes to discard this unique

Productivity deals

From Mr J. K. Morland

Sir, It is astonishing that no reporter of the present dispute between British Rail and Asle! has drawn attention to what actually happened in similar circumstances in the United States.
In that country the featherbed

at To le it

ding tactics of the powerful rail unions were a major factor in the spectacular bankruptcies of giant concerns such as the New York Central and Pennsylvania Railroads. On the other hand the much smaller Florida East Coast Railway, which in 1962 successfully combated a particularly vicious strike with great courage, achieved productivity deals that enabled it to transform itself into one of the world's most modern and efficient railways with cor-respondingly high moral-amongst its employees. Your faithfully, J. K. MORLAND,

hartwood House, Punchbowl Lane, Dorking, Surrey. February 11.

The mirror of wit From Professor J. Gwyn Griffiths

Sir, In his instructive article on the "new Cairo style" under President Mubarak, Christopher Walker (February 5) states that "at the last count, one academic researcher had already noted 216 researcher nad arready noted 210 new anti-Sadat jokes which have been circulating since his death". He adds a suggestion that Mr Mubarak has so far achieved a very low or nil score.

very low or mi score.

One wonders whether the "jokes test" really provides a good indication. Towards the end of President Nasser's regime I spent a very happy year as guest professor at the University of Cairo, and I recall that there were jokes galaxy above New Years in the control of th were jokes galore about Nasser. Often their setting was eschatolo-Often their setting was eschatological ("When Nasser reached the Gate of Pearl...") and there were quips relating to his vast authority and ubiquitous presence. During later visits I heard plenty of jokes about Sadat too, although his rule began with a show of greater tolerance.

show of greater tolerance.

It is in any case too early to apply the test to President Mubarak. Mr Walker rightly refers to jokes as "a form of political safety valve"; and forth-right criticism may be a lower tolerance. right criticism may not always be prudent. What should also not be forgotten is that Egyptians have a very rich sense of humour which is sometimes given highly sophi

The closed circuit of converts

By Clifford Longley, Religious Affairs Correspondent

Falling numbers make news; stable or gently rising numbers do not, confirming no doubt the general impression in the Church of England that the media have a stubbornly negative cast of mind. The latest statistical compilation from Church House, Westminster, shows the church in a stable state, losing a little here and gaining a little there; but only if there is an ususual undercurrent to this trend, or lack of trend, is the situation likely to be remarked upon, The truth appears to be

that the Church of England the granting of a royal charter to has sufficiently recovered Maidenhead, Berkshire, on from the disease that was eating at its base in the population, to safeguard its healthy survival for one more generation. But a plateau, while a relief from a slope of trap. A symptom of the syndrome is the recent increase in interest in the idea of "folk religion", meaning, viewed benignly, "folk Anglicanism". It means, in effect, that the Church of England does not pay the majority of the population the compliment of

vanting to convert it. Folk religion is the general "C of E" religiosity of the masses, expressed by respect for a moral code perceived as

Christian, comfort in the knowledge that the church is there, irritation if anyone tues in it, particularly the raison d'être it gives the professional churchman. This relationship between the "C of E" majority and the Church of England minority is the new form of Establishment, the special tie between church and people that was once seen primarily in legal

challenged by the Partners In Mission report on the church, in which outsiders of various nationalities and persuasions have delivered of England is not a success. Their report, which has had much condescension and a little mockery poured on it, is to be debated by the General Synod of the Church of England this week. A plateau is a bad moment for such a debate, for the church was manifestly more alive with fertile ideas when it was with fertile ideas when it was under the pressure of falling numbers. who are left untouched by any change in statistical trends, and whose neglect by

and constitutional bonds.

It is this that has been

recent research and theoriz- respects criticized by the ing, it seems to have been Partners In Mission consultestablished that the Church of-the-mind belief in a vague deity-figure who is not very interesting or interested except for a slightly peculiar minority who are "reliminations". The new fashion is to of England, like the Free churches and like the Church are most likely to be drawn. There is a fair amount of traffic betwen the core and the penumbra, in both directions, as some people decide for whatever reason that "church" is now deserving of their attention, and some decide that it is no longer so. The statistics, by and large, reflect the state of this

> It also appears to be the case that outside the penumbra is the great mass of people, folk religionists or not, for whom the possibility of church membership never seriously arises. The penumbra population has a relationship with the church from previous habit, from family connexion or tradition, or from social class. The rest have had no experience of the church at all.

It is this large remainder From a fair smount of the church is in various

This is not a peculiarly Anglican problem, and the Roman Catholic Church has a far more severe attack of it. The Free churches, particularly the Baptist and Evan-gelical churches, do seem to be more successful at making first-generation though they may be drawing from someone else's penumbra, particularly from the Church of England's. A genuine increase in the

strength of the church, Anglican or another, would involve a net flow of members into the core from outside the penumbra, the genuine breaking of new ground. There is little live argument about how this of church might be able to do
it. Folk religion would be a
force in opposition to such a development, for it ratifies the present static relation-ships. And a net flow into the core from beyond the edge of the shadow could well be accompanied by an actual loss, accompanied in turn by annual headlines as the heads are counted and found to be fewer, and as the penumbra expands with former church-goers repelled by the changes.

After the war she estab business. The Anne Shaw

of Aircraft Production.
She held many profession She held many professional and public appointments She was President of the Institute postgraduate scholarship to of Personnel Management a Bryn Mawr College, Philadel- Founder Member of the Bryn Mawr College, Philadelphia, she continued her studies in applied psychology and subsequently worked under Lilian Gibreth, a psychologist and management consultant, better known outside industrial circles as the heroine of the Commerce, a Member of the Motion Study Society, interest the Motion Study Society and Chairman of the Management Consultants and Chairman of the Management Consultants and Chairman of the Management Consultants are a Member of the Motion Study Society, interest the Motion Study Society and Motion Study circles as the herone of the Commerce, a Member of the film Cheaper by the Dozen.

Superbly trained, competent and confident, Anne Shaw returned to the United Kingdom where in 1930 she became Chief Supervisor of Office. She was appointed Women and Motion Study CBE in 1954.

engineering industry.

Her exceptional abilities It is hard to believe that were recognized outside her this remarkable career were recognized outside her own organization and in 1942 she was invited by Sir Stafford Cripps, then Minister of Aircraft Production, to be a member of his small Production Efficiency Board with Special responsibility thinking.

MR VICTOR JORY

Mr Victor Jory, the Cana- era opportunist in the postdian-born actor who appeared in dozens of Holly-wood films, has died at his home in Santa Monica, Califormia, at the age of 79. He was educated at the

University of California and was a wrestling and boxing champion before turning to the stage in the mid-1920s. He became a popular leading man and also wrote plays, one of which, Five who were Mad, was produced in New York.

He made his film debut in Sailor's Luck in 1932. And three years later played Oberon in Max Reinhardt's famous version of A Midsummer Night's Dream. He was Injun Joe in The Adventures of Tom Sawyer and had a new p supporting part as a North-theatre.

civil war South in Gone with employment for many years was the minor Western, his saturnine features ma him a natural villain. Typica was Canadian Pacific (1949) in which he tried to blow up Randolph Scott with several hundredweight of dynamite: He later appeared in more

substantial films, including The Fugitive Kind, The Minacle Worker, Cheyenna Autumn and Papillon and established virtually a second career as a character actor of depth and meturity. He starred in the television series Manhunt between 1959 and 1960 and at the time of his death was working on; a. new production

Siberia, on March 3, 1901, Shneerson read music at the Petrograd Conservatory from 1915 to 1918, when he moved to Moscow, to study the piano under Nikolai Metner and Konstantin Igumnov until 1923. From 1919 to 1930, he worked as planist and conductor in various Moscow drama theatres. He joined the Secretariat of the Inter-national Music Bureau in 1933, and worked as head of the music division of the All-Union Society for Cultural Relations with Foreign Countries from 1942 to 1948,

musical festivals and other

events. In 1968, he was elected a corresponding Member of the East German Academy of Arts. Several of his essays, and publications, such as those on contemporary English music, and Aram Khachaturian, were trans-lated into foreign languages including English, German and Danish. His attitude to

serialism, by contrast with that of the orthodox musical establishment, was unusually open-minded and objective.

MR H. S. MORGAN

Mr I. O. Chance writes: The announcement of H. S. Morgan's death in your obituary column of February 9 at the age of 81 marks the passing of one more of that generation of great American

Harry, as he was to his many friends, was much in England as a young man; his father owned Wall Hall in Hertfordshire where he used to shoot driven partridges over what subsequently became the Watford by-pass. He was a keen shot and before the last war, every summer for many years enjoyed the grouse at Gan-nochy, the moor which his father rented.

Gains for dollar

The dollar strengthened throughout the world last week as worries grew about United States interest rates. Against the pound it went up 95 points by close on Friday and against the German mark 2.1 pfennigs compared to its close on Friday February 5. Widespread hostility to President Reagan's budget proposals and the government deficits they involve has raised the worries over interest rates, which could rise to keep money supply under control.

£25m Swan Hunter order

Swan Hunter Shipbuilders on the Type has won an order worth about £25m to build a 42,000 tonne cargocontainer carrier for Lombard Maritime, London, a company owned by Lombard North Central PLC, which is part of the National Westminster Bank Group. On completion in the third quarter of 1983, the vessel will be chartered to Leif Hoegh (UK). It will be built at Wallsend Shipyard.

Textile slump 'is over'

The slump in British textile production is over, stockbrokers Phillips & Drew say in their review of the industry published today. The upturn will be very hesitant during the first half of this year, the review says, but it should gather pace during the second half as consumer demand picks up.

Industry 'coped well in slump'

British industry coped sur-prisingly well with the first half of the recession, accord-ing to the Industrial Perform-ance Analysis published today by ICC Business Ratios and based on the performance of 12,000 public and private companies during the 3½ years to the end of 1980. Despite squeezed profits and

years to the sud of 1980.

Despite squeezed profits and liquidity problems, "in aggregate terms the results were very encouraging", the report says. Companies reacted quickly to deteriorating trading conditions by cutting output to match demand and cutting costs. cutting costs to cope with

Cash-flow problems,

The mt disappointing feature of the report is that it disproves analysis generally associated with trade statistics, which often stated that companies were exporting more because of the depressed home market. "Almost all home market. "Almost all industry sectors reduced their exports in terms of historic values as a percentage of sales", the report says.

insurance sale

Ellerman Lines, the shipping group, is about to sell its insurance subsidiary to the French insurance group Assurances du Groupe de Paris for an undisclosed amount. The subsidiary, Farnham-based London & Hull Maritime Insurance, controls a number of insurers, including English & Scottish Maritime and General Insurance, Londull Investments, and the under-writing agents Motgomerie & Workman.

Nissan talks

An executive from Nissan the Japanese car company, will be in London this week for talks with the Government on whether to go shead with a car plant in Britain, according to Japanese Motor Industry sources. Mr Masataka Okuma, vice president of Nissan which makes Datsun cars, will have meetings with government oficials including Mr Patrick Jenkin, the Secretary of State for industry, on subsidies to the project.

settlement at the beginning or April which is unlikely to exceed 10 per cent, and the oversees and diversified interests are continuing to make progress. Should the economy begin to move sheed after the Budget, there will be the prospect that demand for credit from industry and commerce will stay strong for the rest of the year.

What has been notable is that the Monopolies Commission re-

jection of both bids for the Royal Bank of Scotland has not hit

share prices as brokers predicted and the Lloyds price is within a

couple of pence of its 1981/2

Analysts see the performance of Barclays and NatWest for the coming year as likely to be more impressive than other banks,

primarily due to a more marked reduction in bad debt provision

and a more significant success in mortgage lending. Profits will rise in line with Lloyds whose

agree rises well above the rate of inflation this year and next. Low rates and the imbalance between exports and imports are the main reasons that Sealink was forced to withdraw the proposal for two jumoo ferries for the Harwich

Ferry operators have succeeded in getting some rate rises — many went up by about 12 per cent last month — to recoup immediate cost inflation. But they estimate that the base rate has been eroded to such an extent that rises of around 15 per cent this year and next on top of the 10 to 12 per cent for inflation will be needed to get the trade back on a sound footing.

The poor performance of British exports may come as something of a surprise in the light of recent government statements that Britain's balance of trade with Europe is good. But that referred to nurspe is good. But that referred to trade value and took in the fruits of North Sea oil. What concerns ferry operators is the cargo volume in actual freight tons. This has been static or falling while imports continued to rise.

Mr George Hollwey, chairman of the Bell-short-sea container group, said: "The British exporter has been doing magnificently in hanging on to European sales against the drag of a strong pound. But some have found the going too tough and have had to drop out."

Mr Hollwey says this has made the east-west inbalance worse and as

ferry companies jostle for the scarce British return cargo to the Continent eastbound rates have fallen to a ridiculously low level.

While exporters cannot be expected to relish the prospect of rises above the rate of inflation they should be warned by what has happened in the trade to Scandania.

Mr Hollwey says. Tor Line via, Mr Hollwey says. Tor Line, Swedish Lloyd and Roto have all disappeared, and the trade is dominated by Denmark's DFDS, which put rates up 20 per cent in

Roland Smith: "I am quite relaxed"

Double trouble for Mr Smith

By Philip Robinson

Professor Roland Smith the "man of a thousand boardrooms", could lose two of his string of chairman-

ships this year.
Lonrho has threatened to part-time chairman of the House of Fraser Stores Group if its second attempt to gain control succeeds and now he is under attack as chairman of educational publishers E. J. Arnold, where he earns another £11,000 a year.

His entry to Arnold six

years ago was on the recommendation of merchant bankers S. G. Warburg, as it was to House of Fraser. He became chairman in 1979 when a row split the family-dominated, small publishing commany, and saw the discompany and saw the dismissal of one of the three Arnold brothers, Martin, as chairman and mangaging director.

£500,000 profit to £1.5m joss expect sustained profit recovfor the year to January, 1981. ery before the eqrly months

A month ago, Professor of 1982. National Westminster had indicated continued,

smith told shareholders—the majority of whom are family trusts—of a 200p—share bid from Performance Securities, headed by Dr Michael Sinclair Professor Simth, is a Manchester Business School pundit, is a director of the London Trust group, which formed part of a consortium to buy Dr a consortium to buy Dr Sinclair's Allied Investments medical group for £8m after it ran into loss.

Six of the seven Arnold directors supported the bid. But other shareholders claimed that directors ignored other offers, one from Mr Martin Arnold's consortium and the other — worth around 250p a share — from the quoted group, Hestair.

Europe. Some observers have less than half the average 1.3 also suggested that the per cent growth rate forecast: to bid for the company, in his annual review last year there rundown in its Western bank for the economy as a whole.

Ten days ago, Professor

Smith said that Dr Sinclair, whose bid was subject to an accountant's investigation, had withdrawn his offer. Mr Arnold's consortium and Hestair are considering the next move, but whichever succeeds in buying the company, it is understood Pro-fessor Smith would relinquish the chair.

round 250p a share from Professor Smith said: "I am quite relaxed about the All three bids were well situation. We have been below the net asset value going through a rough period around £10 per share but along with other companies Arnold has faced difficult in the same field. When Dr trading. Professor Smith said Sinclair's offer was put to us

Gill may receive £500,000 payoff

Opposition to Mr Jack Gill's 5560,000 golden hand-shake from Associated Communications Corporation could collapse if Mr Robert Holmes a Court's separate, increased bid for ACC is successful. Bell Group the master company of Mr. Holmes a Court, has posted its formal offer document

containing two concurrent offers to ACC shareholders. The second of the two offers emerged this weekend, and shows that as well as making a 20p increase in the bid price, the Bell Group is aiming to obtain outright control of ACC.

Bell's bid matches that of

its rival bidder, Heron Cor-poration, at 340p for voting shares and 85p for the nonvoting shares, and is dependent on obtaining 90 per cent of the non voters. If successful. Bell Group's offer would lead to cancellation of ACC's British stock market quo-

The new bid could con-vince opposition to Mr Gill's pay off — a consortium of pension funds and insurance companies which controls 13.7 per cent of the non-voting shares — that their best course could be to accept the increased offer and drop their legal objections.

Mr Holmes a Court said yesterday that acceptances could go as high as 90 per cent and the petitioners could still have a shareholding. But under these circumstances the petition would have to be amended.

The unprecedented double bid is subject to approval of the Takeover Panel. Mr Peter Frazer, a member of the panel, said yesterday that he did not see any problem with it but the panel would have it, but the panel would have to consider the terms of the offer in detail before its approval. He said: "It is a very

unusual conception, but there's nothing wrong with

Mr Holmes a'Court is seeing the panel today.

The 26-page document offer, which will be lodged with the Stock Exchange, will begin to unveil the very serious financial position facing ACC before Mr Holmes a'Court made his first

The second bid is said to be Mr Arnold has been trying around £10 per share but along with other companies to get his job back ever since by organizing a consortium trading. Professor Smith said to bid for the company, in his annual review last year there were no others on the shareholders before the first offer itself closes. offer itself closes.

Shareholders will now be faced the options of taking 85p per share, the 65p offer, or leaving their money in the or leaving their money in the company under the manage-ment of Mr Holmes a Court. If they choose to do that the non-voting shares will be

enfranchized. Heron is scheduled to make an appearance in the Appeals Court today in an attempt to overrule the irrevocable acceptances of Bell's initial offer by 66 per cent of the voting shareholders. But the new Bell bid may force a rethink. Heron's directors were in close consultations with their advisers. Barclays Merchant Bank, all day. A spokesman for the bank said late yesterday that the company's position was still being considered.

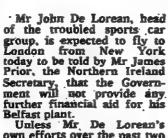

The card will employ the

niques and when inserted into a computerised slot

machine, could be used to activate a range of consumer

Fears grow for De Lorean

own efforts over the past two weeds to risse substantial funds of the New York market were successful and there are no signs of that - receivers are likely to be sent in to the Belfast factory

this week. Over the weekend at his Suffolk farm, Mr Prior has been studying a gloomy report from accountants Coopers and Lybrand and receiver Sir Kenneth Cork on De Lorean's viability. The report is said to show that the company had liabilities of more than £30m over and above its indebtedness to the Government and without an immediate and very substan-tial injection of new money it can no longer continue trade. The report, handed to Mr Prior on Friday night, did not recommend the Govern-

ment to provide the extra.

from Mr Prior

company's Belfast workers de redundant and closure will result in the loss of the remaining 1,500 jobs.

As many as 4,000 other jobs are also at risk in other Ulster and mainland companies which have been providing components and services to De Lorean. Chief among these are GKN's Bilston division which makes the chassis, Barrett Enginknown about the company's debts of around E30m for shire, which survived the several weeks.

closure of MG cars by switching to component production for the Belfast factory, and the Northamp-ton-based Chamberlain-Phipps group which estab-lished its Belfast subsidiary specifically to supply De Lorean with seats and in-

terior trim. Mr Richard Gordon, gional director of the Confederation of British Industry in Northern Ireland, called last night for the Government to continue supporting De Lorean. Havind taken the decision to back a high-risk project and put up venture capital, it should live with the consequences of that de-cision, he said.

For Ulster's Alliance Party Mr Sean Neesan contrasted the treatment being handed out to Belfast car workers with those at British Leyland whose employment had been protected with hundreds of milions of pounds from public funds.

Mr George Clark, official of the Northern Ireland branch of the Transport and General Workers' Union, said yesterday that the unions had known about the company's

Leyland strike talks to hear 'alternative'

The Management of Levland Vehicles, BL's truck and bus subsidiary, tofay meets unions representing 12,000 strikers who have shut down the factories at Leyland, Lancashire, and Bathgate, West Lothian, for four weeks.

Both sides acknowledge that this week will be critical for the future of Leyland Vehicles and its 18,000 employees. The management had warned that BL will have to wind up truck and bus manufacturing permanently unless the 13 unions quickly end their strikeover the company's plan to make 4,100 workers redundant.

workers redundant.

In response, the union negotiators will give the management a 44-page report, Leyland Vehicles — The Workers' Alternative, which proposed the withdrawal of all redundancies as the basis for a return to work.
The Leyland strike committee's "alternative strat-

egy" calls on the company to make more components in-house, and to scrap plans to buy more engines, gears and axles from outside suppliers in "blatant disregard" of

quality and cost. The unions want additional investment, including a new £30m foundry, to mass-produce lightweight engines and complete re-equipment in machine tools.

Leyland Vehicles was los-ing £2m a week before the strike started, because of the slump in the British market. Demand for lorries over 3.5 tons - the sector on which the company is most dependent - has fallen by half over the past 18 months and is now running at no more than 40,000 trucks a year.

However, the unions do not accept the company's pessimism about the prospects for a significant upturn in demand and output. They quote. a. prediction from the Economist Intelligence Unit dom will increase by 28 per cent in 1982.

Pressure on both sides to settle the dispute increased over the weekend after J. C. Banford switched from Ley-land to Perkins as the main supplier of diesel engines for its earthmoving equipment.

Threat to 600 jobs and the future of design

Pall over British fabric printing

will be made this week to save the jobs of 600 workers who are to be made redundant within a few mouths at Tootal's factory at Strines, near Manchester. The clos-ure was announced last month but only now are its implications becoming clear. The Strines factory is the The Strines factory is the last major fabric printing works in Britain and although many of the large stores now get printing done abroad some small clothes designers are in despair.

"I have no idea where we

"I have no kee where we can go now", Miss Jackie Staples, of Jake Dress Designers and Manufacturers of Mayfair, said. "There is no comparable print studio in the country." Miss Susan Collier, of Collier Campell

suport English designers in the future. There is an intimacy between disigners, weavers and printers. If you cannot get designs printed in this country it will be uneconomic to have fabrics woven here so more weavers could go out of business. We will be putting a block on designs. In the end the British consumer will be the

Steel Phoenix fails to rise

Phoenix Two, one of a pair and may be even a trio of the legendary fabulous hoped would emerge from the British steel industry has failed to take wing.
After months of desultory

failed to take wing.

After months of desultory negotiation directed towards creation of a jointly-owned company to rationalize their respective interests in engineering steels, the British Steel Corportion and GKN, the country's largest independent steel-maker, have proken off talks — for the present.

The brief announcement that the pair had not found it possible to identify (ie, agree) a viable basis on which to structure a joint venture, came as no real steel maker — the Government — should be produced by the continuous casting route as against billet derived steel. Ministers will be unhappy as against billet derived steel. Ministers will be unhappy as against billet derived steel. Ministers will be unhappy as against billet derived steel. Ministers will be unhappy as against billet derived steel. Ministers will be unhappy as against billet derived steel. Ministers will be unhappy as against billet derived steel. Ministers will be unhappy as deal has not been done. So too will Mr MacGregor and being used to measure the final size of this controversial £1.8m and the criteria being used to measure the final size of this controversial £1.8m are retrospective transfer paymage to their intervent demand is retrospective transfer paymage. The brief announcement that the pair had not found it possible to identify (ie, agree) a viable basis on which to structure a joint work and the continuous casting route as against billet derived steel. Ministers will be unhappy as adal has not been done. So too will Mr MacGregor and are receding fast. Meamwhile, none doubt that rationalization in engineering steels will be necessary. Current demand is running at slightly over 2 million tonnes a year, well below existing capacity. BSC and GKN spoke of their intention to review periodically Phoenix. Two

efforts to secure long-over-due retrenchment in product areas suffering from chronic over-capacity, and thus hin-dering strategies designed to remove the red ink from steel companies' balance sheets.

This assortment of engineering steels business has therefore been under the BSC's wing for some time, supplementing the corporation's own engineering steels facilities, largely concen-trated in the Sheffield area. It appears that the protracted talks with GKN (the largest United Kingdom user of BSC steel) finally foundered on disagreements of a technical nature and hence over the final ownership profile.

properly. For among the charges that CCA is too subjective, too volatile or irrelevant as far as tax is concerned is the criticism that it is to hard to under-

A new report from Peat Marwick Mitchell, the inter-national firm of chartered accountants, argues that acceptance of CCA is greatest among the top British companies. It says five out of the 10 top industrial companies, BP, Ford, Imperial group, ICI and Unilever now use ICI and Unilever now use CCA information for manage-

ment account purposes.
But it is also reasonable to
point out that many big
companies are well supplied
with internal accounting
research departments, which can minimise the teething difficulties smaller com-

panies might find.
The benefits of using CCA are tangible: rates of return based on current cost principles can highlight the case for closing down or cutting back in operations with inadequate rates of return; CCA in the costing process can lead businesses away from under-pricing, and perhaps most important of all, CCA gives a real measure of how much of a company's capital base is paid out in

The Peat's survey shows that on latest figures about 40 per cent of British companies pay dividends uncovered by earnings. A big influence could be the consideration of CCA for tax purposes in the Government's recent Green Paper.

Though this was considered very "green", and is not expected to lead to any tax changes in the lifetime of the present Parliament, the problem of tax and CCA is mportant

CAPITAL MARKETS

Fresh start on money sums as oil prices fall

Lots of sums are having to be redone in Wall Street and London as a result of the fall in oil prices. Even last default as a way of accelerat December, the Organization ing the economic crisis in the for Economic Cooperation Soviet Union and its Euro- and Development was forecasting a cut in the Opec oil Some neutral countries, surplus from last year's like Austria, which are at \$60,000m to \$35,000m for

Now the level of oil prices is all over the place. While Saudi Arabia's Shaikh Yamani remains adamant that the \$34 for Arabian light oil will hold through this year, other Opec producers are doing deals that one way or another will result in their being paid much less than official prices. So, since that OECD figure was calculated before pressure mounted on the spot oil market, the take-home pay for many of the oil producers is going to shrink.

International capital markets are by now wary of being too definite on energy costs and prices. Saudi Arabia's domestic political situation is still fragile, Iran and Iraq are still fighting. But disappearance of the Opec surpluses will mean that a number of country's credit ratings will be very much healthier, at the expense of Opec producers.

Principle gainers will by Japan, Germany and France and other major industria-lized nations who are dependent for vast quantities of their energy on imported oil

A loser will be Britain - it has been this country's petro-currency status which has belped to attract overseas investment. Others will in-clude Canada and Mexico, both of whom are already out of favour with the international capital markets because they have such insatiable appetites for

Everyone benefits in one vay - the soaring inflation rates of recent years has largely been the fault of the higher energy costs caused by Opec's successful cartel. Since so many governments are monetarist in their economic philosophy, lower in-flation rates should soon find their way through to lower interest rates.

No one is suggesting that a fall from around \$34 to, say, \$30 dollars a barrel is going to take the problem of high energy costs away entirely. But it is a large enough percentage change to put a different complexion on international capital markets in

Looking at investment in bond markets, the firm Salomon Brothers is advising cautious stance. Richard Johannesen, Jr., commenting on the group's bond market research publication Relative Values in the 1982 Bond Market, stresses the need to stick with top-quality names. Prudence and caution are the watch words. The publication's opening words are:
"In the fixed-income markets volatility will continue to be the hallmark".

Given the uncertain conditions they foresee, Mr Johannesen also points to the merits of staying with the short-end of the market.

Budget fears hit prices

expected to fall once again Last week saw prices drop

drop went to shock over the \$91,500m (about £5,000m) deficit projected in Mr Reagan's budget at the begin-

such a deficit could depress investors' confidence and further raise interest rates. High interest rates puts pressure on stock prices because they provide high yields in competing invest-ment such as Treasury Bills, and long-term government bonds as well as popular movey market funds.

Concern over interest rates has been apparent in the markets for the past eight out of ten Mondays. On each of those days stock prices have fallen in response to disappointing news concerning the basic money supply in

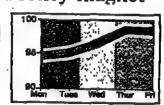

by push up interest rates.
Recently, the money supply has been growing far more quickly than anyone had expected. Last Friday the figures were once again disappointing showing a gain of \$2,300m in the latest reporting week.

As a result, prices are expected to drop tomorrow when the markets reopen after the Washington birth-

day holiday today. In fact, many experts believe that continuing concern over interest rates and the deficits will keep the stockmarket weak for some time to come. Some analysts are predicting that the Dow will drop to somewhere between 720 and 760 in the first half of this month.

Markets multiply in tricky times

Dispatches from Hongkong have aroused my curiousity. Last week it was reported that the Hongkong Commodity Exchange was con-sidering renovation of its gold futures contract and introduction of platinium and financial futures contracts. Why, I wondered, do commodity markets multiply in these tricky times when other markets and businesses fall victim to the depression? Hongkong, of course, is not the only one. London should see its own gold and should see its own gold and Review 1981 that copper while inflation prompts a financial futures markets could go to £1,400 a tonne switch of resources into the beginning of next week grade metal ended the week capital need to maintain the European Options Ex-

INTERNATIONAL OUTLOOK

Bailey Morris analyses the man accused of prolonging the world recession with his tight money policies.

هَكُذُا مِن الأصل

The Titan at the Federal Reserve

historic confrontation over American monetary policy. In Washington, the as yet unscheduled meeting, is al-

ready being dubbed as "the clash of the Titans". It is quite clear in everyone's mind that Mr Volcker qualifies as a "Titan" in his own right, able to squeeze the United States money

supply at will and make most of the rest of the world contract. week's meeting between the independent States Central Bank and Mr Reagan will be only the second since the president

took office in January 1981.

The first one last April reportedly did not go at all well. A presidential aide who was present says Mr Volcker pointed his finger and "lec-tured" the president about the potential conflict of his economic programme and the tight money policy the Federal Reserve intended to pursue to reduce inflation.

There was a little of both the teacher and crusader in Mr Volcker that day. Veteran Volcker-watchers expect the same again this week when the Central Bank chairman meets the president on his own ground in the White House Oval Office.

No one really expects Mr. Volcker to back down and away from the tight money course he has set for the United States.

Despite mounting political pressure, deepening recession and unemployment, and Mr Reagan's public criticism, Mr Volcker remains convinced his policies are correct and that inflation is Voicker still America's number one

He believes this with a sort of religious fervour.

Last Friday before leaving for a weekend at his Camp David retreat, Mr Reagan defended his programme defended his programme again, saying it will eventually bring down interest rates but only if the Federal Reserve Board cooperates.

""I think we have to have more cooperation with the Federal Reserve Board with regard to the money supply and a more consistent pattern," Mr Reagan said.

Cooperation, however, is not a term likely to go down

And since his term doe not expire until August 1983, there is very little the president can do but talk.

As chairman of the Federal Reserve Board, an organis-ation created by Congress in 1913, as separate and inde-pendent from the White House, Mr Volker maintains deliberately the distance between the Central Bank and the Administration. He believes this to be

proper and correct, in keep-ing with the original intent of Congress. It is also true that Mr

Volcker has reservations about certain aspects of Mr Reagan's programme. In recent weeks he has warned repeatedly of the ill effects on the financial markets that Mr Reagan's massive pro-jected deficits will have during the next two years.

Finally, Mr Volcker unswerving in his battle against infaltion, even if it means high interest rates and high unemployment in the short term. This he made clear in Congressional testimony last week when he into the banking system in released a required, semi- order to hurry along the annual report on American promised recovery. monetary policy.

slight increase in the money

Paul Volcker remains convinced his policies are correct and that inflation is still America's number one enemy. He believes it with a sort of religious

The chairman of the House Banking Committee was not pleased. "I am told you are one of the most powerful men in the world. Well, don't the powerful think about the poor and the unemployed?"

fervour⁷

There were other questions from other disbelieving Democrats and Republicans, who want Mr Volcker to reverse course and allow the bank to pump more money

"Who is Volcker that he "We have made some has the right to make policy headway. This is no time to in a vacuum without regard retreat," he said, in announct to the effect on us all", asked ing the Central Bank's de- an angry Mid-Western Concision to stay with a right gressman who wanted to money policy, allowing only a remain anonymous.

The same question may

Frances Williams and John Whitmore explain the issues behind the row in America

weeks ahead in homes across America as the Reagan Administration escalates its attack against Mr Volcker, thus focusing public attention on the role of the Central Bank and its resolute At six feet, seven inches, ir Volcker is hard to

overlook in a crowd.

His career spans 30 years in private banking and government in which he has served variously as an officer of the Chase Manhattan Bank nd aid to David Rockefeller; Under Secretary of the US Treasury; and President of the Federal Reserve Bank of New York.

He is best known as a brilliant intellect who has presided over the most important American monetary decisions of the postwar period.

It was Mr Volcker, for example, who fashioned the United States position and seved as its principal negoseved as als principal nego-tiator during the turbulent early-1970s when the Bretton Woods monetary compact callapsed and the world moved from fixed to floating exchange rates.

Indeed, C Fred Bergsten, a well known economist and former Carter Administration official, credits Mr Volcker with averting a massive breakdown of the interbreakdown of the inter-national economy in 1973 when he negotiated what is

a 10 per cent devaluation of the American dollar and a temporary float of the Japan-This Mr Volcker ac-

complished through a series of monetary agreements between the United States and his united trading partners which he negotiated in lightning trips to Tokyo, London, Bonn, Paris and

Still, despite a formidable intellect, a long list of accomplishments, and a reputation as a good grey banker, he is not a colourless or He is seldom seen, for

example, without a 20-cent cigar clamped between his teeth even when testifying before Congress. His suits are shiny and he often appears dishevelled.

And several years ago, when invited to a Halloween party by a group of friends in New York, he slapped green body paint on his bald pate, donned emerald green tights and went as the Jolly Green

It is economics, however, which is "his profession, his passion and his only hobby", said a colleague of Mr Volcker's. He lives simply during the week, working long hours before leaving for a short walk to his appartment near the Federal Reserve building.

On weekends, he boards the shuttle flight to New York where his wife, who suffers from arthritis, still

Because of the pressures, his wife's illness, and the fact that he took a pay cut from \$110,000 (£58,981) to \$57,000 a year, it has been rumoured that Mr. Volcker plans to resign from the Central Bank and return to a private banking job in New York.

But this is not likely at resent, in the opinion of his friends and colleagues. They say Mr Volcker believes he must stay put in order to steer the monetary system through what is potentially its most difficult period since the Great Depression.

Volcker's experience in presiding over what be regarded as the humiliation of the dollar devaluation, has hardened his resolve to stay with the fight against inflation.

· In his own words: "The battle against inflation has been fairly joined, and we can see signs of progress. We must carry through until the

Business Editor

Hot air is not good policy

Allowing the export of off-shore gas is the most radical, and the most politi-cally explosive, of all policy issues in the North Sea. In raising it last week, Energy Secretary, Nigel Lawson, may have meant merely to put the fear of competition into the Gas Corporation and new heart into the exploration industry.

A reading of the text reveals that he promised no more than to consider exports for new discoveries if there were a surplus of gas supplies to British requirements. But you don't release a genie of this mischeviousness from the bottle and expect it to return meekly when no longer needed.

In the first place the statement must encourage the EEC to press again the British to change their rules against export. So far

the British ability to avoid Treaty of Rome rules on free movement of goods and services has been based on a discreet use of regulations requiring the oil and gas to be landed in Britain and through the British Gas Corporation's rights as first refusal buyer of all gas discoveries. Once a govern ment says that in principle it will allow exports, then it lays itself open to action in the EEC courts to force it to follow this through. Nor can it then keep to guidelines restricting exports

only to surplus supplies.

In the second place, in publicly favouring gas exports, the Government is bound to change the climate of negotiations between companies and the British Gas Corporation. For the companies, especially BP and Shell, this could be very lucrative indeed. The difference between Continental and top British prices for gas is some 20-25 per cent, or more than 5p per therm. Even if the companies don't necessarily wish to export, it gives them a better bargaining position to force more out of the British buyer — British Gas Corporation or private.

For the consumer, the mmediate effect will be less beneficial. Whatever the efficiencies or inefficiencies of the Gas Corporation, its monopoly purchase position has enabled the ordinary consumer to purchase gas at considerably less than his Continental counterpart.

Freedom of gas exports will expose the British consumer to the choice of either seeing his future supplies pre-empted by the richer and more needy Germans and French, or having to pay a considerably higher price to keep them in the country.

It will have another effect. Many of the new gas finds are smaller accumu-lations close to the border with Norway, where a major trunkline system is now being planned to take gas to North-West Europe. Now that the plans for a grand British gas gathering pipeline to take gas from the area to Scotland have foundered on PSBR constraints, the Government's hope has been that oil companies would build smaller privately financed systems to Scotland.

Fine, if this is the only way they will be able to land

way they will be able to land their gas. Not so fine if they can more conveniently take it to the Norwegian or Dutch systems. Smaller finds will then tend to go to the Continent not Britain, even if British prices are as

even if British prices are as high as Europe's.

Mr Lawson's hope, and the logic of his beliefs, is that the short-term adverse effects will be outweighed by the long-term increase in discoveries and development which dompetition will encourage. All splendid stuff if the gas market were a market of freely trans-

pipelines.

Mr Lawson may have meant simply to waive the prospect for its psychological effect. But, if that is

Laker/Rowland Whose money?

Giving credit to Sir Freddie Laker's brave if doomed attempt to take on the subsidized airline cartels is one thing. Enthusiasm for the People's Airline, a pale the People's Airline, a pale version of the original enterprise, is another. Firstly, 'the Civil Aviation Authority (CAA) which grants licences for routes, should think very carefully about the desirability of allowing a man responsible for the largest corporate receivership since Rolls-Royce, to repeat the cheap-price experiment on the blue ribbon London-New

York run. Total losses on this route last year were some \$600m. Laker's Skytrain services were running at only 40 per cent capacity last month compared with a break-even figure of at least 60 per cent. The International Air Transport Association (IATA) raised transatiantic fares by 15 per cent a month ago in an effort to recoup losses. Pan American has been selling seats at below cost just to pull in

ote of a cial ies.

est icil his tve its lck sed on he ike

some cash.
Under these circumstances, the prospects for the People's Airline look bleak at the very least. Secondly, even if the CAA

was to bow to political pressures to get Sir Freddie in the air again, there is likely to be munths of delay before new licences can be granted. There will be formal protests from other independents like British Caledonian as well as from the nationalized airlines. This brings us to the financial difficulties. It is estimated that a new airline would require working capi-

tal of, say, £10m. The purchase of five DC10/30 wide-bodied jets would cost, say, £80m. But as the Orion Royal project showed a week ago, arge investors are not interested in supporting Sir Freddie when even the world's major airlines are effectively bust. Despite the

public's willingness to back a folk hero, the sums required are too large to allow a flotation on the Unlisted Securities Market without institutional sup-port. And do either Mr Rowland or Sir Freddie himself have the kind of the gap?

Amersham Fair rating

Fully taxed earnings per share are forecast at 7.5p.

a market of freely transportable products and North Sea gas was an infinitely elastic supply. But it isn't. What it is, is a critical product which is largely sold through monopoly utilities, which has to be delivered through minelines.

Amersham International is a unique company and so comparisons are hard to make. But at an issue price of 142p a share, giving a fully taxed price/earnings ratio of 18.9, the merchant bankers seem to have weighed up the interests of the future shareholders and the Government pretty well. The p/e is calculated from the profit forecast of not less than £8.3m pre-tax for the year to the end of March, double last year's results and almost £2m more than profits made in

Looking further ahead — as anyone who buys on almost 19 times earnings must — the chief justifi-cation is sales rising at 20 cation is sales rising at 20 per cent a year. Amersham which makes radioactive isotopes for medicine and industry, sees strong growth potential in North America and Japan particularly, and is banking heavily on its technological lead and quality control. and quality control.

Amersham is not subject

to the sensitivity that would go with involvement in weapons, and certainly enjoys a good reputation in its rather esoteric field. So the likelihood is that when the shares come to market they will go to a slight premium, but not enough to spark off an unseemly scramble. There might be some embarrassment if it is a field day for the stags.

the US, as measured by the consumer price index, peaked at 14% per cent in early 1980. Since then it has fallen back to just under 9

Plain man's guide to the US economy What is wrong? The United States, like other countries, has not escaped the historically high rates of inflation prevalent over the past few years The annual inflation rate in

its growth rate has been slowing, as has the growth in productivity. After growing at an annual rate of about 4

the administration's fault. It has been deluded by the "supply-siders." The tax cuts, which have not been offset by spending cuts, will approach to the economy called "supply side" econ-omics. This aimed to tackled omics. This aimed to tackled increase the budget deficit-the problem of low growth in addition, the administ-and productivity by cutting ration has been far too taxes, particularly for the optimistic in its economic rich.

The most ardent "supplysiders" have argued that than the administration is
cutting taxes in this way predicting. All this means
would not lead to any loss of that huge government forgovernment revenue, at least
over the larger term. The interest rates assumptions. Deficits will in

In the current financial year, which began in October, the administration expects

of the United States' vast of the United States' vast at odds with the country's economy. The deficit in 1983 restrictive anti-inflationary would represent 2.7 per cent in the country's monetary policies.

ent basis) is likely to be 4 per cent in the current financial year, falling to perhaps 34 per cent in 1982-83.

So what is the fuss about? The truth is that people simply do not believe the administration's figures. The deficit for the 1982 financial year was originally put at \$37,700m. Congress now expects it to be treble that sum at \$109,500m. (some \$10,000m higher even than the latest official estimate). The Federal Reserve has taken a lot of stick for both higher defence and social security spending and lower tax revenues than forecast because of the weaker than expected state of the economy.

omy.

The critics say that the administration is making the same forecasting mistakes again. It's growth forecasts—averaging 4.7 per cent a year between mid-1982 and 1987—are too optimistic.

The American economy is in These may seem huge centage points more than a mess. The recession is substituted by the seem huge centage points more than a mess. The recession is substituted by the seem huge centage a promotive a perdeeper and more prolonged relatively small in the context expansionary objectives are

Worse, the administration is

Fed is taking too short and too narrow a view of monet-ary behaviour,

over to a full-blooded attempt to control the monetary base. But the Fed would doubtless reply that a pure monetary base would in all probability produce more rather than less volatile interest rates. Moreover, it would not, in any case, bring lower interest rates so long as the combined demand of the public and private sectors for credit outstripped the restricted supply.

In the short term it may yet be that monetary growth will subside, allowing interest rates to fall

But the differences of opion over medium-term prospects will remain and it is difficult to see how the two sides can be reconciled, except perhaps by a much more rapid decline in the rate of inflation

So long as the mediumset a similar pattern for every other country.

Lower growth will mean higher budget deficits: Higher than forecast inflation will also mean higher deficits, because the government will have the mean higher deficits. have to pay more interest on its

There is also an argument that if only the Fed would improve its techniques and get the money supply fully under control, then interest rates could come down instantly.

The implication of the letter argument seems to be letter argument seems to be that the Fed should move

The future

term uncertainty persists, United States interest rates will remain at higher levels than they would otherwise have been. And that promises not only to slow down the pace of economic recovery in the United States but also to

leading companies is still around 8 per cent.

Mr Volcker has tried to defuse some of the criticism of the Fed by arguing that it is the market and not the Fed that sets interest rates. But whatever the finer points, the fact remains that it is the Fed's struggle to do its (perceived) job and contain monetary growth that is keeping interest rates high. The Fed hopes that the present bulge in M-1 will prove short-lived and that the aggregate will start to return to a path consistent with this

spring, when they topped 20 per cent. But with the banks' prime lending rates back up to 16% per cent, the real (pretax) cost of bank finance to

year's growth target of between 21/2 and 51/2 per cent.

Even then, however, the Fed fears that interest rates would not necessarily stay down for all that long.

FA Cup: Liverpool stumble on the arm of carelessness while Ipswich reel on an injured limb

When the boss kicks over the tea urn

HENRYBUTCH

An FA Cup run can secure a manager's posi-An FA Lup run can secure a manager's posion. Nothing appeals more to directors, suptraction and the men at the bank than a
lamorous journey towards Wembley. Four
aretakers took their hopes and their sades into
the fifth round on Saturday, but only Steve
tember, of Crystal Palace, is still there and
yen he is unlikely to reach the quarter-final

Menagers are praised for success and are too fren asked to leave when failure knocks on the oor. Essentially individual in their approach, ot all their methods are particularly sophisticated. The main rask of Bob Paisley, for example, is to apply oil to the Liverpool machining and avoid the rust of self-satisfaction

He recalled the feat of Joe Mercer, who once ed a team back from a 4-0 deficit at half-time of a 4-4 draw, missing a penalty on the way. What did you say to them during the interval? ie was asked. "I went into the dressing room", ie replied. "kicked over the tea urn and said, You got us into this mess-now get us out of

There was no tea urn to kick over at Stam-ord Bridge. Mr Paisley saw his joint favourites walk out of the competition on the arm of

Bobby Robson, manager of the other joint 'svourites; ipswich Town, needs any support te can find. Crippled by injury. Ipswich's ambi-tions that embraced a treble less than a month ago have been reduced merely to holding their position in the championship table.

position in the championship table.

There are no such blinkers on Keith Burkinshaw, of Tottenham Hotspur. The holders and new favourites, they are still gazing fondly at four trophies. Mr Burkinshaw strengthened his defence by buying Clemence at the start of the season and the goalkeeper, who faces his former Liverpool colleagues at Wembley in the League Cup final next month, is unbeaten in 900 minores of Cup football. 900 minores of Cup football.

He denied Aston Villa, led by another care-taker manager. Tony Barton, whose home thoughes will shortly turn to abroad: Villa meet Dynamo Kiev in the first leg of their European Cup quarter-final tie in little more then a formight, an adventure that represents heir last registic hope of gaining some saver-wars. On that result may depend Mr Barton's

Cheisea 2

Chelses 2 Liverpool 9
After the thousands of Lonflorers had had their say on Satirday afternoon two quiet Geordie
roices tried to make sense of the
nonsense that had unfolded at
Stanford Bridge. How, in the
tame of reason, could Liverpool,
the European champions and unflorered away since the long ago

feleated away since the long ago of September, yield to a bunch of Cheisea youngsters?

of Chelsea youngsters?

"They Caught us day-dreaming." Bob Paisley, Liverpool's nanager, explained. "When we move and play, we look the best cam in the world. When we stand and play, we look like some custered for two we were not making any mistakes. Today we were tack to our old habits of last car. We made two and they mistaked us."

While praise was dripping all

While praise was dripping all ter his side and the odds on a omestic treble were reduced to remarkable 11 to 1, he alone 12d persisted in sounding a fog-

ee the tocks of complacency that ay alead. "You have to put our heads down and battle in hese games but try telling them hat," he added with a significant

McDermott committed the first error seven minutes after the start and Grobbelaar made the

start and Grobbelaar made the second seven minutes from the end. McDermott's aberration brought back echoes of his slip in England's World Cup tie in Norway that proved equally costly and caused perhaps the other main surprise of the season so far. 'Lee dispossessed him and released Rhoades-Brown, who ran on and scored, dare one say, with all the confidence of a

My, with all the confidence of a

"He was due for a goal," the other Geordie voice — that of John Neal, Chelsea's manager — saud. "He scored one last season and how't this." Rhoades-Brown's father is a Liverpool supporter and did not watch the game

and did not watch the game.
"I'm just off to tell him the
news. I think I'll give him the

had first, and then the good ", the sun said afterwards. Mr Neal divulged few of his lactics but it was clear that be

used: Pates: to restrict Souness,

tactics but it was clear that be used? Pates to restrict Souness, who had to watch Fillery running midfield much as he would have wanted, and instructed his outstanding, Captain, the giant Droy, not to crowd Dalgleish too tightly. With Rush out of touch, even though he hit a post, the only danger lay in McDermott's runs from deep.

During Liverpool's pale purple saten 'midway through the first talf McDermott twice threatened with volleys. One dipped and mugced off the top of the bar. The other, struck on, the turn rom Hansen's chip, was held uperbly by the diving Francis, helsea's 17-year-old goalkeeper, thou's still only an apprentice.

The professional at the far end bold intermed the close. He Rapped at Valker's cross, saw it bonuce off he knee of Neal, who was emarrassed throughout to Roodes-

arrassed throughout by Rhoades-irows, and come to rest at Lee's cet. Those huddled in The Shed were acclaiming victory before

liverpool arriker.

of warning. He could fore-

Paisley's day-dreamers

A place at

for Turner

Shrewsbury reached their mountain top at 4.45 pm on Saturday and were about to enjoy the view when they heard the other FA. Cup results. It was like a package deal throng of folks from the same sweet arriving on the same

summit also singing jolly songs about going to Wembley.

Beating one of the first divi-

sion's favourites to reach the sixth

round is all very well but when the second division has more sur-

vivors than the first, the celebra-tion is not the same. At least Shrewsbury are the lowest of the second division clobs definitely through to the last eight, and at least they scuttled Ipswich with-out a trace of luck

They won with two set-plece goals of the sort that foreigners do so well but not country clubs it medieval English towns on

grounds such as Gay Meadow. Their first came from a free kick

conceived, according to their affable young manager, Graham Turner, on "freezing Thursdays when we practise these things.

on four or five occasions they
may not come off but roday. . ".

There was no leaping over the
ball or dummy-runs. King
chipped over the lpswich wall,

the top

out a trace of luck.

Liverpool 6 Det. As the sun set their hopes of Wenbley began to rise.

CHELSEA: 8 Francis: G Locko. G quiet Geordie condition of the unfolded at How, in the unfolded at How, in the condition of the team that the thought the condition of the team only the previous Saturday after missing the first half of the season missing the first half of the season

Rounde Allen, West Bromwich Albion's manager, shares Mr Robson's injury problems but at least he can still rely on Regis, who is accustomed to carrying them almost on his own. His ione strike was enough to take them through against Norwich City but Mr Allen is still eager to sign a partner to take the load off Regis's broad shoulders.

West Bromwich, one of only three first division sides left, might be interested in a teasing figure: the last time so few of the clite reached the last eight was 51 years ago and West Bromwich have reason to remember the competition of 1931: they won it. Then in the second division, they beat their neighbours, Birmingham City. 2—1 in the final.

The chances of another second division side claiming the trophy for the fourth time in the last decade are healthy. Six of them remain but the sides with the worst scoring record in the division, Palace and Orient, meet each other again tomorrow might in the only replay after a predictable goalless draw at Selhurst Park Having picked up six points in their first dozen League games, Orient gained 22 in their next dozen under their new leader, Ken Knighton.

Graham Taylor, of Watford, is free to concentrate on the prize he most wants—promotion—after his defeat at Leicester City. Jock Wallace, the City manager, prefers to win every same "even if he is a one-a-side practice", as

acter his deteat at Lecester Orty, Jock Wal-lace, the City manager, prefers to win every game "even if it is a one-side practice", as he puts it. The first of their goels was healed home by O'Neill, who asked for a transfer on the eve of the tie. Terry, one of the most im-pressive young centre-balves in the country, inadventently deflected the second past his own

goalkesper.
Queen's Park Rangers completed their second victory in a week over Grimsby Town, who are also under temporary management at the botand the division. Alien, Stainrod and Howe, with his first of the season, gave them a comfortable cushion on their synthetic turk, Moore replying for Grimsby. So London and the Midlands, each with four sides, will share the

lands, each with four sides, will share the interest in today's sixth-round draw. In the League Arsenal continued their steady progress and moved up into fourth place after beating Notts County. Meade scored the decisive goal that keeps them on a par with Keepan, who took his total for the season to 21 with Southampton's first against Nottingham Forest. Channon added the other but their lead is said only two points since both Manchesters were victorious.

King but returned to the team only the previous Saturday after missing the first half of the season with a stomach injury. He had an inspiring game, challenging the 13-year-old midfield schemer, McNally, and solid Keay for unofficial "man of the match", an award for which loswich would had only one outside contender. Osman proposed up a defence

Osman propped up a defence trembling on the aging, slowing legs of Allan Hunter who was re-

placing Butcher.

Ipswich were also without Mariner and Thijssen, but, probably. Shrewsbury would have beaten a full-strength team, such was their industry and ability to cling on when repulsed in the second half. But, by then, they were two up. Mr Turner's corner practice was well rewarded when Keay glanced the

warried when Keay gianced the ball on over the goal area from Tong and King headed in.
With Arkins, Biggins and Tong hammering their defence, Ipswich recied beyond hope of a full recovery. Mills had a

a full recovery. Mills had a ghastly march; only when he was substituted and the young South African, D'Avray came on to cut into the penalty area and score with 13 minutes left, did

Ipswich have a hope of forcing

Ipswith have a hope of forcing a replay.

Shrewsbury's admirable goal-keeper, Wardle, guaranteed the assets his colleagues had so effectively built.

SMREWSBURY TOWN: R. Wardle, I King. P. Johnson, S. Cross, C. Griffin, J. Koay, D. Tons, B. McNally, I Akkins, S. Bigsina (said J. Dungworth; C. Barles, P. Cooper, G. Binriey, S. McCall, M. Spurs are on

to Wembley

Tottenham 1 Aston Villa 0

There was a maxim not so long ago that the ream that beat the Villa went on to win the cup. Tottenham Hotspur, who have done so en route to three of their six triumphs, did nothing to disprove the theory on Saturday. Neither, so far, have the fates which have conspired to grant them nine successive home draws in the two cup competitions.

draws in the two cup competitions.

With Liverpool and Ipswich
conveniently falling by the wayside, it now seems as certain
that Spurs will be making yet
another Wembley appearance in
May as it is that they will be
helped on their way by coming
out of the hat first again in
today's sizeh round draw.

Should Spurs be denied a home
tie, it is unlikely that their resilience will be examined more on
the way to what is becoming a

the road

By Nicholas Harling

The lonely and the loved: Suddenly Bob Paisley's world is as flat as a cloth cap while Chelsea's seems to embrace the moon. Aloneness and togetherness at Stamford Bridge.

familiar destiny than it was in the fifth round. Villa, who now have only (only?) the European Cup to aim for besides the reten-tion of their first division status, may be currently withour a head but theirs was not a performance of a team lacking direction.

For the second time in four days since the resignation of Ron Saunders their urgency prompted the hardly plausible suggestion that some of the plause had the plause the plause had the plause the plause had the plause the players had stopped giving their all for the manager who took them to the championship. Mor-ley and Mortimer certainly ley and Mortime looked rejuvenated.

looked rejuvenated.

Spury, according to their manager Keith Burkinshaw—excusing a weary second half in which they had all but totally conceded midfield—had had a hard game on Wednesday. But so had Villa and there was plenty of running left in the legs of the players who had fought back against Southampton, specially the midfield who were indefatigable.

able. They pushed Spura to the Ilmit although injuries had kept out Villa (the player) and Hazard. Spura midfield vacancy was filled by Roberts, a far less creative player, but one who having lost his place at centre half, showed his versatility. His virile, occasionally crude contribution did much to assist Tomenham's security which was most

bution did much to assist Tonenham's security which was most frequently threatened by Morley on his own racall to Villa's side. If successful terms need a hard man Spurs containly have one in Roberts. Mr Burkinshaw was vindicated with that particular ramble as he was with his decision to persevere with Falco although Archibald was fit. Falco, it was, who launched himself high above McNaught to acore the only goal in the thirty-third minute from a cross by Crooks after a splendid run by Price, who had exchanged passes with both Hughton and Ardiles. The unflagging pace of the game left Hoddle tooo breathless to weave his usual influence much beyond one exquisite pass 10 to weave his usual influence much beyond one exquisite pass to Crooks and a late jinking run along the by-line which Rimmer anticipated. Had Villa possessed similar inspiration to match their cadeavour, it would have been easier to sympathize with their caretaker manager Tony Barton, who said: "Teams don't always get what they deserve." with Said: "Teams don't always get what they deserve."

Coventry to Taking the prove top underdog

Covenity City 4 Oxford Utd 0 A trick question much favoured by those that go in for that sort of thing is: how many times have Coventry City won the FA Cup? Coventry City have never won the FA Cup, nor seriously threatened to do so. Nor have they won any of football's big honours. But there is a growing body of opinion, admirtedly mostly to be found in the environs of High-

field Road, that this season they could change all that. After all, they will tell you, this is the hinese Year of the Dog, dubbed by many in football as the year of the underdog—as it has so far proved. proced. It was bard to believe at times

that this ragbag collection of apparent no-hopers was the side who comprehensively disposed of Brighton in the last round. Coventry, not exactly blessed with an over abundance of skill with an over abundance of skill themselves, seemed bewildered that their opponents did not have more to offer and consequently struggled to find any sort of rhythm. It was something of a relief when Thompson pounced on a loose ball in the goalmouth on the stroke of half-time to open the scoring.

Five minutes after the interval

Five minutes after the interval Five minutes after the interval they found themselves in the comfortable, if distinctly flattering, position of being 3-0 ahead. First Hateley headed in Bodak's cross with all the aplomb of his father before him; then Thompson concluded a move involving Bodak. Hunt, Barnes, Hateley and Hunt again by heading into the far corner.

The final goal came as the result of Wright's inability to control the ball when confronted by flateley on the right. The striker gratefully accepted the chance, charged in from the wing and the ball change in the striker in the ball change in the striker in t and struck the ball cleanly into the top corner of the net. tedium too far

Ken Knighton, the Orient manager, expressed the hope after this fifth round FA Cup de that his club "would get more than 4,000 people to watch the re-play". If the attendance tomorrow fails to better that figure, which is just about the average at Orient these days. Mr Knighton would do well to look beyond the rail strike when trying to find the reasons. It would be difficult to put

forward a case as to why any-one other bian a committed fol-lower of either club should bother turning up for the replay. Saturday's game at Selburst Park lived up to everything that should have been expected from a Lon-don derby in which there was so much at stake and which featured the second division's two least productive attacks against two of its tightest defences.

Desperate measures, such as a five-man defence, might have been excusable when Mr Knighton been excusable when Mr Knighton arrived last year at Orient, who were then rooted to the foot of the table. Quite why he should use the same tactics against Palace's two lone forwards, Walsh and Mabburt, who have scored a grand total of five goals between them this season, was as puzzling as his opposite number's decision to bring off Hilbire midway through the second half.
Wicks, the centre half, posed the biggest threat. His power in the biggest threat. His power in the air at corners frequently worried Orient and one effort which Fisher cleared off the line was

the closest Palace came to scoring. At the other end the admirable Wicks kept a tight check on Moores, whose one clear shot at goal was well saved by Barron. The Palace goalkeeper was also on hand to block Orient's only other chance of note, a hesitant shot from Godfrey after an inciperfect cross from Moores.

World Cup build-up backed by managers

The Football League's leading managers, with Bobby Robson, Keith Burkinshaw and Lawrie McMenemy to the fore, have backed the World Cup preparations of England, Northern Ireland, and Scotland. They agreed yesterday at a meeting of managers, coaches and secretaries to release players from money-making end of season tours and friendly matches.

At the meeting in Coventry they agreed to do all in their power to let the three international managers have squads from May 15 the week before the FA Cup Final. Over 70 managers heard Ron Greenwood, Billy Bing-bam and Jock Stein, go through their schedules of matches and get-rogethers before the World Cup finals begin on

Players involved in the FA Cup final, any European Club finals or important league fixtures would be needed by their clubs, but the managers went out of their way to say that they would try to ease the road to Spain.

England's Ron Greenwood said: "We have cemented a few ideas, put forward a few thoughts we have on our preparations and generally received good co-operation from

them. Their hearts are in the right place and that is

Bobby Robson, of Ipswich Town, summed up the thoughts of the managers on avoiding unnecessary extra fixtures for international players in May. "I have already told my players we will not be going anywhere on tour or playing friendlies at the end of the season. I feel we have got to make these sacrifices for the good of our international teams", he said.

The managers heard from Billy Bingham, of Northern Ireland, of the advantages in having get-togethers on Sundays and Mondays, apart from the training sessions before international matches. This might be of particular value to England and Scotland with regard to under-21 and youth team fixtures where they do not have automatic

Keegan and co in a novel role

Southampton 2 Nortm Forest 0
Not so long ago Southampton
used to delight in stepping up
their play in order to take on the
Leagus leaders. Most teams do,
often they succeed, but cannot
achieve anything like the same
performance against lesser clubs.
Southampton are now, for them,
in the novel position of being the
team the others want to beat. For
the third same in succession they the third game in succession they could have been knocked from their perch, but on each occasion they have demonstrated their recently acquired mixture of confidence and aggression.

And what a difference con-fidence, or lack of it, can make to a team. Nottingham Forest showed plenty of aggression, as Keegan will testify, but to a man they were devoid of confidence. It is not difficult to see this present team sliding ever deeper into obscurity, with the possibility of more players joining those already on the transfer list.

Of the unwanted men who are still in the team, Robertson tried hard to pull his side together, while Fashanu only emphasized why he is for sale. Forest's most pressing problem is a lack of firepower, taving scored only once in their previous five matches. Against a side that always seemed to a team, Nottingham Porest

an their previous rive materies.

Against a side that always seemed to outnumeer them. Forest created few chances, but when they did there was nobody on hand properly to finish them off.

Southampton showed exactly how to use to be done. There how it ought to e done. There were always midfield men on hand to support the strikers, so that if Keegan or Channon was countered someone else would be available to maintain the initiative. The visitors held out

probing and then paid dearly for slack marking.
Channon pulled back a corner to Ball, whose measured pass to the far post was headed on to the crossbar by Nicholl. With Shifton helpless, Keegan had all the time and space he needed to tap in the rebound for his twenty-first goal of the season. Ten minutes into the second half Southampton made sure of the points with the sort of move Forest once employed but which now seems unattainable for them.

Katslinic threw out the ball Katalinic threw out the ball

to Golac, who reached the half-way line before he was chal-lenged and had to pass to Keegan. He spotted Hebbard darring forward to the right of goal and found him with the goal and found him with a first-time pass. Hebberd's cross was met by Baker in full flight and though Shilton blocked the shot yet another Southampton player, Channon, was on hand to pop in the rebound.

Forest's list of injured or unwanted players grew when their West German, Roeber, was carried off in the second half after a tackle for which Baker was rightly cantioned.

Forfar beat Rangers to Hampden Park

By Iain Mackenzie

The most interesting thing about this season's Scottish Cup competition is not that Celticare out, or that the holders. Rangers, are still in. It is that the draw, made on Saturday evening by the son of the Dundee United manager, lim McLean, brought to get her Queen's Park and Forfar Athletic, so there will be at least one somewhat unlikely name in the semi-finals.

Forfar's chances of reaching Hampden would normally be about the same as Scotland's of issues at the first minute, the end any hope the Aberdonians had of recovering the league title. At the same time they did themselves a fevour by maintaining the gap in the race for the thampionship.

It was a different story on Saturday. Aberdeen may not be the side they were a year fr so ago, but they are not in the habit of losing at home to the same team too often. Most forecasters expected a draw, but the Scottish Cup like the FA equivalent, has a habit of making forecasts look stilly. semi-finals.
Forfar's chances of reaching Hampden would normally be about the same as Scotland's of winning the Benson and Hedges Cup at cricket. Their manager, Alec Rae, may be forgiven therefore, for his somewhat wry comment that "... we have got to Hampden before Rangers."
Whether the little east coast club can tilt at giants in the last four is another matter; they may

four is another matter; they may be more likely to make a dignified exit and leave Queen's, the last of the true amateurs, to seek a place in the final on their own ground.

Forfar reached the last eight by besting Heart of Midlothian

Celtic's defeat by Aberdeen in the far north was almost predictable. Recently the two met at Pittodrie, and after conceding a

silly. On Saturday Aberdeen took 19

On Saturday Aberdeen took 19 minutes to score their goal, but it was a good one, worthy of any cup-tie. Weir's corner glanced off McLeod's head when he might have cleared it with just a little more care. It dropped in front of Hewitt, who was quick enough to push out his left foot and send the ball past Bonner.

Elsewhere the afternoon went exactly according to plan. Rangers had another easy win, this time against Dumharton. Rangers had another easy win, this time against Dumbarton, scoring four times in the second half. As St Mirren won 2—0 after travelling the short distance to Clydebank, only in Dundee was there any sign of another upset.

Dundee United, who held Dundee United, who held Rangers to a scoreless draw in the Rangers to a scoreless draw in the final last season, before falling 4—0 in the replay, made heavy going of their tie with Hiberman. Despite a 10th minute goal by Holt, they struggled to salvage a draw after Rae equalized for the Tainburgh team in the Calibratics. Edinburgh team in the 65th

minute.

No wonder Leicester are loved by everyone down at Newport

t is not difficult to understand why: Leicester have won there with a Leicester have won there only four times and on Saturday they failed to add a fifth in a game which their backs should have made totally secure. It was a story told many times before, of inventive running by the visitors while the hosts, with a slight smirk, treal away with the spoils smirk, steal away with the spoils. Newport, whose season hitherto has been remarkably average—14 by a goal, a try and two penalty goals to a goal and three penalties and reflected, in the presence of the coaches of England and Wales, some of the virtues and Ills which are features of the Wales ream

r forwards provided the Their forwards provided the foundation of victory, with sound scrummaging, some splendid line-out work by the stringy Waters and, most importantly, a more positive attitude in their pursuit of the loose ball. Powell, the flauker, had a particularly effective game, as did the Wales B hooker, Watkins, and their rolling manls, on the day, were more efficiently performed than those of Leicester.

backs, missing Justin Robinson and the unavailable Stuart Barnes,

Over the years Newport have were very plain. Ackerman, the Welsh wing, hardly received a pass all afternoon, even though he scored the second Newport try. His best work, as it has been for Wales so far, was in defence and one memorable cover trettle on his memorable cover tackle on his wrong wing prevented a certain try by Barry Evans. In addition the alignment of the Newport backs was so poor that it was surprising Leicester took so long to carve their way through.

The one thing the Newport backs did well was cover and tackle. Even so, that Leicester went through the second half without scoring a try was a travesty; in that respect they can

forwards who, struggling across the field to fill the gaps, were delighted to gobble up any Leicester back who came their way and cut their journey time. Had the ball run more to Leicester the struggling the came their way and cut their journey time.

Billinghurst opened the scorlng from a No 8 pick-up which
exposed the lack of Leicester
back-row cover. A half-break
and finely judged pass by Hali
sent Woodward on his way for
Leicester's try, Hare converting
and kicking a penalty to give the
visitors a 9-4 lead at the break. Ackerman's try, converted by

Scotland have been forced to change their side for the international against Ireland at Lansdowne Road on Saturday. David Leslie broke a leg against Heriot's on Saturday while playing for the champions, Gala and his place will be taken by fellow Borderer, Eric Paxton, of Kelso.

Leslie's injury was confirmed vesterday morning and Paxton, who has been on the verge of full international honours for some years, was asked to step in.

Nick Stringer, the Wasps full back who is due to collect his second cap for England against France in Paris next Saturday, left the field, during his club's match with Cambridge University, with a hamstring injury.

After treatment over the weekend he will join the rest of the

nd he will join the rest of the ngland squad at Stourbridge this vening where both he and the elcester centre. Paul Dodge, will

The Swansez and Wales lock, Geoff Wheel, has retired from international rugby. He won the ast of his 32 caps against Ireland last of his 32 caps against Ireland last month, the country against whom he made his international bow in 1973. Wheel, aged 30, will still play for his club but business and domestic reasons have influenced his decision to redre from the highest flight.

Cardiff further depress the spirit of Ebbw Vale

Ebbw Vale used to be a team to be reckoned with, but that was to be reckoned with, but that was when the steel company dominated the town. To underline the influence and strength the steel works once brought to Ebbw Vale, tre rugby team has only been a shadow of its former self since the closure. The spirit which took them to the semi-finals in 1976 and 1977 was, however, evident again at Eugene Cross Park on Saturday in

the third round of this year's cup competition. In a thrilling contest, full of grit and determination, Ebbw Vale gave way only in the final 15 minutes. Cardiff, taking the lead for the first time in the 66th minute, deserved to win. But as they themselves will be the first to somit, they were flattered by the final score of two goals, a try and two penalties to a goal and a remain.

penalty.

Whatever was said in the pre-match team talk, Ebbw Vala responded by giving a rousing performance. For just over an hour they managed to upset the rhythm of Cardiff, the cup-holders and favourites to retain the title. The home side did not set out with any daring plan, but what they did on a limited scale, using the forwards and built backs, they did well. a limited scale, timing the forwards and half backs, they did well.

Possession at the lineout was a decisive factor. Bidgood and Duke did rather better than their opposite numbers, which gave more time for Norkett to nurse his forwards

for themselves by trying to play instead of courting the style which led to their first try. When charged down an attempted clear-

the three-quarter manoeuvres that Cardiff tried, invariably seemed to bring the ball back to Ebbw Vale's source of strength. In the second ball, first Stephenson and then Davies exchanged penalty kicks, before iste in the game Davies cleverly held back and picked up a stray kick from the former. He ran

Liverpool, the Northern merit
table leaders, and London Irish,
who top the London table, staged
a Mersevside rugby spectacular.
They brought the best from each
other and gave an exhilarating
display of skill, pace and commirment.

in the second half the home team broke an Irish grip which had seemed irresistible and won by two goals. a try and a penalty goal to a goal and a penalty goal. Liverpool have all round strength and in Slemen a winger with few, if any equals. His colleagues directed much of their effort to bringing him into action pinpoint accuracy.

Slemen was awarded a penalty try when an opponent impeded his pursuit of the ball as it ran to the line. It was, perhaps, a generous ruling, but no more than just reward for all round excellence.

The Irish dominated the first half. The pack gained clean possession from a majority of scrums, and McCarthy, Sheehan and Christopher won many of the lineouts. Crotty, the fast loose forward and scorer of the Irish try, had to go off injured at half time. Muchty a contra was similarly Murphy, a centre, was similarly unfortunate.

Crotty scored after a break by Watkinson and Christopher, and O'Donnell converted. A penalty by Killen gave Liverpool slight relief from pressure, but Watkinson restored the Irish margin with another penalty goal. another penalty goal.
On half-time the Irish squadered their advantage by allowing

dered their advantage by allowing Heaton, the Liverpool centre, to intercept a pass from which he scored unopposed.

When Liverpool took command in the second half, Hemnigan's ability to be there at the right time brought him a try which killen converted. Slemen's penalty try—egain converted by killen—put the result beyond doubt.

Oxford a degree too cold

By John Clemison
Oxford Univ 15 Dublin Univ 12
If Oxford University want to
save themselves the agony of a
tight finish to almost every game
this season, they must spend
more time warming up before the
march. Though they, ran out
winners on Saturday by two goals
and a penalty goal to a goal, a
dropped goal and a penalty goal,
they spent a frustrating first hour
without the momentum or the
cohesion to break the Dublin
defence. cohesion to break the Dublin defence.
Oxford left their main thrust so late that only the judicious use of the boor by Bibby prevented a defeat in injury time. What Bibby did was to foot-pass a menicing ball to Parry just as the Irish back division was bearing down on them. Parry took it cleanly and punted clear to prevent a match winning try by Dublin.

That Oxford should reach such an awkward position was not only

That Oxford should reach such an awkward position was not only a tribute to Dublin's fighting spirit but also the legacy of missed opportunities in the first half. Hard tackles by Garvey and Clinch were crippling Oxford in the centre.

Dublin were playing on the weakness of Luddington, who has just recovered from a bout of influenza. Yet, against Oxford's heavier pack, Dublin should never nave been 12—3 up at halftime; for that Oxford had only themselves to blame.

Oxford persisted with moves so obvious that even the travelobvious that even fine travel-weary Dubliners could see through them. The repeated-efforts of Coleman to crash through Dublin's line came to nothing as the Irishmen smoth-

Weekend results

ered the ball in the tackle.

Dublin went ahead through a well-worked try by Egan, converted by Clinch and a dropped goal by Egan.

The outcome, however, hinged on the ability of Halliday, the Oxford stand-off, to shake off tackles and break through. First be came streaking across the back line, missed out Coleman and sent Crowe on a diagonal run. Parry came into the line to put Bibby in for the try, Halliday converting.

Ten minutes from time, Halliday again broke through and set

Converting.

Ten minutes from time, Halliday again broke through and set Sannders up for a long run. That eventually took Oxford to a 5-metres scrum, at which Brooks picked up and fed Luddington, and Halliday was at his scrum half's shoulder to carry the ball over the line, adding the conversion from the touchline. That, plus a Hrst half penalty goal, also by Halliday, brought Oxford their three-point victory.

Oxford and Ballidi: S Samders their three-point victory.

Clayton collects Faldo's round suffers from enough to another poor finish clear his debt but unluckly found his ball "teed-up" on a cocount pod lying in the springy grass. His shot ran into the back of a bunker. It was only two feet in and on a downhill lie with 10 yards of sand before a steep face, with the flag ten feet beyond, on a plassy green. Melbourne: Feb 14, — The Australian Michael Clayton, the newest professional in an illustrious field, shot from obscurity to a three-stroke win in the \$100,000 Victorian Open at Michael Clay her today

Waiting for a wind to blow: competitors at the start of the Watneys London sailboar series finals at Princes Club, near Staines, yesterday. The final was planned for December but the venue was a sheet of ice when competitors arrived; yesterday the water was available, only the wind took a long time to come.

On another beautiful day Nick Faldo, suffered again from a poor-finish and dropped three strokes in the last three holes in his 73. In the last three holes in his 73. He stood on 213, six strokes behind the leaders. He boled from 12 feet for an early birdle at the second and, despite dropping strokes at the sixh where he was behind a tree and at the seventh where he had three putts; he was out in 35 with another eagle three at the 501-yard minth, chipping in from 20 yards.

When Faldo birdled the 12th with a 10-foot put he was still in good shape. He hit the green at at the long 13th with a towering

with the flag ren feet beyond, on a glassy green.
Inevitably, perhaps, Faido failed to carry the face. His second sand shot hit the hole, spun five feet past, and he just missed the putt for a six. Adding indignity to misfortune, Faido's group was then told by an official to "hurry up" at the 191-yard seventeenth. Shades of the fine imposed on Faido for allegedly slow viay after he retained his PGA title last After rushing his tee shot a bit, Palidy was in a bunker. He came out a little too strongly and missed a 25-foot purt to drop another stroke. "Muggins does it again " was his typical comment. But he grinned as he said it which tould be a good sign for his last round. LEADERS (all 1911 2071 W Levi 72 68, 671 A North, 69, 69, 69, 209; T Watson, 70, 69, 70; C Cooty 70, 69, 68; R Clampell 67, 72, 70; B Simpson, 70, 69, 70; 20; B Crepthaw, 70, 71, 68, 211; J Nellord, 73, 69, 69, 69; 72; 26, 68, 67, 68, 68; 71, 68, 211; J Nellord, 73, 69, 69, 69; 72; C Repthaw, 70, 71, 68, 211; J Nellord, 73, 69, 69, 69; 72; 88, ML 19, 196, 71, 71; C B 55, 72, 88, ML 19, 196, 71, 71; C B 55, 72, 88, took three putts.

The 16th is a tricky hole of 434 yards, slightly dogleg left with trees on the corner and a long iron then needed towards the ocean. Faldo placed his drive perfectly, right into the corner

Morgan's 64 lifts victory

Yamoussoukro, Ivory Coart, Feb
14.—Britain's John Morgan feturned a last round of 64, eight
strokes under par, for a twostrokes victory in the Ivory Coast
Open championship here today.
Morgan's line round, which
hoisted him to victory from joint
fifth place overnight, gave him
an aggregate of 272, 16 under par.
He scored an eagle and three
hirdles on the outward half, turning in 31 and being then only one

stroke bahind the overnight leader; Ian Woosnam (Britain) who led him by five strokes after the third round but took 35 to the rurn today.

Morgan maintained the momentum with an inward half of 33 while Woosnam, dropping shots at two short holes, took 36 for a round of 71. This gave him second place on 274. Third was another Briton, David Jagger, whose 68 for 275 included an albatross two when he holed out from 290 yards.

FINAL SCORES (OB unless study): When he holed out from 200 yarus, Final Scores (GB unless stated); 272; J Morgan 65, 72, 70, 64, 374; I Woospan 71, 65, 67, 73, 275; D Jaspan 70, 65, 71, 275; D Jaspan 70, 65, 71, 56, 275; M Passp 70, 65, 73, 68; T Morton 70, 59, 67, 70; Chica Jeng Tiao (Talwan) 71, 58, 77, 70; Chica Jeng Tiao (Talwan) 71, 58, 77, 70; The Chica Jeng 71, 66, 67, 77, 70; The Chica Jeng 71, 66, 67, 70, 275; M Steadman

Squash rackets Age no barrier to women finalists

By Richard Egton
Only Murtine Le Molgnan, beaten as much by an attack of influence as by the enduring skills of the veteran Australian Margaret Zacharian, failed to reach her alloted place in the finals of the Prodorite Open Tournament at the Egbaston Priory Club, Birmingham yesterday.

Tournament at the Egbaston Priory Club, Birmingham yesterday.

That was a disappointment to those whe had been looking forward to the sight of another installment of the continuing rivalry between two Guernsey ternagers who, from a small island base, are threatening to conquer the squash world.

Miss Le Moignan's friend and rival, Lisa Opie, the new British champion and the top seed, reached the final by beating Robyn Blackwood, a New Zerlander ranked eighth in the world, 7-9, 9-4, 10-8, 9-1. Buth there had been omens of disappointment. Miss Opie had trailed 5-6 in the final game in the quarter-finals against Ruth Strauss, the British under-23 champion, and had to save two game balls at 7-8 in the third game against Miss Blackwood. In any case, the final briween Miss Opie and Soc Cogswell, five times the British Champion, whom she succeeded only last month, might be just as interesting. Miss Cogswell, at the age

Miss Zachariah.

Another New Zealander, ranked eighth in the world, Ross Norman, reached the men's final after a struggle. He had to save a game ball in the second game and needed five games before heating the England number four, lan Robinson, 9—4, 10—9, 5—9, 1—9, 9—4. Robinson was the only outseeded player in the last 16 of the world championships after coming from two games down to beat the Australian Ricki Hill in November. Two years previously he came-from two games down to win the world plate. It would have been the finest win of Robinson's career had he done the same thing to beat Norman, but in the end the fuel to the engine did not quite eke out.

There were ructions too.
"You're laughing, stop gloating", Robinson told the referee at one point. Dean Williams, the number two seed, was warned by

Watson leads from start to finish By Gordon Allan

John Watson, aged 36, of the West of Scotland Club in Clas-West of Scotland Club in Cles-gow, won the Embassy world indoor championship at Coat-bridge, near Glasgow, yesterday. He beat the British Isles cham-pion, Jim Baker, of the Clifton-ville Club, Belfast, who first played in a church hall, 21—13 in the final the final.

Watson is the first Scot to win this title, which had been held since its inaugural year, 1979, by David Bryant, The first prize is £4,000 but Watson is returning it to the Scottish Indoor Bowling Association in order to retain his amateur sparse and play for Scott the final. amateur status and play for Scot-land in the Commonwealth

Games. Baker, aged 23, received 52,000 as runner-up.

Watson ied from start to finish. He scored three at each of the first two ends and rarely looked in danger of being overtaken. What little luck there was raithis way. Yet when the pressure did fall on him he was generally equal to it and could be relied on to retrieve or save.

Baker found himself three times within three shots of Watson. The last occasion was 16—13. On the decisive end, with the score is—13, Baker fired three times to try to give himself another chamte. In the process he knocked all his own woods from the greeh.

With his last wood he might have done better to draw and save. But hindsight is easy. Being lifet, he decided to put safety eccond.

Saturday, Watson best the Scottish champion, John Follarton, 21—15. Not for the first time, an early lead was deceptive. Watson, when he was 8—2 down, trailed, the jack into the dight to score an applifting three. At the thirteenth end he scored four to lead 13—11. Another four, six ends later, took him to 20, and the door to the first was open. Six ends later, took him to 20, and the door to the first was open. Moroccan at centre of Fulham revival

There has been so much shuffling of the Fulham team over the last fifree months because of a string of injuries and transfer requests, not to mention a series of defeats, that some players are having to adopt new roles, and are appearing in a new light.

In the first round of the Challenge Cup yesterday, M Barid, an early season signing from Moroccan Rugby Union transformed a dull, hand struggle between Fulham and second division Humslet He has quickly become a favourité at Craven Cottage, because he has at last found his true position, in the Fulham centre rather than on the wing. Humslet found M Barid the most roublesome player in the Fulham side yesterday and he was rewarded with two tiles. He made a third for Radhone when he could easily have scored himself.

self.
Fulham's victory, by four tries and a goal to two penalty goals, brought little comfort for the dwindling crowd, MBarki aside. Plumed down by the powerful running of Rowe, Wright and running of Rowe, wright and Burgess, Fulham found possession an emberrassment at times. In the first half, particularly, Hunslet had a wealth of possession and, had it not been for the courtly by Dalgreen in the scrums, the London side could have found themselves additionally.

penalty goal by Firzsimous.

M'Barki made a 40-metre run to ensure Fulham's place in the next round. Their tails up, Ful-ham finished with a try by Rad-hone, scored after the speed of M'Barki had broken the Hunslet defence yet again.

Giants glad to survive

Although giant killers were up. For Widnes Tony Myler nowhere to be found in the first stored two tries and Basnert also crossed by State Express, quite a few giants emerged from unexpectedly hard encounters for Cardiff, and Fenwick kicked braised, battered and glad to be This, below. broised, batteren and good to all alive.

Dewsbury came closest to an upset at Bradtord, where they held the first division side to a narrow 14—12 victory. At Niman, Park Cardiff City delied gloomy prophety by making the cup holders, Widnes, light all the

first with a penalty goal from Fenwick. They pulled back twice to 5—9 and 8—14 with good tries, and although finally losing 19—8, left the field to loud applause and with their beads high.

In the end the superior class and experience of Widnes proved.

one goal—
This being a cup weekend, there were many flery incidents, and at Leigh three men were sent off. Scott and Holbrook, of Warrington, and Green, of Leigh, Warrington led 9—7 at half-time but the fast and attractive Leigh side scored four trees.

Francis helps Suffolk to semi-final place

obscurity to a three-stroke win in the \$100,000 Victorian Open at Metropolitan here today.

The 24-year-old Clayton, 1978 Australian amateur champion who unred professional last September, finished with a 58 to pass overnight leaders Lee Trevino, of the United States, and a fellow-Australian, Bob Shearer.

Clayton, who missed the cut In three earlier tournaments, had a final total of 281, seven under par, and collected \$38,000, \$18,000 for winning and \$20,000 for a hole in one at the 13th yesterday. Shearer earned \$9,800 for finishing second on 284. Trevino floundered with a final round of 74, leaving him joint third on 285. By mid-afternoon it was certain that there would be a home-town result with Shearer and Clayton together on six under par and the earlier challengers relagated to the background.

At the baif-way mark, Clayton was seven under par and he gained another stroke at the 14th. He lost it at the next, regained it at the 15th only to drop back to seven under at the 17th.

Clayton's steadiness and super-lostly was emphashed by his six birdles and two bogers in the final round. He covered the first nine in 33 and tame home in par 35. Asked what a young professional does when he is staddenly confronted with 50 much money, Clayton replied: "I will ralk to By Sydney Friskini

Now that Daring Run and Ekbalco have just laid bare their laim to be regarded as possible hampion Hurdle winners at heitenham next mouth, it is up to Broadsword to do likewise at Nottingham today, when the City frial Hurdle is his objective.
Broadsword won over today's ourse and distance last season and his trainer, David Nicholson, told me that he opted for today's face, even though it is a

told me that he opted for today's race, even though it is a handicap, instead of the Kingwell Hurdle at Wincanton next week, because he was sure that the course at Nortingham would suit him better than Wincanton.

Nicholson said that be could not be more delighted with Broadsword at present and expects to have him spot-on for the Champion Hurdle on March 16. What now of some of his most serious rivals? At Newbury, I watched, along with countless others, with admiration Ekbalco's gallant attempt to give weight to all but Heighlin in the Schweppes Gold Trophy.

Ridden with customary re-

Ridden with customary restraint early on by David Goulding, who said later that he could not have gone any faster in the early stages even if he had wanted to. Ekbalco steadily scythed his way through the opposition in the straight, and looked to have the race won jumping the last hurdle.

Goulding had timed his challenge to perfection, but sadly for those who had plunged on Ekbelco, in a mighty gamble, he had not allowed for John Francome conjuring one last-ditch effort out of Donegal Prince, whose spirited counterattack just succeeded.

In a pulsating finish Mount Harvard was breathing down

ln a pulsating finish Mount Harvard was breathing down their necks in third place. He was followed home by For Auction, Holemoor Star, The Tsarevich, Mr Moonraker and Badsworth

Mr Moonraker and Badsworth Boy.

With two runners finishing in the leading bunch, both Nicky Henderson and Susan Morria were able to take pride in their training, even if they did not steal the limelight.

Heighlin, Gaye Chance, and Apple Wine were the disappointments of the race. Apple Wine was tailed off when he was pulled up at the end of the back straight. Apparently, his rider, Andy Turnell, thought that the hotse had burt kimself after he had hit two hurdles very hard. I never saw Heighlin or Gaye Chance with a ghost of a chance, and on this performance alone and on this performance alone they have done their Champion Hurdle prospects no good at all.

The sight of Paul Kelleway greeting Donegal Prince in the unsaddling enclosure, his face one huge smile, reminded me of the race's early history, which was dominated by another of racing's great characters, Ryan

Price.

Kelleway was not riding for Price in those days when he trained the winner four years out

News King: given another brilliant ride by John Francome

third in 1973. But the knowledge that he accrued when he was there, and when he was riding for Fred Winter, has stood him in

for Fred Winter, has stood him in good stead as a trainer.

Within 12 months Kelleway has trained the winner of the French Oaks and the Schweppes Gold Trophy. How is that for versatility, not to mention the spirit of adventure? On Saturday, he gave much of the credit to his wife, Gillian, and his daughter and son, Gay and Anthony, who have been riding Donegal Prince at home these past few weeks, while he was on a working holiday in the United States.

If Donegal Prince had been beaten, Kelleway might have kicked himself for flying in the face of the handicapper and asking his horse to carry 4lb overweight: But anyone who has watched Francome regularly this winter would testify that that bit extra was worth its weight in gold.

Kelleway was not riding for Price in those days when he afternoon, Francome again had trained the winner four years out of five.

The nearest he got to winning it for the wizard of Findon was on Moonlight Bay, who finished

yowed that he would never run the horse again on heavy ground. He was in a quandary on Saturday morning, after a night of torrential rain had altered the ground drastically, but he changed his mind only because the Game Spirit Steeplechase was

The outcome was a happy one, thanks largely to Francome's opportunism. He dictated the pace to suit himself at first, before deciding that the moment was ripe to give News King, and caught his rivals on the hop. Winter had a second success

later the day when his son-in-law and assistant, Oliver Sherwood, rode the former Gold Cup winner, Midnight Court, to victory in the Charles Higgins Memorial Foxhunters Cup. entered for this year's Chelten-ham Gold Cup but, understand-ably, no decision will be reached for a while. Clearly a spell of hunting has done him a world of good. Winter said afterwards that the horse got bored and did not apply himself properly last

Midnight Court's lackadaisical approach resulted in him falling three times and being pulled up once. On Saturday, he raced with zest and jumped as if there were springs in his heels.

Now it remains to be seen what effect hunting has on his mercurial stable companion Derring Rose, whose objective is the Champion Hurdle. Apparently, Derring Rose recently took fright at something when he was out with the hounds; reared over backwards, and fell into a canal. He swam half a mile before he was rescued, and that was only when the lock gates had been opened. Knowing him, he will come back the better for such a frightening experience, because he is anything but normal. What the Compton Steeplechase proved, once and for all, is that Diamond Edge is nor the force on heavy ground that he is when it is good underfoot. For that reason, it would be foolish to back him for this year's Gold Cup until the day of the race.

Daring Run moves into top gear

From an Irish Correspondent Dublin, Feb 14

The bookmakers who derline The bookmakers who declined to make more than a marginal alteration in the Champion Hurdle odds of Daring Run after he had finished out of the first ten in the Sweeps Hurdle at Leopardstown, were vindicated yesterday. Over the same course and distance, Daring Run put up a grand display to win the Leopardstown Champion Hurdie

Leopardstown Champion Hurdle in a canter.

The Irish amateur rider, Ted Walsh, reunited with Daring Run, allowed himself the luxury of a gentle look left and right as his mount alongside the apcemaker Enhancer approaching the final flight. Daring Run then quickene away on the flat to win by six lengths.

Although the runner-up was one of the 50-1 outsiders, nevertheless, there was a case to be made for him on his previous run when he beat the Sweeps

run when he beat the Sweeps Hurdle winner, For Auction, by 20 lengths at Down Royal. Enhancer, who loves to make his own running, had built up a commanding advantage by half-way. Although he was tiring entering the straight, only Daring Run was able to overhaul him.

him.

This was the second-year running that Daring Run has won this, the most valuable conditions hurdle in the Irish calendar, and his trainer, Peter McCreery, relieved at seeing Daring Run show something of his true form, confidently asserted that he would be an even better borse come Champion

better borse come Champion Hurdle day. The Harold Clarke Leopardstown Steeplechase also threw up a Cheltenham big-race clue with top weight. Royal Bond, giving Tommy Carberry his first winning ride in the only important Irish jumping event, hitherto, to elude him.

elude him.

It was a highly meritorious win, for Carberry lost his irons at halfway when Royal Bond made a had mistake at the first ditch on the far side, being unsighted going into it. He lost several lengits as a result, but came back into a challenging position at the second-last fence and overhauled Owen's Image to win by two and a half lengths.

The runner-up, who had

by two and a balf lengths.

The runner-up, who had prevonsly won the £15,000 Findus Handicap Chase over this course and distance, was in receipt of more than a stone from the winner to undertine the Gold Cup claim of Royal Bond.

Sean Ogue, having won the Arkle Perpetual Challenge Cup, now bids for the English equivalent at Cheltenham while the Mick O'Toole-trained Morton confirmed once again that he is the best juvenile hurdler in ireland by winning the Stillorgan Hurdle. His larget is the Triumph Hurdle.

LEGFARMSTOWN MUSULTS: 1.30. Corrib Rock (4-1); 2, Toridealbach (15-8 fav); 3. Quarry Stone (5-1), 6 ran 2.0, 2, Seam Ogno (!-2 (pv);2, 8kejum (!0-!): 3. Fingering (3-1): 4 3 40, Rayai Bond (7-1); 2. Owens mage (5-2 fav); 3. Ramrajya (14-1);

Inspection at Newton Abbot

4 40 1, Bestrop (4-1) 2. Whats The lews (4-1); 5. Rough Course (25-1);

Racing at Newton Abbot tomorrow is doubtful and the stewards will hold a precautionary inspection at 11 am this morning to decide whether the meeting can take place. The Clerk of the Course, Claude Whitley, said "We have had a lot of rain and there is water on the course, and I am not happy at the situation."

Il Frivolous Relation, trained by John Dunlop, won the Ea.205 Prix de Bastis over one and a half miles at Cagnes-Sur-Mer yesterday. Ridden by the French jockey, Guy Guignard, she stayed on strongly under pressure to score by a length.
Frivolous Relation, who paid 9.20fr for a win, and 2.80 for a place, was the seventh British winner of the meeting.

Il Michael Roberts, eight times South African champion jockey-led the home team to a commanding advantage in the first half of the Coco Rico jockeys team event, at Germiston

on Saturday.

Roberts brought the 6-1 chance
Arch Angel Michael with a late
run to snatch victory from
Liberty Silk, and Greville Starkey
in the final strides of the opening

Cresta Run

Baracchi has a lot to spare | Miss Waitz

From Tony Emerson St Moritz, Feb 14

The Cresta Run's most important race of the year, the Grand National was won yesterday in the fastest time ever recorded for the three courses, 161.91 seconds. The winner was Nico Baracchi, A Swiss television technician, who had already won the Curson Cup.

The race had already been billed as struggle between Baracchi and last year's winner,
Franco Gansser. On the second
course Gansser put in the faster
time and was only eighty
hundredths of a second behind, but unfortunately he trapped his an exceptionally smooth shuttle-left hand between the runner of his toboggan and the sliding seat and had to retire with a badly 1 N Beracch 161.91 mer; 2 C Nester 185.76; broken finger. Barracchi won 5 C Teedorpt (W G) 185.44; 6 U A Nater

In todays' Auction Handicap race, the Johannes Badrutt Trophy, Franco Gansser's brother, Reto, a previous Grand National winner, beat his previous best time twice. His efforts, however, were not sufficient to win him the race, which went to Jorg Anghern, a newcomer to topriding whose cautious efforts in practice had completely fooled the handicapper. the handicapper.

Both races were happily free seen Baracfrom serious injury, with only
winner, one fall being registered in the
he second National and seven in the
the faster Badrutt. This year's course is
y eighty less treacherous than last year's
id behind, with a forgiving second bank and
rapped his an exceptionally smooth shuttlerepresentations.

Boxing

Stand up and be counted out at the hands of Spinks

Michael Spinks, of the United States, easily everpowered Mustapha Wasajja, of Uganda, in an impressive defence of the World Boxing Association (WBA) lightheavyweight title at the Playboy Hotel Casino, Atlantic City.

The referee, Tony Perex, stoped the bout after one minute 36 seconds of the sixth round after Spinks had dominated the Ugandan, who lacked power and only displayed a pawing jab.

Spinks opened the sixth with a hard overhand right that snapped back Wasajja's head. The champion then pinned the Ugandan against the ropes, scoring with both hands, and when the referee intervened Wasajja appeared to be out on his feet. Wasajja was standing up, but he was out cold Mr Perez said.

Spinks, the brother of the former heavyweight champion Leon Spinks, received \$300,000 and Wasajja collected \$90,000.

Alexis Arguello, of Nicaragua, bon his eighteenth successive title bout when he retained the world boxing council (WBC) Lightweight crown by stopping an American James Busceme in two minutes 35 seconds of the sixth round at Beaumont, Texas.

Arguello nailed Busceme with a left hook late in the sixth round at the sixth round at the dominated the world boxing council (WBC).

Williams twice bad Ocasio in trouble after solid right and lefts to the head but never appeared council of the head but never appeared to the head but never appeared to the head but never appeared council of the head but never appeared to the head but never appeared t

sixth round at Beaumont, Texas.

Arguello nailed Busceme with a left hook late in the sixth round and followed up with a hard shot to the body. The Nicaraguan then landed a right cross to the head and the referee, Octavio Mayron, stopped the contest as Busceme staggered towards his corner.

It was the eighteenth consecu-

Williams twice bad Ocasio in trouble after solid right and lefts to the head but never appeared capable of putting his opponent down. The Japanese referee. Tyoji Yoshida judged the bour 148-144 in Williams' favour after warning Ocasio five times for low blows. The two ringside judges gave Ocasio the verdict 146-144 and 147-143.—Reuter.

Stand up the real Cooney

Gerry Cooney, the 25-year-old 'great white hope' who meets
Larry Holmes for the World
Boxing Council heavyweight title
in Las Vegas on March 15, is to
have a series of major medical
examinations. cooney, suffering from slight shoulder and back injuries has looked far from impressive in training. His trainer, Victor Valle, admitted after one particu-

Reno, Nevada, Feb 13.— Bruce Finch, who challenges Sugar Ray Leonard at Reno today, believes that his will power and determination give him a good chance of winning. "Leonard doesn't have as much will as he used to. Finch, ranked number three by the WBC, said. "He's going to have to stop me with a freight train. He's going to have to bring the kitchen sink."

Leonard described Finch as Leonard described Finch as "no major problem".

Manager, Angelo Dundee, said "Ray's as sharp as a tack.

Valle, admitted after one particularly unconvincing session at Kiamesha Lake, New York: "That's not the real Cooney. His hook did not have his power. He has throwing his right hand well without his left hook his without his left hook his left hook his left hand doesn't mean a cang," stressed that there was no question at the moment of asking for a postpopement but he stressed he would not allow Cooney to climb into the ring unless he was fully fit.

The kitchen sink."

Leonard described Finch as "ma pajor poblem".

Manager, Angelo Dundee, said "Ray's as sharp as a tack.

Roy Gumbs, Britain's Toronito-based middleweight champion who flew into Merseyside on Friday to meet Glen McEwan at Liverpool stadium on Thursday, will win a Lonsdale Belt outright if he beats the Midlander. "Assuming I win, the logical step would be to get a crack at Tony Sibson for the Commonwealth title", Gumbs said.

Athletics

too fast for officials

Ottawa, Feb 14. - Officials were at once the sources of dismay and delight to Grete Waitz after she had won a 3,000 metres race here in the Citizen Indoor

The Norwegian distance runner thought her chances of breaking her own indoor best for the distance had disappeared on discovering that a miscalculation by the oficials had forced the runners to complete a lap too many. Her time on finishing the extra lap was 9 mins 15.6 sec, nearly 20 seconds outside her best of 8-56.8 set in Norway two

Jears ago.

It was then that Miss Waitz found out that three timekeepers had stopped their watches at the correct distance where her time of 8-55.8 was inside her previous has Afrar a judge had conbest. After a judge had con-firmed her official time, Miss Waitz said: "I've run three times indoors in North America and this is the second time this has happened."
She was a full lap ahead of the field at the unofficial finish, still pulling away from her oppo-

pulling away from her oppontion.

Leann Warren, of the United
States, set another women's
world indoor best in the 800
metres at the same meeting with
a time of 2 min 5.8 sec.

Her run beat the 2-07.5 set by
her compatriot Wendy Knudson
at the meeting in 1979.

Meeting directors pointed out
that the times qualified as bests
since they were set on an A-class
track with more than the 11 laps
a mile required. In fact, the
Ottawa track is 12.78 laps to the
mile. — Agencies. mile. — Agencies.

Bonfires are lit as England's sun sinks into Indian Ocean

Sri Lanka gained a dramatic victory against England by three runs from the penultmare ball here today in the second 45-over international between the sides. In an incredible finish England lost their last six wickets in 11 balls, including four run outs, as they frantically tried to scramble the runs. It meant that Sri Lanka the runs. It meant that Sri Lanka this weekend had shared the one-day series 1—1 and will have fuelled further the national re-joicing and excitement already pervading the capital as their in-augural Test match approaches on Wednesday.

SPORT

England, on 212 for nine, peeded four from the final two halls as Willis, the last man faced the bowling. He swung his faced the bowling. He swung his bar, fiercely against the fast bowled de Mel and Madugalle held a spectacular catch at deep midwicker. The setting sun had already sunk into the Indian Ocean and the light was appalling, which made Madugalle's catch all the more meritorious.

The capacity 20,000 crowd awarmed on to the field and engulfed the cricketers and others lit celebratory bonfires with news-papers in the stands. As the crowd roared and clapped in front of the pavilion before the presentations a fire engine drove on to the ground in readiness to light flames or quell any excessive enthusiasm. There was never an likelihood of trouble.

They are a happy people, the Sri Lankans, and the spectators were delirious with joy as they were delirious with joy as they watched the awards presentations. As I write the prize-giving is over and the ground is in complete darkness—a solitary lead and hulb has been speedily erected in our press box—but the crowd are still massed in front of the dressing-rooms cheering and shouting. Just as on Saturday, this was one of the most thrilling limited-over internationals played. England seemed to be making smooth progress to their target when progress to their target when Gooch and Cook gathered runs calmly and efficiently with no alarms. Then abruptly the whole

pattern changed.

Gooch, who hit a six and nine fours, and Cook were both beaten through the air in successive overs by the left-arm spinner. Alit de Silva and stumned. Gower fell without addition playing a casual drive without moving his few and England had two new his feet and England had two new batsmen at the wicket in Botham and Fletcher, When the last 10 overs started

England required 74 and the light was starting to fade. The crowd erupted, sensing England's failure when Botham gave Warnapura the simplest of return Warnapura the simplest of return catches after pushing forward early and then trying to check his stroke. D. S. de Silva, whose brisk top-spinners and leg-nreaks bothered all the hatsmed, bowled the thirty-eighth over, which cost 17 runs, 16 of them to Fletcher, including three swept fours.

to Fletcher, including three swept fours.

De Sûrs bowied Tavarê with the first ball of his next over and England needed 46 from 35 balls as Gatting arrived. Ajit de Sûva, unrelated, who bowis leftarm spin, conceded 17 runs in the forty-first over, including an ondriven six by Gatting, and England were left needing 27 from the last four overs, then 19 from three and 14 from two. It was at this state that England completely lost their way. completely lost their way.

Gatting was run out from the
first bell trying for a second run

after playing the left-arm seamer Ranasinghe to third man. Fletcher went the same way from the third from a snoke played into the covers. De Mcl's first hall of covers. De Mel's first hall of the final over went through to the wicketkeeper. Tay'or was run out from the second trying to steal a second run for a glance to long leg.
Next ball, Underwood played

the ball into the covers and he, too, was run out. The batsmen had crossed and Lever took an offside single to the fourth ball

back this time and went down by 24 runs to Northern Districts in another 50 overs game.

The Australian captain. Greg Chappell, put Northern Districts in to bat on a pitch which played easily throughout and the local slice took advantage by making 210 all out in 46 overs. The touring team appeared well placed at 160 for two but the last eight wickets tumbled for 76 and they were all out for 236 in 47.2 overs. New Zealand's skipper, Geoff

New Zealand's skipper, Geoff Howarth, whose hard-hit 72 was top score, and his Text colleague John Wright, who made 38, pro-yield the foundation of Northern

viced the foundation of Northern Districts' toml with a second wicket partnership of \$5. Graeme Wood, the Australian opener, was run out cheaply for the second successive day but Bruce Laird, with 63, and John Dyson, who made 79, raised victory hopes by putting on 138 for the second wicket before the imnings fell apart.

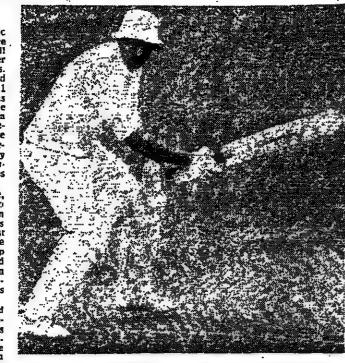

Australians miss chance

Hamilton, New Zealand, Feb 14. G. Finnelelle, at Ovene, b

Hamilton, New Zealand, Feb 14.

The Australians continued an inampleious start to their 11- match tour when they were beaten for the second consecutive day.

The touring team, who lost by 46 runs to New Zealand in a one-day match in Auckland yesterday, suffered a more humiliating setback this time and went down by 24 runs to Nowhern Districts.

Gooch: England top scorer on two successive days.

before Willis fell to the fifth. It was a stirring finish.

England made three changes overnight and Sri Lanka two and both sides in different ways were stronger than they had been on Saturday when England won a magnificent match by five runs. Sri Lanka looked all the better in the field for having a specialist wicketkeeper in Goonetillek and the inclusion of the 18-year-old left-hander Ranatanga also proved important to them. Both matches took place in broiling sunshine and amid much noisy enthusiasm with plenty of evidence that Sri Lankan firecrackers have a louder bang and emit before Willis fell to the fifth. It dence that Sri Lankan firecrackers have a louder bang and emit more smoke than Indian ones. It was hard work for the players in several ways but the greatest amount of energy expended was by a Sri Lankan supporter complete with flagpole bearing his national flag. He escorted every outgoing and incoming batsman; in between he raced round the boundary edge Incoming bataman, in between he raced round the boundary edge encouraging the cheers. Commercials over the Tannoy at wicketfalls and intervals and women groundstaff in colourful saris were other things that have not so far been tried at home.

Fletcher followed his rival's mample on Saturday and put Sri Lanka in to bat when he won the toss and for a time there was the chance of a premature finish. Warnapura, who edged a drive, and Mendis, mishooking, fell in Botham's fourth over in the Saturday

Lanka were 43 for three after 17 overs when Dias was out in a rather unfortunate manner.
Dias had just started to show why he is regarded locally as such a fine stroke-maker. He had off-driven two successive four against Lever when jerking his helmet fell into his stumps. Dias kicked the helmet as it lay on the ground, something which most of the particular terrors. Ranatanga from the start batted with the same confidence and aggression he showed for the Presidents XI at Kandy last week. A stand of 87 in 16 overs followed with Wettimuny before Ranzzanga was run out underestimating Tavaré's throwing arm at mid-

wicket.

Ranasinghe, whose 51 is 40 balls
took Sri Lanka so close to victory
on Saturday, failed this time,
pulling a caich to long leg. Wettimuny and his last three partners added a further 70 from the last

west a further 70 from the last 10 overs

Wettimuny carried his bat, facing 10 Shalls and hitting eight fours. He had some quiet moments but at other times drove splendidly through the covers on the back foot. Botham's closing spell was expensive but Wills was economical and Underwood, too, did a good job. did a good job.

Gymnastics .

Standards and entries both increasing

By Peter Aykroyd

If the record entries for the
London open championships
caused some overcrowding at St
Mary's College, Twickenbam, on
saturday, the rising standard of
performance throughout the three
levels of competition more than
made up for the administrative
train.

the country—30 per cent more than last year—reflected not only the current popularity of men's gymnastics, but also demonstrated how more and more young Britons are tackling moves which, until recently, were the domain of eastern bloc gymnasts.

Association, was delighted when he said: "The standard at senior and junior levels is rocketing, and the top six in both these com-petitions are the best that we have ever had".

the advance in the boys' competition was also startling, with 12-year-olds tackling the pommelled horse with aplomb. In some cases this apparatus was the same height as the competitor, several of whom performed the difficult "flairs" move in their floor exercises, when the legs are scythed in circles while the body is supported by the arms.

The importance in the boys' competition

is supported by the arms.

The junior men's competition was a triumph for the Harlow club whose gymnasts took the first four places. They were led by uc Terlings who scored 30.90. The senior men's contest was close, with only one mark separating the first four places.

It was successfully defended by Edward van Hoof of Hendon, the 1981 winner.

"I certainly had my chances, and against someone who plays as well as John you can't let those chances pass by," said Mayer. "He takes you out of your rhythm. I didn't have the all-round feel for the ball that

au-round reel for the ball that I usually have.

Although McEurce has not dropped a set in this tournament he has stringled early in almost every match. But he was not concerned. "I haven't been habited when I've hiere elevitor behind when I've been playing real well. It's been a case of duce I get my game on track I've been all right." Moterain described his per-

Motram described his per-formance against Teltscher as near perfect. Ranked 61st in the world, he said: "Everything has fallen together beautifuly this week." I couldn't hit the ball any better." Teltscher, ranked seventh in the world, became unsemed in the second set after disputes with the unipre, and on five occasions appeared to hit the ball at Motram. Kriek made a series of unforced errors in the opening set and the enviseded Montram dropped only two games. He played badly in the second set then missed an opportunity in the third to take tharge as he led 3—1, 40—30.

McEnroe got his game on track in the fifth game of the match when he was down 3—1 and 40—15 on his serve. He pulled out that game with a backhand vol-

The Cornishman, Jon Richards,

The Counishman, Jon Richards, won the junior ritle at Parliament Hill by over a minute. That is the sort of margin only Dave Bedford used to manage. Richards achieved that on only three mouths training after glandular fever. He pronounced himself wouly 90 per cent fit ", a claim that should atrike considerable fear into his forthcoming adversaries, right up to the world

Cross country

Winners will be put in their place when stars return

plonships used to be the form-finders for the National. They are now distinguished by the absence of England's top distance run-ners. Calendar congestion, rich pickings on the Continent, and pickings on the Continent, and reluctance to slog two me-milers in three weeks are the principal reasons. With respect to their considerable efforts in winning the Southern, Midlands and Northern titles on Saturday, Peter Standing, Tony Milospoore, and John

christopher Montrain's fine ran in the US national indoor champion-ships came to an end in the semi-final round here yesterday after he had been well placed to meet John McEuroe in the final. How-

form and survey in the mast the sever, Johan Kriek, of South Africa, having dropped the first set against the Englishman fought back to win 2-6, 6-1, 6-4.
While McEnroe, the Wimbledon

champion, defeated his American compation, Gene Mayer, 7—5, 5—3 in the other semi-final match, Mottram looked set for his

third unexpected victory of the tournament having previously de-feated Frenchman Yannick Noah, the sixth seed, and American Bliot Teltscher, seeded second

Kriek made a series of unforced

thes on Sauray, Feir Stabilis, Tony Milovsorov, and Johs Woods will not be in contention for the English Cross-Country Union gold medal in Leeds on March 6. Teh absent Julian Goater, Mike McLeod and Dave Clarke among others, will see to that.

that.

The Southern race at Parliament Hill produced a virtual carbon copy of last year's event. Nick Brawn, of Kent team; Invicta AC, did most of the forcing for the first two laps, only to be passed by Peter Standing, of Windsor at the same stage as last year. Brawn made more of a fight of it this year on the final lap, swapping the lead two or three times before Standing left him a mile-and-a-half from the finish.

Rackets

Early support for rule experiment

By Roy McKelvie
The one-service rule is being tried out in the Noel Bruce Cup for rackets which began at Queen's Club over the weekend.
That it can make for a more enjoyable same was clearly seen That it can make for a more enjoyable game was clearly seen when the Toubridge pair, hiles Connell and Charles Wilmot beat the Wellington team of Jonathan Edwardes and William Maltby 17—16, 15—12, 15—3, 15—1.

The reactions of all four players to this rule, which obtains in the United States, was favourable. Wilmot said he likes it because it gives him a chance against strong servers. Connell

against strong servers. Connell thinks it neutralizes the dominant FALL Total 144.5 overs1 212

FALL OF MAIN CASTS: 3-100, 6-101, 7-206, 8-211, 411, 411, 8-170, 10-27-20, Warns 28 Ransanghe 10-27-20, his reward, and Malthy

prevent a really good server from gaining his reward, and Malthy thinks it keeps the game flowing. It certainly did that in this match. In the four games played, three of them close, there were fewer than a score of winning serves and about the same number of faults. That meant there were few service runs of any consequence and far more railies than there might have been.

Council was the best server in court and with two services might have dominated. As it was, he finished off all four games, the second with a run of five containing only one service winner. His longest run was seven with no winners at the start of the fourth fame, by which time Wellington's resistance had been broken, not in the least wy the consistent play of Wilmoc.

major change from the rela-although Heron and French repeated his prediction that tively small warehouse estates Kier have been particularly prime City of London rents which have in the past been active. Two retail groups — would reach £40-£45 per sq ft the limit of most funds' Asda and Tesco — appear in by 1985. major change from the rela- although Heron and French

Commercial Property by Gareth David

Work place will move to an office park

Major changes in the working speculative involvement in the environment both for the manufacturer and the office worker are on the way, backed by usually cautious insti-tutional finance.

Demand from companies in the micro-electronics field for industrial units to high specifi-cations and with laboratory and office content is but a half way house to large out-of-town office parks, which have proved so successful in North

Already the electricity sup-ply industry pension fund has committed £150m to the first such scheme near Bristol, while the Universities Staff Superannuation Scheme has earmarked some £50m for another massive development within a mile of Heathrow Airport planned by the property group Trust Securities.

The Aztec West development near the junction of the M4 and M5 motorways north of Bristol will be the first true greenfields development including both office and indus-trial space on the American model in this country, and will be followed by further residential development in the area.

It will eventually comprise about 2 million sq ft of warehouse office and industrial space on a landscaped site of 170 acres, arranged in a campus style development and incorporating shops, banks and leisure facilities. The aim is to create a village centre atmosphere for the skilled staff who will work there.

industrial property market.

But the question for the fund manager is, will the rents obtainable be sufficient to offset the added risks of such a major and untried venture in

this country? What has been notable in the early days of the Aztec West project, in which a number of other funds also have an interest. Is that whereas there is no premium on industrial space over other developments n the area, office rents of f6.50 per sq ft are being achieved, which are comparable with those being achieved in Bristol City centre.

So the stage is set for commuting and most people further out-of-town office would welcome a shortened parks on this American pattern and easier journey to an out of low density development, town location. Naturally too, good car parking, and out standing environmental features such as landscaping

There are numerous advantages to such a development according to Mr. James Donald of estate agents Savills. Foremost of these are the lower operating costs of the business in terms of rent and As standards of living rise

Briefly . . .

☐ More shopping centres opened in 1981 than at any time since 1976 but the average size of schemes continues to fall steadily, according to estate agents Hillier Parker:

Last year 33 new shopping. centres opened, containing a total of 4.5m sq ft gross of floorspace, representing a considerable recovery from the 2.9m sq ft opened in 1980. The view that shopping centre development would fall

away because nearly all the major centres already had substantial schemes is not born out by the story of retail development in 1981. Only eleven of the 33 schemes were in the top 180

town centres in Britain, with Investment by pension funds small towns and new towns.

there is an increasing reluctance to go through the daily inconvenience and cost of

centres the top ten, and one institution ☐ Hongkong offices are the most expensive in the world at £30.25 per sq ft, ahead of New York at £29.25 per sq ft. London, until two years ago the most expensive market in the world, has fallen into third place with rents of £27.00 per

sq ft, according to estate agents Richard Ellis. In a survey of 23 leading centres throughout the world the agents show that the cheapest offices are in Brussels where rents currently are just £4.50 per sq ft, and Glasgow, where the figure is

£6.00 per so ft.
The factors affecting the Hongkong market — high demand and a shortage of central area developments are also present in London, according to Mr John Orton, the Ellis research partner, who

the more attractive the location the better the calibre of staff who would find the

The emphasis on landscaping such schemes means that development on a green field site is almost essential, with natural landscaping an added advantage. But here the great unknown arises - namely will planning authorities be prepared to consider the development of farmland for such schemes?

On the assumption that attitudes will change in due course to accept this kind of scheme, where are they most likely to spring up in the future?

In the latest issue of Savills' property trends bulletin Mr Donald cites the example of Basingstoke as a place where a purpose built office/business estate was developed from green fields outside the town itself. It is not park-like enough in layout and environment, he notes, but does prove that numerous companies will move to a non town-centre site if the location is right.

Basingstoke fits the bill as far as communications are concerned, with good rail and road links and easy access to Heathrow Airport, coupled with delightful countryside on its doorstep.

If the office park concept is to take off in this country these will be the essential requirements, so it is likely to be in the Thames Valley or roughly along the routes of the M3 and M4 motorways as far south as Southampton and as far west as Bristol, that most attention will be focused.

"UNDERNEATH THE
ARCHES"
A musical of the Flanagan and Allestory, Red Price prevs Feb 26. March 1, 26 34 7 30 201 7 60 27 at 5, 16 8 30. Opens May 3 at 70, 20 Eur Mon-Thurs 7 30, 10 at 70, 20 Eur Mon-Thurs 7 30, 20 Eur

is shrouded in secrecy. Why was he allowed to operate in Israel after unsuccessfully trying in the United States for over a year? Horizon tries to find the enswer to this and other unanswered WHERE WERE YOU THE

happened at the operation nobody

NIGHT THEY SHOT THE PRESIDENT? (Radio 4 8.00 pm) is the over-long and contentious title of a play by Martyn Read about a young man's transition to adulthood, Dominic Guard plays Richard, an intelligent teenager destined for University. To this end he is backed to the hilt by his teacher, Major Breeze (Peter Jeffrey) but Judith (Annette Crosbie) believes that his further education should be in a different direction. Poor Richard's future becomes a battle between two implacable protagonists.

Elite Spanish troops training 7,500ft up in the Pyrenees to give their monarch, an accomplished skier, protection in the snow. Since last year's coup, the bodyguard of King Juan Carlos has been increased from four to 20 when he skis. And they have to be good to keep up with the King.

Government inquiry urged on 'Times' titles

Continued from page 1 Glanton, the historian Hugh Trevor-Roper, has criticized it as a prima facie violation of

the guarantees and a "gross incivility".

Of the other independent directors, Sir Edward Pickering said that if legal advice was that it was outside their orbit, it was "quite proper". Lord Greene of Harrow Weald, the former general secretary of the National Union of Railwaymen, said: "All I know about it is what is in The

Mr Gerald Long, managing director of TNL, said yesterday that he had initiated the pro-posal at the meeting. He added: "I have an absolutely clear conscience that it was quite legal."

Mr Long said the titles were, as they had been before the move, within the News Inter-national Group. "The ownership of titles only becomes of any real importance in the light of the existence or non-existence of TNL."

legal steps had been taken and it had all been properly done."

Mr Eckberg said the legal advice given to the board of TNL was that titles, though assets, were "not interests apparently". He did not know that results count as interests.

what would count as interests, what would count as interests, but "possibly shares would". He added: "The articles of association say we cannot sell or dispose of any loterest in the newspaper. The word in question is interest and we are advised that this does not refer to the titles or assets and we are therefore entitled to transfer the titles."

Mr Smith, the Shadow Trade Mr Smith, the Shadow Trade

Minister, yesterday wrote to Mr Biffen calling on the Secretary of State to intervene as "the real custodian of the agreement" reached over Mr Murdoch's takeover last year. He said in his letter: "You recommended the transfer of the papers to Mr Murdoch to Parliament on the basis that the safeguards were adequate and the mechanism proposed would ensure they were ad-The editor of The Times, hered to It now seems to me Mr Harold Evans, said last you have a duty to intervene night: "We were told that all to preserve them.

"I suggest you hold im-mediate talks both with the independent directors and with Mr Murdoch and make an early statement to Parllia-

ment."
He said yesterday that the independent directors "must assert themselves and call Mr Murdoch to account" Mr Smith added: "The disposal of the titles in secret last year by Mr Murdoch is a beautheshing subterfuse which breathtaking subterfuge, which raises very serious questions about his future intentions for both newspapers."
Sir William Rees-Mogg,
interviewed on BBC Radio's
The World This Weekend, said

the transfer should be cancel-led "unless and until the independent national directors
have been properly consulted
and they give their consent
by a majority, if they do."

He said the transfer he said the transfer breached three documents: Mr Murdoch's original agreement to purchase from the Thomson organisation; the company's articles of association; and the conditions laid down by the Secretary of A smooth and imquestioned transfer of the titles would have made it more attractive and easier for Mr Murdoch to proceed with liquidation of the papers, Sir William added-

According to the Department of Trade, Mr. Riffer could direct a company to reverse a decision if he judges it breaches the conditions attached to a newspaper merger or sale.

ger or sale.

But it was suggested that
his only sanction would be a
reference to the Director of Public Prosecutions. Mr Arthur Brittenden, cor porate relations director of News International, acknow-ledged yesterday that the com-

pany was almost certainly in breach of Department of Employment procedures for declaring redundancies.

The company told the Department lest week and could see its entitlement to redundancy rebates affected as a result. Mr Brittenden said money was running out so fast, that "under the pressure the company has been facing we have not been able to observe a 90-day notice".

Syrian mutiny reported as rebels hold out

Continued from page 1 traffic was using a detour through the suburbs of Hama. The official account of the fighting is somewhat different from the version being put about by Syrian exiles in Beirur and other Arab cities. According to the Government, their security forces came under fire in the city after discovering have stores of discovering huge stores of arms belonging to the Brotherhood. Photographs published in the government-controlled in the government-controlled press show Soviet-made Kalishnikov rifiles and rocket-propelled grenades, but also a large quantity of American-manufactured M16 rifles. The American connection is important. American connexion is impor-tant for the authorities who are claiming that the United States and the CIA are the main instigators of the vio-

lence. Questioned during the Arab foreign ministers conference in Tunis, Mr Abdul-Halim Khaddam, the Syrian Foreign Minister, insisted there had been no incidents in the coun-uy, only "Beath party and

security searches for erms dumps. What was going on in Hama, he said, was no different from what happened in France, the United King.

in France, the United Kingdom, Kowait, Saudi Arabia and other countries.

The parallel with Saudi Arabia—which pays the bulk of the money to Syria's army in the Lebanon—was somewhat pointed; not long after the iranian revolution, Saudi troops fought pitched battles to drive Muship extremists from the Great Mosque at Mecca. The European comparisons were European comparisons were less credible; the British Army, for instance, has hardly resorted to tank warfare in the streets of Belfast, and the British police are not in the abit of units. habit of using rifles to deal with distorbances.

Hama has long been a seat of insurrection in Syria, and four of the city's mosques, said to be under shellfire to-day, were bombed by the Syrian sir force more than a decade ago during another, less Leading article, page 11

Letter from New York

Whispering campaign to market 'Chariots'

Few who have seen the film about two runners and their different motives in striving for Olympin gold in 1924, will doubt that the nominations are merited. Less striving for Olympin gold in A third important tactic striving for Olympin gold in A third important tactic striving for Olympin gold in A third important tactic striving for Olympin gold in the strip was to upt for a wisspering comparing to the film in America: though the strip on television. Last year 116 movies bought IV air-time to promote themselves IV adamost as responsible for the mominations as are the film's preduction staff, threeton and usual.

never hig box office. In fact, prior to Chariots the only foreign films in the last decade which made more than \$3m in rentals were Tess and La Cage aux Folles. By Friday morning Chariots had already exceeded this magic figure.

erceided this magic figure.

The marketing problems were formidable. The first thing people went to know about a movie is Who is in it?" ". says Ashley Boone of the Ladd Company, the joint marketers in America with Wasners. "Well, Chariots doesn't have any household names. The second question is: What is it about? Well, you can't sum up Charlets properly in two sectences.

"The third thing is: it is a

properly in two sentences.

The third thing is: it is a period movie, which normally turns off mea, and a sporting movie, which turns off women. On the face of it, therefore, Charious had nothing going for it, except the fact that in some vague, ill-defined way, uncomfortable to the marketing mind, it is a very good film indeed.

The way Ladd and Warners The way Ladd and Warners got round these problems is a model of canniness worthy of lan Charleson, who per-trays the Scots runner in the

First, they had to avoid cinema-going, and Chariots gentises a G (for general) looks set to win the big finantaring. With attitudes the cial success it deserves. It way they are these days, they will now go into \$00 need a PG (for parental guidance suggested) to make the film appetizing for scopil sticates So a single expletive a bit by American standards hat did the trick.

Peter Watson

When Charlots of Five re Next, they had to swold ceived seven Academy award those cinemas considered as nominations last Thursday, in the first houses. The distribution of the seven and best streemple, and best the Plaza cinema in Manhat-supporting accor (Ian Holm), tan for example, but this was supporting accordance thought of as too intellectual it was a marvellous accolade thought of as too intellectual it was a marvellous accolade thought of as too intellectual it was a marvellous accolade thought of as too intellectual it was a marvellous accolade thought of as too intellectual it. The state of the seven and they opted for the state of the seven the describes as a classy East describes 25 "2 classy Fast Side house but one which had acreened The Exorcist."

prediction staff, director and actors.

In America, where it mat there cries, New York, Los Angeles and Toronto. A week later three more last another three. The more representation of the large foreign films in America are almost new houses, almost the slowest prior to Chariots the only foreign films in the last decade which made more than Sam mentary tickets were sent to ential local figures. Comprimentary sickets were sent to every group imaginable who might be interested in the theme of the film. Boy Scouts, Girl Scouts, the American Jewish Congress, YMCAS, the Christian Athlesis American Athlesis American Athlesis of the Christian Athlesis o

> At Christmas time Chariots was extended to 26 cinemas, but mainly in those nine towns. Television advertising was still shunned but by now newspaper reviews had begun to appear and so press adver-tisements were run, based on these, with long lists of prominent local citizens who id seen the film and endor-

the Oscar nominations were to be announced last Thursday. Ladd and Warners booked 283 cinemas throughout the country. With the seven nominations reported in all the newspapers and on relevision, they thus got their film primated on the networks and at no direct cost.

Add to thet the fact that this weekend is a holiday celebrating Washington's birthday, with more time for cinema-going, and Chariots looks set to win the big finan-

Walks

Nature notes

Magpies gather in chattering

Magpies gather in chattering flocks in the treetops, their long tails pointing in all directions. These assemblies seem to express some early spring sexual excitement, before nest-building begins next mouth. Over lakes and ponds, mallards fly up and down in quacking pairs. Green woodpeckers call with a longer, shriller laugh, the equivalent of song for them. But as ground-feeders, depending very much on ants, they suffered in the winter frosts. Tree-creepers begin to sing: a few wispy notes, ending in a flourish, uttered as they make their-way up a tree-trunk.

Foxes are mating: their chilling screams echo through the might. They are slowly becoming town animals, feeding out of dustrins and making their earths in neglected gardens. Rabbits have began to breed, and the first litters are being born in their underground nests. The young will be up and out on the grass in a fortnight. On the hawthorn hedges, the buds are like pale green buttons, and in some places have burst into leaf. On hedge-banks, the buttery-looking stars of the lesser celandine are appearing. On waste ground, the toothed leaves of daudelions grow longer, and young nettles sting the unwary. DJM.

The Times/Halifax house price index

After rising is December, the secrate price of second-band housing fell again is January. Over the past three months, however, the secrace price, seasonally adjusted, has risen by 2.4 per cent and the index, at 163.1, has returned to the level it ranched last, September but, is still below the peak of 272.9 reached to March, 1981. The swenge price of any housing insufficient increased again in Jensery but is still below the January, 1981, figure. Regionally, house prices in Genatic London and the Southeast have shown the strongest signs of recovery, but overall destand and activity, partly due to the weather, but continued to detilize.

British Rall services recom-mence today after yesterday's strike by Aslet drivers with another strike set to start tonight, Eastern and Southern regions Eastern and Southern regions hope to operate normal communer and long-distance trains this morning. Rundown of services because of tomorrow's strike starts thinight; passengers should aim to reach destinations by 10 pm. No overnight trains.

British Airways reported that long-haul flights from terminal times at Heathrow airport, London, should operate without too many problems.

too many problems.
